*Industrial Tree Plantations and the Land Rush in China* Yunan

Xu, 2020-03-12 This book analyses the political and economic causes mechanisms and impacts of the industrial tree plantation boom in China In the past two decades the industrial tree plantation sector has been expanding rapidly in China especially in Guangxi Province Based on extensive primary data this book concentrates on the political economy of the sector s expansion with a focus on the recent and dramatic agrarian transformation involving the land labour nexus the impact on villagers livelihoods the role of the state and political reactions from below The book questions the stereotypical portrayal of local communities as the excluded villager Instead it demonstrates that this is a much more complex issue with varying levels of passive and active forms of inclusion and exclusion within local communities While most literature focuses on crop booms for food and biofuel production the industrial plantation sector has largely been overlooked despite it being one of the biggest sectors in the current rush for land Filling this lacuna this book also reveals that while China has traditionally been painted as a major land grabber and consumer of crop booms it is also a destination of foreign investment In doing so the book highlights how large scale foreign land deals can also take place in traditional grabber countries like China which feeds into the wider debates about global land politics and resource grabbing This book will be of great interest to students and scholars of land grabbing rural development and agrarian transformations as well as Chinese development

Rural Employment & manpower problems in China Curtis Ullerich, 2017-07-28

This title was first published in 1978 The present study is an outgrowth of the author s puzzlement with an obvious paradox Whereas the Chinese have always stressed the importance of their agricultural revolution in human social and political terms the community of Western observers has been increasingly fascinated by its more technological and quantitative achievements While a great deal has been written about these latter aspects Chinese invitations to take a closer look at the former ones have gone largely unheeded particularly in the more economic oriented quarters among China watchers This study tries to fill that gap

*Political Governance, Economic Pursuit, Global Hegemony, and Environment;*

*China, India, and the World* Kartik Roy, 2023-01-12 This treatise presents a critical discourse on the formulation and

implementation of economic development policies as well as on the outcome of the implementation of such policies in terms of the attainment of the i rate of economic growth and of the ii rise in the size of GDP and of the iii attainment of economic and social wellbeing of the citizenry of both China and India The author has analyzed the pattern of economic development of China and India in terms of the i growth in factors of production and of the ii growth in expenditures The reasons for the spectacular rise in economic power of authoritarian China and the subdued rise in economic power of highly decentralized

democratic India have been explained The growth and development outcome story of China shows that the limited political freedom of citizens and of officials of provincial governments has acted as a panacea for the realization of the country s developmental goals but in India the unlimited and uncontrolled political freedom of citizens and provincial rulers has acted as a powerful recipe for the growth of anarchy and for the realization of circumscribed goals of economic development In 1970 the per capita income of China and India stood at US 70 00 and US 60 00 but in 2022 the per capita income of China and India currently stands at US 12 536 00 and US 2691 20 The share of India s per capita income in China s per capita income in 1970 stood at 85 71 percent In 2022 the share of India s per capita income in China s per capita income has declined to 21 46 percent In this book the author has discussed all these issues Furthermore the author has also presented a short commentary on the possibility of the rapid decline of economic and political status of China by 2030 and of a steady rise of India as an economic and political Super Power      China 2002 Ross Garnaut,Ligang Song,2012-12-01 Twelve essays which discuss China with regards to its economy and its entry into the World Trade Organization      The Economic Development of China Ryoshin Minami,trans Wenran Jiang,2016-07-27 This book identifies that problems that China must face to develop its economy and elucidates the structural deficiencies which lay behind these problems Chinese economy compared with other economies in the world The book also analyzes China s present economic situation and where possible provides prescriptions for solving its problems by comparing it with the Japanese development experience      *Organic Food and Farming in China* Steffanie Scott,Zhenzhong Si,Theresa Schumilas,Aijuan Chen,2018-10-03 Despite reports of food safety and quality scandals China has a rapidly expanding organic agriculture and food sector and there is a revolution in ecological food and ethical eating in China s cities This book shows how a set of social economic cultural and environmental conditions have converged to shape the development of a formal organic sector created by top down state developed standards and regulations and an informal organic sector created by bottom up grassroots struggles for safe healthy and sustainable food This is generating a new civil movement focused on ecological agriculture and quality food Organic movements and markets have typically emerged in industrialized food systems that are characterized by private land ownership declining small farm sectors consolidated farm to retail chains predominance of supermarket retail standards and laws to safeguard food safety and an active civil society sector The authors contrast this with the Chinese context with its unique version of capitalism with social characteristics collective farmland ownership and predominance of smallholder agriculture and emerging diverse marketing channels China s experience also reflects a commitment to domestic food security evolving food safety legislation and a civil society with limited autonomy from a semi authoritarian state that keeps shifting the terrain of what is permitted The book will be of great interest to advanced students and researchers of agricultural and food systems and policy as well as rural sociology and Chinese studies      **China Under the Four Modernizations** ,1982      **International Real Estate Economics** Piyush Tiwari,Michael White,2017-09-16 As the real estate market becomes increasingly international it is

essential to understand how specific national markets operate and relate to one another The authors identify the similarities and differences observed across European Asian and American markets providing a framework to explain how these diverse national markets converge

**China: Agriculture in Transition , Towards a Labour Market in China** John Knight,Lina Song,2005-03-24 China s remarkable economic transition and capacity for dynamic growth has stunned the world Throughout the period of economic reform China has been moving towards the creation of a labour market The scale of this transformation is unprecedented New economic incentives vast labour migration draconian retrenchment of state workers and sharply rising wage inequality are all characteristic of this unique transition Drawing on more than a decade of survey based research the authors systematically document and analyse this important transformation They use economic and sociological theory institutional analysis and political economy to fully explain the causes pressures obstacles and consequences of the move towards a labour market in China It is argued that much progress has been made towards the creation of a labour market but that the process is far from complete

Accounting in China in Transition, 1949-2000 Allen Huang,Ronald Ma,2001 The history of the People s Republic of China can be classified into two distinctive periods Mao s China 1949-1978 and Deng s China from 1979 to the present Each period contains a number of sub periods or phases and each phase is characterised by one or more major political or economic events This book gives an outline of the major events and the associated accounting changes over time During the period of Mao s rule China experienced two violent political mass movements which inflicted great suffering on the nation There were few accounting developments in this period In contrast Deng s China set itself the ambitious task of transforming the centrally planned and centrally controlled economy into a market economy with Chinese characteristics

OCO There has been an accompanying development in Chinese accounting in which its key role of serving the Government s planning and control needs is transformed into serving the information needs of decision makers in the market place The economic reform in Deng s China has made considerable progress which is particularly evident in the urban and

coastal regions The transition from a planned economy to a market economy is incomplete and certain vexatious problems have yet to be resolved The resolution of the state owned enterprise reform issues will set a precedent for the further reform of Chinese accounting Contents Brief History of Accounting in China up to 1949 Accounting in Mao s China Establishment Phase 1949OCo1957 Great Leap Forward 1958OCo1962 Recovery Phase 1963OCo1965 Cultural Revolution 1966OCo1978 Accounting in Deng s China Political Scene in Deng s China Initial Economic Reform 1978OCo1984 Planned Commodity Economy 1984OCo1991 Socialist Market Economy Since 1992 Towards a Successful Outcome for SOE Reform Readership Undergraduate and graduate students academics businessmen and readers with an interest in Asian economic and financial affairs
