Land Between The Middle East:

Is There a Middle East? Abbas Amanat, 2012 This book offers diverse debates on the possible manifestations and meanings of the term Middle East **The Middle East** Bernard Lewis, 2009-12-15 Renowned historian Bernard Lewis charts the history of the Middle East over the last 2 000 years from the birth of Christianity through the modern era focusing on the successive transformations that have shaped it Drawing on material from a multitude of sources including the work of archaeologists and scholars Lewis chronologically traces the political economical social and cultural development of the Middle East from Hellenization in antiquity to the impact of westernization on Islamic culture Meticulously researched this enlightening narrative explores the patterns of history that have repeated themselves in the Middle East From the ancient conflicts to the current geographical and religious disputes between the Arabs and the Israelis Lewis examines the ability of this region to unite and solve its problems and asks if in the future these unresolved conflicts will ultimately lead to the ethnic and cultural factionalism that tore apart the former Yugoslavia Elegantly written scholarly yet accessible this is the most comprehensive single volume history of the region ever written from the world s foremost authority on the Middle East

Near and Middle Eastern Series , 1957 **The Land between Two Rivers** Thomas D. Petter, 2014-02-25 A survey of recent scholarship shows that historians who are skeptical about any real history of early Israel have disparaged the idea that Israel had an early presence in Transjordan This skeptical stance however is by no means shared by everyone Cross for instance asserted that the tribe of Reuben was a catalyst for Yahwism in the period preceding the rise of kings in Israel and Transjordan in the 10th 9th centuries B C Weaving together biblical extrabiblical and archaeological data available to him at the time 1988 Cross demonstrated the reality of an early Israelite presence in Transjordan Ongoing excavations at Tall al Umayri the type site for the Late Bronze Iron I transition in the region bounded by the Wadi Zarga in the north and the Wadi Mujib in the south and at Tall Madaba which had an early Iron I settlement now confirm a tribal presence in these Transjordanian areas during the early Iron I By bringing together applicable anthropological research and relevant biblical extrabiblical and archaeological data Petter outlines a context driven interpretive framework within which to plot tribal ethnic expressions in the past From the perspective of the *longue dur e* we can see that frontier regions tend to exhibit episodic changes of hand competing sides claimed legitimate ownership sometimes by way of making the gods owners of the land *Land Between the Rivers* Bartle Bull, 2024-09-10 The epic five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten

periods of five centuries each during the first nine of these the world's leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity's need for freedom versus the co-eternal urge of tyranny the ever-present conflict and cross-fertilization of East and West with Iraq so often the hinge We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage
