Land Grab:

The Global Land Grab Annelies Zoomers, Mayke Kaag, 2014-02-13 The last two years have seen a huge amount of academic policy making and media interest in the increasingly contentious issue of land grabbing the large scale acquisition of land in the global South It is a phenomenon against which locals seem defenceless and one about which multilateral organizations such as the World Bank as well as civil society organizations and action NGOs have become increasingly vocal This in depth and empirically diverse volume taking in case studies from across Africa Asia and Latin America takes a step back from the hype to explore a number of key questions Does the global land grab actually exist If so what is new about it And what beyond the immediately visible dynamics and practices are the real problems A comprehensive and much needed intervention on one of the most hotly contested but little understood issues facing countries of the South today Beyond the Global Land Grab Gustavo de L. T. Oliveira, Juan Liu, Ben M. McKay, 2021-11-17 The conjunction of climate food and financial crises in the late 2000s triggered renewed interest in farmland and agribusiness investments around the world This phenomenon became known as the global land grab and sparked vibrant debates among social movements NGOs international development agencies and various government agencies and academics worldwide This book addresses four key areas that are moving the debate beyond land grabs These include the role of contract farming and differentiation among farm workers in the consolidation of farmland the broader forms of dispossession and mechanisms of control and value grabbing beyond classic land grabs for agricultural production discourses about and responses to Chinese agribusiness investments abroad and the relationship between financialization and land grabbing The chapters in this edited volume propose new directions to deepen and even transform the research agenda on land struggles and agro industrial restructuring around the world This book will be of great interest to scholars and researchers interested in development studies agrarian changes and land struggles The chapters in this book were originally published as a special issue of the journal Globalizations **Global Land Grabs** Marc Edelman, Carlos Oya, Saturnino M. Borras Jr., 2016-03-22 Since the 2008 world food crisis a surge of land grabbing swept Africa Asia and Latin America and even some regions of Europe and North America Investors have uprooted rural communities for massive agricultural biofuels mining industrial and urbanisation projects Water grabbing and green grabbing have further exacerbated social tensions Early analyses of land grabbing focused on foreign actors the biofuels boom and Africa and pointed to catastrophic consequences for the rural poor Subsequently scholars carried out local case studies in diverse world regions The contributors to this volume advance the discussion to a new stage critically scrutinizing alarmist claims of the first wave of research probing the historical antecedents of today s land grabbing examining large scale land acquisitions in light of international human rights and investment law and considering anew longstanding questions in agrarian political economy about forms of dispossession and accumulation and grassroots resistance Readers of this collection will learn about the impacts of land and water grabbing the

relevance of key theorists including Marx Polanyi and Harvey the realities of China's involvement in Africa how contemporary land grabbing differs from earlier plantation agriculture and how social movements and rural people in general are responding to this new threat This book was published as a special issue of Third World Quarterly *Encountering Land Grab* Abhijit Guha,2022-04-27 Taking possession of private land for public purpose by the eminent domain of the state is a global phenomenon but it displaces and marginalizes the people at the local level The researchers have mainly dealt with this phenomenon either from the field or from the archive In this book the author has studied the observable fact of land grab or acquisition for industries in a particular locale of the West Bengal State by combining the field and archive in a unique mode through a multi sited ethnographic journey Unlike the traditional anthropological ethnographies consisting of single tribes or multi caste villages this vertical ethnographic voyage of the author led him to come across a group of dispossessed peasants in the villages a bunch of files in the district land acquisition department a rich text of proceedings in the West Bengal Assembly Library the growing global literature on land grab and also to reflect on his dialogues with the elected members of the parliamentary standing committee at New Delhi Ethnography for the author was the road map which guided his journey in these apparently separate existential domains of land acquisition and throws new light on how development policies are made and how they failed and what were the lessons learnt Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka [The Great African Land Grab?](#) Lorenzo Cotula,2013-07-11 Over the past few years large scale land acquisitions in Africa have stoked controversy making headlines in media reports across the world Land that only a short time ago seemed of little outside interest is now being sought by international investors to the tune of hundreds of thousands of hectares Private sector expectations of higher world food and commodity prices and government concerns about longer term national food and energy security have both made land a more attractive asset Dubbed land grabs in the media large scale land acquisitions have become one of the most talked about and contentious topics amongst those studying working in or writing about Africa Some commentators have welcomed this trend as a bearer of new livelihood opportunities Others have countered by pointing to negative social impacts including loss of local land rights threats to local food security and the risk that large scale investments may marginalize family farming Lorenzo Cotula a leading expert in the field casts a critical eye over the most reliable evidence on this hotly contested topic examining the implications of land deals in Africa both for its people and for world agriculture and food security **Gender and the Global Land Grab** Andrea M. Collins,2024-06-15 Since the year 2000 millions of hectares of land in the Global South have been acquired by foreign investors for large scale agricultural projects displacing and disrupting rural communities Women are especially disadvantaged by the global land grab they are less likely to inherit control or make decisions over land but often need land to support themselves their families and their communities While international organizations have developed global guidelines to improve land governance tensions still run high as the current policies fall

short Gender and the Global Land Grab introduces a feminist conceptual framework to analyze land governance policy around the world Andrea Collins shows how gender norms biases and expectations shape land politics at different levels of governance Drawing on examples from sub Saharan Africa and with an in depth case study of land politics in Tanzania the book assesses guidelines developed by institutions such as the Food and Agriculture Organization of the United Nations and the World Bank to highlight essential considerations for developing and implementing gender sensitive policy Illustrating how gender shapes resource policy across all levels of political activity Gender and the Global Land Grab provides valuable tools for transforming global policymaking

Land Grabbing and Global Governance Matias E. Margulis, Nora McKeon, Saturnino Borrás Jr., 2016-05-23 Land grabbing per se is not a new phenomenon given its historical precedents in the eras of imperialism However the character scale pace orientation and key drivers of the recent wave of land grabs is a distinct historical event closely tied to the changing dynamics of the global agri food feed and fuel complex Land grabbing is facilitated by ever greater flows of capital goods and ideas across borders and these flows occur through axes of power that are far more polycentric than the North South imperialist tradition Land grabs occur in the context of changes in the character of the global food regime formerly anchored by North Atlantic empires the integrated food energy complex seems to be headed towards multiple centres of power especially with the rise of the BRICS and the proliferation of middle income countries participating in many of the land transactions Land Grabbing and Global Governance offers insights from leading scholars and experts on contemporary land grabs This volume examines land grabs in direct relation to a global economy undergoing profound change and the role of new configurations of actors and power in governance institutions and practices This book was published as a special issue of Globalizations

Land Grabs in Asia Connie Carter, Andrew Harding, 2015-05-01 Although there is no universally accepted definition of the term land grabbing ordinary people whose livelihoods are adversely affected by land grabbing know exactly what it is It involves the physical capture and control of land and homes including the usurpation of the power to decide how and when these will be used and for what purposes with little or no prior consultation or compensation to the displaced communities This thought provoking book defines land grabbing and examines aspects of the land grabs phenomenon in seven Asian countries researched and written by country specific legal scholars The book provides unique perspectives on how and why land grabbing is practised in China India Pakistan Cambodia Malaysia Myanmar and Indonesia and explores the surprising role that law plays in facilitating and legitimizing land grabs in each country In contrast to most of the literature which law focuses on foreign investors rights under international law here the focus is on domestic laws and legal infrastructures Finding that Asian States need to move beyond existing regimes that govern land to a regime that encourages more equitable land rights allocation and protection of stakeholders rights the book urges further research in the nexus between the use of law to facilitate development Land Grabs in Asia is the first book to explore land grabbing in multiple jurisdictions in Asia As such it will appeal to students and

scholars of law and development law and society and international relations as well as being essential reading for development policy makers and government ministers

Global Land Grabbing and Political Reactions 'from Below'
Marc Edelman, Ruth Hall, Saturnino M. Borras Jr., Ian Scoones, Ben White, Wendy Wolford, 2017-08-15

When the 2007-2008 food and financial crises triggered a global wave of land grabbing, scholars, activists, and policy practitioners assumed that this would be met with massive peasant resistance. As empirical evidence accumulated, however, it became clear that political reactions from below to land grabbing were quite varied and complex. Violent resistance, outright expulsions, everyday weapons of the weak, and demands for better terms of incorporation into land deals were among the outcomes that emerged. Readers of this collection will encounter a multinational group of scholars who use the tools of social movements theory and critical agrarian studies to examine cases from Argentina, Mexico, Guatemala, Nicaragua, Colombia, Ethiopia, Madagascar, Mozambique, Uganda, Mali, Ukraine, India, and Laos, as well as the Rio 20 Sustainable Development Conference. Initiatives from below in response to land deals have involved local and transnational alliances and the use of legal and extra-legal methods and have brought victories and defeats. This book was first published as a special issue of *The Journal of Peasant Studies*.

Routledge Handbook of Global Land and Resource Grabbing, Andreas Neef, Chanrith Ngin, Tsegaye Moreda, Sharlene Mollett, 2023-06-12

This handbook provides a cutting-edge, comprehensive overview of global land and resource grabbing. Global land and resource grabbing has become an increasingly prominent topic in academic circles, among development practitioners, human rights advocates, and in policy arenas. *The Routledge Handbook of Global Land and Resource Grabbing* sustains this intellectual momentum by advancing methodological, theoretical, and empirical insights. It presents and discusses resource grabbing research in a holistic manner by addressing how the rush for land and other natural resources, including water, forests, and minerals, is intertwined with agriculture, mining, tourism, energy, biodiversity conservation, climate change, carbon markets, and conflict. The handbook is truly global and interdisciplinary, with case studies from the Global South and Global North, and chapter contributions from practitioners, activists, and academics, with emerging and Indigenous authors featuring strongly across the chapters. The handbook will be essential reading for students and scholars interested in land and resource grabbing, agrarian studies, development studies, critical human geography, global studies, and natural resource governance. Land Grabbing and Home Country Development
Ariane Goetz, 2019-05-13

Since 2008, foreign land acquisitions have attracted international attention under the term land grabbing. Illustrated by rich and nuanced empirical accounts of forty Chinese and British investment projects in Sub-Saharan Africa, Ariane Goetz explains the phenomenon of land grabbing from the perspective of two investor countries. She reflects on Chinese and British public policy, state-society relations, national developmental contexts, ideologies, and international relations, and thereby gives insights into the political economies that enable these investments, as well as the

development ambitions and institutionalized paradigms of which they form a part *Land Grabs in a Green African Economy* Nhamo, Godwell, Chekwoti, Caiphos, 2014-12-10 This book focuses on profiling from both literature based and primary research points of orientation instances of land grabs and or acquisitions with a focus on the implications of land grabs for trade investment and development policy in Africa under the global green economy transition agenda In many instances case studies and examples paint a picture that could be of use to policy makers Overall the book advocates a satisfy satisfy orientation when land deals are made as well as total transparency from key actors building grassroots negotiation capacity and awareness To illustrate some of the emerging issues in terms of land grabs acquisition and their implications for trade investment and development policies the sixth Trade Policy Training Centre in Africa trapca conference took place in Arusha Tanzania on 24 and 25 November 2011 The conference had two objectives 1 to come up with concrete policy interventions and recommendations that would harness foreign investment in land on the continent and 2 to publish this edited book of selected papers presented at the conference that met the rigorous specifications laid down by the editors and publishers One of the major revelations to emerge from the Conference was that there is no vacant land in Africa In addition participants took the view that land deals in Africa needed to be done on a satisfy satisfy satisfy rather than a win win win basis This book is jointly published by trapca and the Africa Institute of South Africa AISA *Land Grab Or Development Opportunity?* Lorenzo Cotula, 2009 Large scale acquisitions of farmland in Africa Latin America Central Asia and Southeast Asia have made headlines in a flurry of media reports across the world Yet international land deals and their impacts still remain little understood This report is a step towards filling this gap The outcome of a collaboration between IIED FAO and IFAD the report discusses key trends and drivers in land acquisitions the contractual arrangements underpinning them and the way these are negotiated and the early impacts on land access for rural people in recipient countries with a focus on sub Saharan Africa **Handbook of Land and Water Grabs in Africa** John Anthony Allan, 2013 Four other themes will be addressed politics economics the environment and the history of land investments in sub Saharan Africa Land Grabbing in Africa Fassil Demissie, 2017-10-02 The sign that Africa is on Sale has been appearing with regular frequency in major newspaper accounts across the world indicating that large amounts of Africa's rich farmlands are being sold to transnational investors usually on long term leases at a rate not seen in decades indeed not since the colonial period Transnational and national economic actors from various business sectors oil and auto mining and forestry food and chemical bioenergy etc are eagerly acquiring or declaring their intention to acquire large areas of land on which to build maintain or extend large scale extractive and agro industrial enterprises to help secure their own food and energy needs into the future This book provides a critical appraisal of the growing phenomenon of land grabbing in Africa Far from being a technical issue associated with good governance the problem of land grabbing by transnational corporation and states is a serious threat for the food security of millions of Africans and is undoubtedly one of the great challenges of our time for development on the

continent The case studies illustrate that African states are also complicit in the massive land grabbing by actively participating in isolated development while excluding the local communities The case studies reveal key features that characterize how the global land grab plays out in specific localities in Africa This book was published as a special issue of African Identities Tourism, Land Grabs and Displacement Andreas Neef,2021-05-09 This book examines the global scope of tourism related grabbing of land and other natural resources Tourism is often presented as a peaceful and benevolent sector that brings people from different cultural backgrounds together and contributes to employment poverty alleviation and global sustainable development This book sheds light on the lesser known and much darker side of tourism as it unfolds in the Global South While there is no doubt that tourism has been an engine of economic growth for many so called developing countries this has often come at the cost of widespread dispossession and displacement of Indigenous and non indigenous communities In many countries of the Global South tourism development is increasingly prioritised by governments businesses international financial institutions and donors over the legitimate land and resource rights of local people This book examines the actors drivers mechanisms discourses and impacts of tourism related land grabbing and displacement drawing on more than thirty case studies from Latin America and the Caribbean sub Saharan Africa South and Southeast Asia the Middle East and the Southwest Pacific The book provides solid grounds for an informed debate on how different actors are responsible for the adverse impacts of tourism on land rights infringements what forms of resistance have been deployed against tourism related land grabs and displacement and how those who have violated local land and resource rights can be held accountable Tourism Land Grabs and Displacement will be essential reading for students and scholars of land and resource grabbing tourism studies development studies and sustainable development more broadly as well as policymakers and practitioners working in those fields Transnational Land Grabs and Restitution in an Age of the (De-) Militarised New Scramble for Africa: A Pan African Socio-Legal V. Warikandwa,Artwell Nhemachena,2017-09-26 One of the fundamental challenges in deconstructing rethinking and remaking the world from a Pan African vantage point is that some captives have tended to delight in the warmth of the imperial predators mouth In other words some captives forget that the imperial predators mouth gets warm because empire is eating and heating up from prey on the continent De Militarisation Transnational Land Grabs and Restitution in an Age of the New Scramble for Africa A Pan African Socio Legal Perspective is a book that knocks on key aspects relating to land militarisation a PostAfrican World Order and a chaotic Post God World Order which require critical scholarly and policy attention in the quest to free Africa from centuries old imperial depredations The book carefully navigates the imperial entrapments which are designed to focus African attention only on decolonising African minds without also engaging in the imperially more unsettling decolonisation of African materialities

Talking about Race in America: Conversations with conservatives, liberals, independents, immigrants and others Seth Elijah, 2022-07-15 THIS work is a meeting of the minds People of different political and ideological beliefs articulate their positions on the question of race in the United States that has bedeviled the nation since its founding Conservatives liberals and independents as well as those who don t have any political affiliation or ideological positions exchange views debate offer suggestions and provide solutions to race problems facing the United States There are those who contend that the United States does not have a race problem It is individuals who have problems and they are the ones who complain about racism blaming society for their own failures in life Their problems have nothing to do with race Then there are those who say the United States has a race problem but it is not a major one as it once was Others contend that racism is one of the biggest and most urgent problems facing the nation Immigrants from all parts of the world also express their views and beliefs from different political and ideological perspectives on a subject that has divided the nation and continues to be one of the most contentious in the history of the country There are immigrants who don t see racism as a major problem in the United States even if they admit it exists There are those who agree with many Americans that racism still exists and it is a major problem Although immigrants they also offer solutions to a problem that from their own experience is a major one and should be addressed to achieve racial equality White nationalists also take part in the discussions on race exchanging views with conservatives liberals independents and

immigrants They explain their position and offer solutions to the race question some of which don't differ much from the solutions proposed by some people who would be considered to be an integral part of the mainstream and not on the fringes of the American society There is no consensus on the final solution to the race problem or an answer to the race question in the United States But there is some agreement on some race issues that cuts across racial and ideological lines for example with some black immigrants from Africa and the Caribbean articulating positions that are in conformity with the positions of those who are in the conservative movement contrary to what most black Americans believe Other immigrants including black ones are squarely within the liberal tradition of the Democratic party And there are those who don't embrace Republican or Democratic positions but take an independent position on race matters that is also different from the position taken by independents in the American political mainstream The race question may be far from being resolved But the views proposals and solutions presented in this book may help to point in the right direction toward a final solution to the problem that the United States has faced since slavery

Food Democracy Oliver Vodeb, 2017-08-01 In a world where privatisation and capitalism dominate the global economy the essays in this book ask how to make socially responsive communication design and art that counters the role of the food industry as a machine of consumption Food Democracy brings together contributions from leading international scholars and activists critical case studies of emancipatory food practices and reflections on possible models for responsive communication design and art A section of visual communication works creative writings and accounts of participatory art for social and environmental change curated by the Memefest Festival of Socially Responsive Communication and Art on the theme of Food Democracy are also included here The beautifully designed book also includes a unique and delicious compilation of socially engaged recipes by the academic artist and activist community Aiming not just to advance scholarship but to push ahead real change in the world Food Democracy is essential reading for scholars and citizens alike
