Laime Roman:

L'aime Jean Richepin,1906 **The Neuropyramid** Jaime Romano,2013-02-28 Jaime Romano has for several decades been studying the human brain As a neuroscientist and marketing consultant he has amalgamated his knowledge from these fields to create a pioneering model which explains the mental processes that are triggered after we receive a stimulus through our senses until they lead to an action An understanding of this model called Romano s Neuropyramid is a prerequisite for those who are starting in the neuromarketing field and essential reading for marketeers and publisists The author takes us on a journey through the various levels of the Neuropyramid attention sensory activation emotion cognition action regulator and action through examples diagrams and friendly language that remind us of our own experience and invites introspection Thus it is possible to understand what happens at the subconscious and intuitive levels in our mind which substantially increases our ability to predict the action outcome and therefore consumer behavior Cultural Understanding of Soils Nikola Patzel,Sabine Grunwald,Eric C. Brevik,Christian Feller,2023-09-22 Cultural understandings of soil are diverse and often ambiguous Cultural framing of soils is common worldwide and is highly consequential The implications of what place the earth has in people s world view and everyday life can be in line with or in conflict with natural conditions with scientific views or with agricultural practices The main assumption underlying this work is that soil is inescapably perceived in a cultural context by any human This gives emergence to different significant webs of meaning influenced by religious spiritual or secular myths and by a wide range of beliefs values and ideas that people hold in all societies These patterns and their dynamics inform the human soil relationship and how soils are cared for protected or degraded Therefore there is need to deal inter culturally with different sources and types of knowledge and experience regarding soil a need to cultivate soil awareness and situationally appropriate care through inter and intra cultural dialogues and learning This project focuses on the human and intangible dimensions of soil To serve this aim the International Union of Soil Sciences IUSS founded a working group on Cultural Patterns of Soil Understanding that has resulted in this book which presents studies from almost all continents written by soil scientists and experts from other disciplines A major objective of this project is to promote intercultural literacy that gives readers the opportunity to appreciate soil across disciplinary and cultural boundaries in an increasingly globalized world , *A History of the Church in Africa* Bengt Sundkler,Christopher Steed,2000-05-04 Bengt Sundkler s long awaited book on African Christian churches will become the standard reference for the subject *Racine's Roman Tragedies* ,2022-01-17 In two of his most famous plays Britannicus and B r nice Racine depicts the tragedies of characters trapped by the ideals desires and cruelties of ancient Rome This international collection of essays deploys cutting edge research to illuminate the plays and their contexts For Racine Rome is more than a location it is a set of values and traditions a space of opportunity and oppression The contributors to this volume examine Racine s stagecraft his exploration of time and space sound and silence and the ways in which he develops his own

distinctive understanding of tragedy The reception of his plays by contemporaries and subsequent generations also features In Racine s hands Rome becomes a state of mind haunted by both past and future This book s dedicatee Richard Parish passed away on January 1st 2022 just before publication We would like to dedicate this collection of essays to his memory

Proposed Leasing of Lands at Fort Bliss, Texas for the Proposed Siting, Construction, and Operation by the City of El Paso of a Brackish Water Desalination Plant and Support Facilities ,2004 *A Short History of Communism* Robert Harvey,2014-12-23 Today global communism seems just a terrible memory an expressionist nightmare as horrific as Nazism and the Holocaust or the slaughter in the First World War Was it only just over a decade ago that stone faced old men were still presiding over workers paradises in the name of the people while hundreds of millions endured grinding poverty under a system of mind controlling servitude which did not hesitate to murder and imprison whole populations in the cause of progress Or that the world seemed under threat from revolutionary hordes engulfing one country after another backed by a vast military machine and the threat of nuclear annihilation In the 1970s with the fall of South Vietnam Cambodia and Laos the march of Marxism Leninism across the world seemed irresistible Less than two decades later the experiment had collapsed leaving perhaps 100 million dead as well as economic devastation spanning continents Even China now increasingly embraces free market economics Only in a few backwaters does communism endure as obsolete as rust belt industry This book is the first global narrative history of that defining human experience It weighs up the balance sheet why did communism occur largely in countries wrenched from feudalism or colonialism to twentieth century modernism rather than as Marx had predicted in developed countries groaning under the weight of a parasitic middle class Were coercion and state planning in fact the only way forward for backward countries What was the explanation for its appeal not least among many highly intelligent observers in the West Why did it grow so fast and collapse with such startling suddenness *A Short History of Communism* sets out the whole epic story for the first time a panorama of human idealism cruelty suffering and courage and provides an intriguing new analysis **Forever Prisoners** Elliott Young,2021 The first broad history of immigrant detention in the United States *Forever Prisoners* narrates the stories of immigrants locked up by the US government from the late nineteenth century to the present showing how criminality has become conflated with undocumented migrants **Topical Communication Uncertainties** Stefan Vladutescu, Florentin Smarandache, Daniela Gifu, Alina Tenescu,2014 Communication is the main way of defusing uncertainties Unfortunately communication discipline itself is mined by uncertainties We can talk about onto epistemological uncertainties and pragmatic uncertainties of communication about theoretical and practical uncertainties and about primary and secondary uncertainties of communication Uncertainties regarding the object of communication as autonomous discipline the research methods of communication the sources paradigms and models of communication represent theoretical onto epistemological uncertainties Pragmatic uncertainties include uncertainties in communication processes they have a practical character Pragmatic

uncertainties are those that lead to communication failure and they consist in minor obstacles or insurmountable barriers in concrete communication Florentin Smarandache Stefan Vladutescu The book has 16 chapters written by the following authors and co authors from USA England Poland Slovakia and Romania Florentin Smarandache Stefan Vladutescu Mirela Teodorescu Dan S Stoica Daniela Gifu Calin Andrei Ioan Constantin Dima Mariana Man Janusz Grabara Paula Bajdor Jim O Brien Andrzej Rabsztyń Anabella Maria Tarnovan Adrian Nicolescu Alina Tenescu Nicusor Minculete Vladimir Modrak Sorin Mihai Radu Alice Ionescu Anca Diana Bibiri Lucian Sacalean Mircea Munteanu Roxana Criu Bogdan Constantin Neculau Marin Dramnescu Mihaela Gabriela Paun and Loredana Speriatu

Dodd,2009-11-15 Historically Nicaragua has been mired in poverty and political conflict yet the country has become a model for the successful emergence of democracy in a developing nation Learning Democracy tells the story of how Nicaragua overcame an authoritarian government and American interventionism by engaging in an electoral revolution that solidified its democratic self governance By analyzing nationwide surveys conducted during the 1990 1996 and 2001 Nicaraguan presidential elections Leslie E Anderson and Lawrence C Dodd provide insight into one of the most unexpected and intriguing recent advancements in third world politics They offer a balanced account of the voting patterns and forward thinking decisions that led Nicaraguans to first support the reformist Sandinista revolutionaries only to replace them with a conservative democratic regime a few years later Addressing issues largely unexamined in Latin American studies Learning Democracy is a unique and probing look at how the country's mass electorate moved beyond revolutionary struggle to establish a more stable democratic government by realizing the vital role of citizens in democratization processes

Double Diaspora in Sephardic Literature David A. Wacks,2015-05-11 The year 1492 has long divided the study of Sephardic culture into two distinct periods before and after the expulsion of Jews from Spain David A Wacks examines the works of Sephardic writers from the 13th to the 16th centuries and shows that this literature was shaped by two interwoven experiences of diaspora first from the Biblical homeland Zion and later from the ancestral hostland Sefarad Jewish in Spain and Spanish abroad these writers negotiated Jewish Spanish and diasporic idioms to produce a uniquely Sephardic perspective Wacks brings Diaspora Studies into dialogue with medieval and early modern Sephardic literature for the first time
