Ladder Of Progress In Palestine:

Munera Studiosa Massey Hamilton Shepherd, Sherman Elbridge Johnson, 2016-09-30 Shifting Sands Thomas W. Davis, 2004-03-04 Before the 1970s biblical archaeology was the dominant research paradigm for those excavating the history of Palestine Today this model has been weighed in the balance and found wanting Most now prefer to speak of Syro Palestinian archaeology This is not just a nominal shift but reflects a major theoretical and methodological change It has even been labeled a revolution In the popular mind however biblical archaeology is still alive and well In Shifting Sands Thomas W Davis charts the evolution and the demise of the discipline Biblical archaeology he writes was an attempt to ground the historical witness of the Bible in demonstrable historical reality Its theoretical base lay in the field of theology American mainstream Protestantism strongly resisted the inroads of continental biblical criticism and sought support for their conservative views in archaeological research on the ancient Near East The Bible was the source of the agenda for biblical archaeology an agenda that was ultimately apologetical Davis traces the fascinating story of the interaction of biblical studies theology and archaeology in Palestine and the remarkable individuals who pioneered the discipline He highlights the achievements of biblical archaeologists in the field who gathered an immense body of data By clarifying the theoretical and methodological framework of the original excavators he believes these data can be made more useful for current research allowing a more sober reasoned judgment of both the accomplishments and the failures of biblical archaeology Educating Palestine Yoni Furas, 2020-04-17 Educating Palestine through the story of education and the teaching of history in Mandate Palestine reframes our understanding of the Palestinian and Zionist national movements It argues that Palestinian and Hebrew pedagogy could only be truly understood through an analysis of the conscious or unconscious dialogue between them The conflict over Palestine the study shows shaped the way Arabs and Zionists thought taught and wrote about their past British rule over Palestine promised the Jews a national home but had no viable policy towards the Palestinians and established an education system that lacked a sustainable collective ethos Nevertheless Palestinian educators were able to produce a national pedagogy that knew how to work with the British and simultaneously promoted an ideology of progress and independence that challenged colonial rule **Mekal, the God of Beth-Shan** Thomas L. Thompson, 2024-09-16

Discovering Buried Worlds André Parrot, 2022-12-06 In this classic work the eminent archeologist recounts his historic excavations and the significant Biblical findings they revealed French archeologist Andr Parrot led some of the most important digs of the twentieth century In 1933 he began excavations on the right bank of the Euphrates River in present day Syria Uncovering numerous artifacts and architecture he was able to identify the site as the Mesopotamian city of Mari In this wide ranging work Parrot vividly chronicles his experiences and shows how ancient discoveries can connect the biblical world to ours In accessible and engaging prose Parrot also discusses the history of archeological excavation and many of the civilizations we have learned about through the practice He also delves into the ways archeological discovery has helped

Digging Up Armageddon Eric H. Cline,2022-05-17 A vivid portrait of the early years of biblical archaeology from the acclaimed author of 1177 B C The Year Civilization Collapsed In 1925 famed Egyptologist James Henry Breasted sent a team of archaeologists to the Holy Land to excavate the ancient site of Megiddo Armageddon in the New Testament which the Bible says was fortified by King Solomon Their excavations made headlines around the world and shed light on one of the most legendary cities of biblical times yet little has been written about what happened behind the scenes Digging Up Armageddon brings to life one of the most important archaeological expeditions ever undertaken describing the stunning discoveries that were made there and providing an up close look at the internal workings of a dig in the early years of biblical archaeology

A Social and Religious History of the Jews Salo Wittmayer Baron,1952 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination How can this paradox be explained An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest These women most of them clerical workers in the large government bureaucracy are ambivalent about working outside the home considering it a change which brings new burdens as well as some important benefits At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity The new veiling expresses women s protest against this MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and acquiescence
