Laden Choirs The Fiction Of Patrick White:

Laden Choirs Peter Wolfe, 2014-07-15 In 1973 the Australian novelist Patrick White won the Nobel Prize for Literature the year that his great novel of family ties and change *The Eye of the Storm* was published and became a bestseller in America and Europe Yet White is still not widely known or read and few writers of today have provoked so many contradictory judgments Now Peter Wolfe has written the first book length study of the work of this brilliant and haunting novelist The study offers a subtle penetrating examination of White's style his skill in building narrative tension and also the depth and complexity reflected in his characterization which in his novels always dominates action Fittingly for a writer whose novels bear the indelible stamp of Australia the study also examines White's psychological use of setting and the intense sense of place found in his work No other critical study of White covers such a broad range of his writing Peter Wolfe considers here the entire canon of the novels *The Tree of Man* *Voss* *The Vivisector* *The Eye of the Storm* *A Fringe of Leaves* and *The Twyborn Affair* White's most recent novel are all discussed White's themes and settings range from the power and immensity of the wilderness of the Australian outback to the dislocations wrought in traditional values by postwar industrialization and urban sprawl *Laden Choirs* makes accessible to an American audience a writer of the first rank whose work lies at the heart of modernist concerns Literary students and scholars who wish to explore the world of Patrick White will find this book an essential key

Laden Choirs Peter Wolfe, [Reading Corporeality in Patrick White's Fiction](#) Bridget Grogan, 2019-03-25 In *Reading Corporeality in Patrick White's Fiction* An Abject Dictatorship of the Flesh Bridget Grogan combines theoretical explication textual comparison and close reading to argue that corporeality is central to Patrick White's fiction shaping the characterization style narrative trajectories and implicit philosophy of his novels and short stories Critics have often identified a radical disgust at play in White's writing claiming that it arises from a defining dualism that posits the purity of the disembodied spirit in relation to the pollution of the material world Grogan argues convincingly however that White's fiction is far more complex in its approach to the body Modeling ways in which Kristevan theory may be applied to modern fiction her close attention to White's recurring interest in physicality and abjection draws attention to his complex questioning of metaphysics and subjectivity thereby providing a fresh and compelling reading of this important world author

[Patrick White's Fiction](#) Carolyn Bliss, 1986-08-18 This study examines all eleven novels of Patrick White the great Australian writer and Nobel Prize winner It begins from the observation that major characters in his novels undergo a necessary redemptive or facilitating failure This failure paradoxically enables their success within the context of what White has called the overreaching grandeur which circumscribes human existence Evolution of this theme is traced through forty years of White's fiction from his first novel *Happy Valley* 1939 to his most recent work *The Twyborn Affair* 1979 Comprehensive in its scope this book is informed by a thorough knowledge of White's poetry plays short stories and autobiography as well as his novels It is also unique in stressing that White's world view derives from a distinctly Australian

experience It thus links him to a country in which he is deeply rooted and to a heritage he continued to affirm

Dissociation and Wholeness in Patrick White's Fiction Laurence Steven,1989-08-23 Most studies of Patrick White's fiction are devoted to elucidating archetypal patterns symbolic configurations and thematic preoccupations and generally to praising the way White's fictional elements combine to form a religio mystical worldview Few have questioned this critical approach to White fewer still have questioned White's vision itself Yet according to the author questioning is in order for Patrick White is a man divided One part of him strives for permanence for the ideal in a world he knows is contingent and temporal a world that will undermine his striving This leads him as a novelist to devalue human life and to impose arbitrary symbolic resolutions on his novels This has been the focus of most critics But there is another side a part of White that strains away from the dualism of idealism versus despair and towards a vital wholeness that can be found not in a world beyond the one we live in but in human relationships It is this side of Patrick White argues Laurence Steven that is the source of his genuine power as a novelist An important challenge for the critic is to develop an ability to see within the restrictive compass White's symbolic designs impose on the novels the new shoots as D H Lawrence would have it which indicate new life new creativity and which point towards a wholeness which human beings can embrace as their own

Introduction The Rocks and Sticks of Words Gordon Collier,2021-11-15 [The Cambridge Companion to the Australian Novel](#) Nicholas Birns,Louis Klee,2023-03-02 This book provides a clear lively and accessible guide to the complex histories and vital present of the Australian novel [Mysticism and the Mid-Century Novel](#) J. Clements,2011-11-01 This book argues that many of the mid twentieth century's significant novelists were united by a desire to return the increasingly interior novel to ethical engagement They did not seek morality in society politics or the individual will but sought to unveil a transcendent Good by using techniques drawn from the canon of mystical literature **Encyclopedia of the Novel** Paul Schellinger,2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world **Contemporary Australian Literature** Nicholas Birns,2015-12-01 Australia has been seen as a land of both punishment and refuge Australian literature has explored these controlling alternatives and vividly rendered the landscape on which they transpire Twentieth century writers left Australia to see the world now Australia's distance no longer provides sanctuary But today the global perspective has arrived with a vengeance In Contemporary Australian Literature A World Not Yet Dead Nicholas Birns tells the story of how novelists poets

and critics from Patrick White to Hannah Kent from Alexis Wright to Christos Tsiolkas responded to this condition With rancour concern and idealism modern Australian literature conveys a tragic sense of the past yet an abiding vision of the way forward Birns paints a vivid picture of a rich Australian literary voice one not lost to the churning of global markets but in fact given new life by it Contrary to the despairing of the critics Australian literary identity continues to flourish And as Birns finds it is not one thing but many In this remarkable bold and fearless book Nicholas Birns contests how literary cultures are read how they are constituted and what they stand for In examining the nature of the barriers between public and private utterance and looking outside the absurdity of the rules of genre Birns has produced a redemptive analysis that leaves hope for revivifying a world not yet dead John Kinsella

Displaced Persons: Conditions of Exile in European Culture

Sharon Ouditt, 2017-03-02 This lively and intellectually vigorous conspectus of studies approaches the subject of exile from a variety of disciplinary perspectives The contributions to this volume give due attention to the twentieth century migratory phenomena theorised by Edward Said Julia Kristeva and Salman Rushdie They also show that the discourse and experience of exile is not the stuff of modernity alone The volume illustrates that the waning of the Middle Ages Reformation and Restoration politics and the importation of Egyptian mummies into a nineteenth century England hungry for imperial exotica reveal displacement dislocation otherness and the uncanniness of observing strangers on display to have long been part of European cultural currency The essays range across a variety of disciplines literary studies modern languages history of science philosophy and museum studies

Patrick White Simon During, 1996 During takes advantage of recently published letters and biographical information to rethink Patrick White's place in Australian history and culture He argues that White's rather conventional modernist writings negotiated the end of colonial relations with Britain During addresses connections between White's homosexuality and his writing suggesting that many of his texts attain some of their most powerful effects from being written in and about the closet In addition he views White as an autobiographical writer who drew on his life to construct an image of himself as a genius a strategy which successfully set him at the head of Australian national literature

Patrick White David John Tacey, 1988 This remarkable work by Dr David Tacey demolishes some of the long held beliefs about Australia's leading literary figure Patrick White It has also been heralded as an exciting and extremely creative insight into the Australian unconscious
