Wingo,2017 Homesteading the Plains offers a bold new look at the history of homesteading overturning what for decades has been the orthodox scholarly view The authors begin by noting the striking disparity between the public s perception of homesteading as a cherished part of our national narrative and most scholars harshly negative and dismissive treatment Homesteading the Plains reexamines old data and draws from newly available digitized records to reassess the current interpretation s four principal tenets homesteading was a minor factor in farm formation with most Western farmers purchasing their land most homesteaders failed to prove up their claims the homesteading process was rife with corruption and fraud and homesteading caused Indian land dispossession Using data instead of anecdotes and focusing mainly on the nineteenth century Homesteading the Plainsdemonstrates that the first three tenets are wrong and the fourth only partially true In short the public s perception of homesteading is perhaps more accurate than the one scholars have constructed Homesteading the Plainsprovides the basis for an understanding of homesteading that is startlingly different from current scholarly orthodoxy      **Job of the Planning Commissioner** Albert Solnit,1987-06-01 A popular and practical guide on how to be an effective planning commissioner Filled with checklists and outlines it s both a good introduction and a handy reference Includes a training checklist for new commissioners criteria for keeping a master plan in working order lists of tools to guide growth advice on how to deal with professional staff and dos and don ts for conducting successful public meetings This edition sharpens the focus on how commissioners and their staffs can operate under four core principles for planning commissioners citizen involvement smaller is better living in a market driven system and orderly growth
