Lady Janes Physician:

Lady Jane's Physician Random House, 1999-05-01 Send Us a Lady Physician Ruth J. Abram, 1985 The irony of women's acceptance into the medical world and the unfortunate decline in their status at the beginning of the twentieth century is illustrated in this volume through words and pictures By focusing on the class of 1879 at the Woman's Medical College of Pennsylvania the authors of the various essays depict individual trials frustrations and victories of nineteenth century women physicians and we come to understand a vital aspect of our history and how it affects us all today The Story of a Beautiful Duchess Horace Bleackley, 1907 Lady Anne and Lady Jane Amelia Opie, 1813 *Lady Jane's Physician* Anne Ashley, 2010 Lady Jane Beresford was happy to stay with her cousin Lady Jane Knightley but her enjoyment was marred by meeting blunt Dr Thomas Carrington Then when Jane needed his professional help they couldn't help falling in love But Tom knew if Jane didn't that an Earl's daughter was out of his reach *The physician's daughters; or, The spring-time of woman* [by L. Nelson]. Lucy Nelson, 1862 **The Ancient Physician's Legacy to his Country. Being, what he has collected himself in forty-nine years' practice: or, an account of the several diseases incident to mankind ... Together with the several remedies for each distemper, etc** Thomas DOVER (M.B.), 1733 Memorial for Archibald Douglas of Douglas, Esq Sir Ilay Campbell, 1766 *Women Physicians and Professional Ethos in Nineteenth-Century America* Carolyn Skinner, 2014-01-27 Women physicians in nineteenth century America faced a unique challenge in gaining acceptance to the medical field as it began its transformation into a professional institution The profession had begun to increasingly insist on masculine traits as signs of competency Not only were these traits inaccessible to women according to nineteenth century gender ideology but showing competence as a medical professional was not enough Whether women could or should be physicians hinged mostly on maintaining their femininity while displaying the newly established standard traits of successful practitioners of medicine *Women Physicians and Professional Ethos* provides a unique example of how women influenced both popular and medical discourse This volume is especially notable because it considers the work of African American and American Indian women professionals Drawing on a range of books articles and speeches Carolyn Skinner analyzes the rhetorical practices of nineteenth century American women physicians She redefines ethos in a way that reflects the persuasive efforts of women who claimed the authority and expertise of the physician with great difficulty Descriptions of ethos have traditionally been based on masculine communication and behavior leaving women's rhetorical situations largely unaccounted for Skinner's feminist model considers the constraints imposed by material resources and social position the reciprocity between speaker and audience the effect of one rhetor's choices on the options available to others the connections between ethos and genre the potential for ethos to be developed and used collectively by similarly situated people and the role ethos plays in promoting social change Extending recent theorizations of ethos as a spatial ecological and potentially communal concept Skinner identifies nineteenth century women physicians rhetorical strategies and outlines a

feminist model of ethos that gives readers a more nuanced understanding of how this mode of persuasion operates for all speakers and writers

Nursing, Physician Control, and the Medical Monopoly Thetis M. Group, Joan I. Roberts, 2001-10-03 *Nursing Physician Control and the Medical Monopoly* Historical Perspectives on Gendered Inequality in Roles Rights and Range of Practice Thetis M Group and Joan I Roberts A history of physicians efforts to dominate the healthcare system *Nursing Physician Control and the Medical Monopoly* traces the efforts by physicians over time to achieve a monopoly in healthcare often by subordinating nurses their only genuine competitors Attempts by nurses to reform many aspects of healthcare have been repeatedly opposed by physicians whose primary interest has been to achieve total control of the healthcare system often to the detriment of patients health and safety Thetis M Group and Joan I Roberts first review the activities of early women healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the medical monopoly during the 1920s and 1930s along with the waning of feminism led to the concretization of stereotyped gender roles in nursing and medicine The growing unease in nurse physician relations escalated from the 1940s to the 1960s the growth and complexity of the healthcare industry expanding scientific knowledge and increasing specialization by physicians all created heavy demands on nurses Conflict between organized medicine and nursing entered a public open phase in the late 1960s and 1970s when medicine unilaterally created the physician's assistant countered by nursing's development of the advanced nurse practitioner But gender stereotypes remained central to nurse physician relations in the 1980s and into the 1990s Finally Group and Roberts examine the results of the medical monopoly from the impact on patients health and safety to the development of HMOs and the current overpriced poorly coordinated and fragmented healthcare system Thetis M Group is Professor Emerita at Syracuse University where she was Dean of the College of Nursing for 10 years and an adjunct faculty member at the University of Utah College of Nursing She is co author of *Feminism and Nursing* and has published numerous articles in professional nursing journals Joan I Roberts social psychologist is Professor Emerita at Syracuse University A pioneer in women's studies in higher education she is co author of *Feminism and Nursing* and author of numerous books and articles on gender issues and racial and sex discrimination June 2001 352 pages 6 1 8 x 9 1 4 index append cloth 0 253 33926 X 29 95 s 22 95
