## **Lady Behave:**

American Theatre Gerald Bordman, 1996-11-21 This book concludes Gerald Bordman's acclaimed survey of American non-musical theatre. It deals with the years 1930 to 1969, a period when the number of yearly new plays was shrinking but a period during which American drama as a whole entered the world stage and became a dominant force. With works like Eugene O'Neill's *Long Day's Journey into Night*, Tennessee Williams's *A Streetcar Named Desire*, and Arthur Miller's *Death of a Salesman*, American theater finally reached adulthood both dramatically and psychologically. Bordman's lively authoritative study covers every Broadway production as well as every major off-Broadway show. His discussion moves season by season and show by show in chronological order; he offers plot synopses and details the physical production, directors, players, theaters, and newspaper reviews. This book stands together with the preceding volumes of *American Theatre* as the premier history of American drama. **The History of Sir Charles Grandison. In a Series of Letters** Samuel Richardson, 1762

Broadway Plays and Musicals Thomas S. Hischak, 2009-04-22 New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers, and technicians. While there are many reference works and critical studies of selected Broadway plays or musicals, and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919. *The Novels of Samuel Richardson* Samuel

Richardson, 1902 Works of Samuel Richardson: The history of Sir Charles Grandison Samuel Richardson, 1883 The history of Sir Charles Grandison Samuel Richardson, 1902 **Design at Home** Grace Lees Maffei, 2013-12-17 Domestic advice literature is rich in information about design ideals of domesticity, consumption, and issues of identity, yet this literature remains a relatively neglected resource in comparison with magazines and film. *Design at Home* brings together etiquette, homemaking, and home decoration advice as sources in the first systematic demonstration of the historical value of domestic advice literature as a genre of word and image and a discourse of dominance. This book traces a transatlantic domestic dialogue between the UK and the US as the chapters explore issues of design, domesticity, consumption, social interaction, and identity markers including class, gender, and age. Areas covered include the use of domestic advice by historians, relationships between advice, housing, and the middle class, links between advice and gender advice, and the teenage consumer. *Design at Home* is essential reading for students and scholars of cultural and social history, design history,
