Lady Of The Lake Dodo Press The

Ann Rigney

Lady Of The Lake Dodo Press The:

The Afterlives of Walter Scott Ann Rigney, 2012-03-08 Sir Walter Scott 1771 1832 was once a household name but is now largely forgotten This book explores how Scott's work became an all pervasive point of reference for cultural memory and collective identity in the nineteenth century and why it no longer has this role Ann Rigney breaks new ground in memory studies and the study of literary reception by examining the dynamics of cultural memory and the social life of literary texts across several generations and multiple media She pays attention to the remediation of the Waverley novels as they travelled into painting the theatre and material culture as well as to the role of Scott as a memory site in the public sphere for a century after his death Using a wide range of examples and supported by many illustrations Rigney demonstrates how remembering Scott's work helped shape national and transnational identities up to World War I and contributed to the emergence of the idea of an English speaking world encompassing Scotland the British Empire and the United States Scott's work forged a potent alliance between memory literature and identity that was eminently suited to modernization His legacy continues in the widespread belief that engaging with the past is a condition for transcending it **Hamlet's Hereditary**

Queen Kerrie Roberts, 2022-12-30 This book explores a fresh and insightful interpretation of Hamlet's Gertrude as a prominent and powerful figure in the play It shows how traditional readings of this character both performance based and scholarly have been guided and constrained by misogynistic perspectives on female power Bringing together the author's wealth of insight from a theatre practitioner's perspective and combining it with a scholarly perspective the book argues that Gertrude need not be limited to sex and motherhood She could instead be played as Denmark's blood royal Queen her role in the play then being about female political power Gertrude's royal status could play out on stage through a variety of possible performance choices for stage design stage business acting processes and the actor's presence both speaking and silent **Hamlet's Hereditary Queen** takes into consideration Shakespeare's source myths historical studies of the position of queens and the issues concerning them in early modern England Hamlet's performance history and the text itself It questions traditional readings of Hamlet and offers detailed analyses of relevant scenes to demonstrate how Gertrude's Hamlet might play out on stage in the twenty first century This is an engaging and insightful interpretation for students and scholars of theatre and performance studies and Shakespeare studies as well as theatre practitioners **Mark of the Beast** Alfredo

Bonadeo, 1989-01-23 The First World War is a watershed in the intellectual and spiritual history of the modern world On the one hand it brought an end to a sense of optimism and decency bred by the prosperity of nineteenth century Europe On the other it brought forth a sense of futility and alienation that has since pervaded European thought That cataclysmic experience is richly reflected in the work of writers and artists from both sides of the conflict and this study provides a detailed analysis of two basic themes death and degradation that mark the literature about the war From their accounts most men entered the war lightheartedly filled with ideals of patriotism and glory but these generous feelings were soon quelled

as the war settled into a stalemate its operations reduced to simply grinding away the opposing forces In these operations Alfredo Bonadeo shows men became mere aggregations thrown against one another wasted with no appreciable effects or gains save carnage itself This cheapening and disregard for human life and being Bonadeo finds rooted not only in the conditions of war but significantly in a contempt for the common man prevailing in European political and intellectual circles This attitude is revealed most plainly in his analysis of the Italian literature which hitherto has received little note Italian leaders saw the war as an opportunity to expiate a sense of national guilt and here the inconclusive campaigns made their futility all the greater Out of the torn fields of the First World War grew the seeds of a second greater conflict but Professor Bonadeo concludes the flowering of the seeds was aided by the degradation of man's spirit on those fields The grim focus of this book the dead voices it evokes leads to a new appreciation of the meaning of the Great War

The Oxford Handbook of Feminism and Music Education Marissa Silverman, Nasim Niknafs, 2025-07-07 The Oxford Handbook of Feminism and Music Education brings together a wide range of international scholars practicing music teachers and educators policymakers and community musicians to conceptualize analyze and critique the personal social cultural political ethical and therapeutic practices and problems in music education through feminist perspectives The book offers global critical perspectives on a wide range of conceptual and practical issues in music education as they apply to various forms of feminist perspectives in music teaching and learning within schools and communities The central aims of this volume are to engage with readers' understandings of and critical thinking about feminist perspectives on the problems opportunities and spaces and places that music educators and community music facilitators encounter and to elucidate the concepts and practical strategies they employ to improve various aspects of music teaching and learning around the world through feminist lenses This book helps current and future music educators community music facilitators arts and music activists and solidarity workers to understand the many varieties and potentials of music teaching and learning as described by the world renowned scholars and practitioners in this book It further invites readers to consider how traditional forms of musical pedagogies can be transformed in ways that will make them more mindful of and empathetic toward the personal and musical aims and desires of music students musicians and musical communities and collectives This book will be of interest to teachers scholars administrators advocates and solidarity workers who wish to redefine refine and redesign music teaching and learning practices

British Naval Swords and Swordmanship Mark Barton, John McGrath, 2013-07-03 This new publication is intended to bring together a mass of research dealing with all aspects of British naval swords Unlike the much sought after *Swords of Sea Service* by May and Annis this work offers a far broader coverage and for the first time the complete story of swords and swordsmanship is presented in one concise volume While the swords themselves are described the authors also tell the story of naval swordsmanship For example subjects such as how swords and cutlasses were used in action and how training was conducted and covered The authors also address how the use of swords developed into a sport in the Navy

and how swords and swordsmanship may have entered naval symbology in such areas as ships names Many current myths are addressed and corrected and the story is brought right up to date with information on the sport from 1948 to 2000 While the book concentrates on the Royal Navy foreign weapons including those of the Irish Naval Service are mentioned where appropriate Other British Maritime organisations such as the Merchant Navy the Customs and Coastguard Services and the Reserves are also addressed The book also covers subjects such as dating collecting and conservation of swords and re examines those swords attributed to Nelson The Appendices include the first list of Swords of Peace awarded to naval units to be published Recent research by the authors is also reflected in the updated lists of Patriotic Fund Awards City of London Swords and Naval fencing champions contained in the Appendices The comprehensive nature of the work has not been attempted before and the book will appeal to a wide range of naval enthusiasts and historians collectors of weapons fencers and re enactors
