The Most Arrogant Man in France Petra ten-Doesschate Chu, 2024-05-14 A comprehensive reinterpretation of the pioneering and media savvy artist The modern artist strives to be independent of the public's taste and yet depends on the public for a living Petra Chu argues that the French Realist Gustave Courbet 1819-1877 understood this dilemma perhaps better than any painter before him In *The Most Arrogant Man in France* Chu tells the fascinating story of how in the initial age of mass media and popular high art this important artist managed to achieve an unprecedented measure of artistic and financial independence by promoting his work and himself through the popular press The Courbet who emerges in Chu's account is a sophisticated artist and entrepreneur who understood that the modern artist must sell and not only make his art Responding to this reality Courbet found new ways to package exhibit and publicize his work and himself Chu shows that Courbet was one of the first artists to recognize and take advantage of the publicity potential of newspapers using them to create acceptance of his work and to spread an image of himself as a radical outsider Courbet introduced the independent show by displaying his art in popular venues outside the Salon and he courted new audiences including women And for a time Courbet succeeded achieving a rare freedom for a nineteenth century French artist If his strategy eventually backfired and he was forced into exile his pioneering vision of the artist's career in the modern world nevertheless makes him an intriguing forerunner to all later media savvy artists

Symington,2015-02-05 The contributors to this volume encourage a re thinking of the very notion of culture by examining the experiences situations and the representations of those who chose or were forced to change cultures from the nineteenth century to the present day Beyond a simple study of migration forced or otherwise this collective work also re examines the model of integration As recent entrants into new social settings may be perceived as affecting the previously accepted social

equilibrium mechanisms encouraging or inhibiting population flows are sometimes put in place From this perspective integration may become less a matter of internal choice than an external obligation imposed by the dominant political power in which case integration may only be a euphemism for cultural uniformity The strategies of cultural survival developed as a reaction to such a rising tide of cultural uniformity can be seen as necessary points of departure for an ever growing shared multiculturalism A long term voluntary commitment to make cultural boundaries more flexible and allow a more engaged individual participation in the process of defining the self and finding its place within a culture in movement may represent a key element for cultural cohesion in a globalized world
