Calcutta and the west Bengal coal mining region and examines British economic policy in the nineteenth century Indian capitalists such as J R D Tata of Tata Steel established powerful relationships with domestic governments throughout the period holding indigenous industrial conferences and supporting the swadeshi movement which aimed to promote Indian manufactured goods The Indian Bourgeoisie is a unique and important contribution to the lively debate on the role of India s capitalists during the Raj and throughout the early years of independence Gandhi Porbandar to Partition Dilip Datta,2020-10-02 How could the advocate who had been so painfully shy in the court rooms of Bombay and whose luggage was thrown off the train in the middle of the night on the station of Maritzburg in South Africa acquire power to challenge the most powerful British Empire Dr Dilip Datta s book on Gandhi identifies the turning points in Gandhi s life and his strong determination importunity and the flame burning within him for which Gandhi had made a mark in the history of India s freedom movement Admitting that Gandhi s life was a continuing series of controversies contestations and contradictions Dr Datta has analysed Gandhi s life and works sociologically in a reader friendly manner without overlooking Gandhi s contribution as a modern liberal democrat Possessing the City Anish Vanaik,2020 Possessing the City is a social history of the property market in late colonial Delhi a period of much turbulence and transformation It argues that historians of South Asian cities must connect transformations in urban space with the economy of the city Using new archival material Anish Vanaik outlines the place of private property development in Delhi s economy from 1911 to 1947 Rather than large scale state initiatives like the Delhi Improvement Trust it was profit oriented decentralised and market based initiatives of urban construction that created the Delhi cityscape This volume also serves to chart the emerging relationship between the state and urban space in this period Rather than a narrow focus on urban planning ideas it argues that the relationship be thought of in a triangular fashion the intermediation of the property market was crucial to emerging statecraft and urban form in this period Possessing the City examines struggles and conflicts over the commodification of land particularly disputes over rents and prices of urban property The question of commodification can also however be discerned in struggles that were not ostensibly about economic issues clashes over religious sites in the city Through careful attention to the historical interrelationships between state space and the economy in Delhi this volume offers a novel intervention in the history of late colonial Delhi **Indian Merchants and Entrepreneurs in Historical Perspective** Makrand Mehta,1991 *Management and Labour Studies* ,1995 Dynamics of Industrial Entrepreneurship R. Affluence Is Not Enough The Escape From The Outer World To The Inner Keeps One Engaged Bred On The Western Literary And Philosophical Obsession In Camus Sartre Malamud And Other American Novelists Joshi Finds It A Fashionable Craze To Write About The Crisis Of Identity Almost In The Same Vein In Which The Seventeenth Century English Authors Posed To Be Melancholy

**Social Empowerment: The Constitutional Perspectives of Indian Society** Dr. Lodhi Kaniz Fatma Niyaz Ahmed, Violence and injustice are seen everywhere The winds of corruption are blowing everywhere From this it can be said that today s education is not seen to be able to maintain social stability and balance end social strife and create a competent and sensible citizen I think this is the biggest shortcoming of today s education system India has a positive atmosphere in this regard The concept of peace is associated with political freedom and social and economic development Peace education encircles the basic principles of peace and education Though it sounds similar its aim is quite different from the conventional way of teaching The writers always divide peace into two types One is negative peace and the other one is positive peace The concept of negative peace is the presence of war and physical violence Positive peace means the lack of the possibility of war and social injustice The concept of peace education is rather vast and indeed positive The need and importance of peace education become both unavoidable and noticeable as it aims to teach every individual to live in peace with each other It discourages violence and promotes equality Continue reading to understand the need and importance of peace education
