Statemaking and Territory in South Asia Bernardo A. Michael,2012-12-15 Statemaking and Territory in South Asia Lessons from the Anglo Gorkha War 1814 1816 seeks to understand how European colonization transformed the organization of territory in South Asia through an

examination of the territorial disputes that underlay the Anglo Gorkha War of 1814-1816 and subsequent efforts of the colonial state to reorder its territories. The volume argues that these disputes arose out of older tribute taxation and property relationships that left their territories perpetually intermixed and with ill-defined boundaries. It also seeks to describe the long drawn-out process of territorial reordering undertaken by the British in the nineteenth and twentieth centuries that set the stage for the creation of a clearly defined geographical template for the modern state in South Asia. External Research. ER List United States. Department of State. External Research Division, 1964. **The Sunuwar of Nepal and their Sense of Communication** Werner M. Egli, 2014. This detailed study on the Sunuwar people, one of the many indigenous peoples of Nepal, is based on more than twenty years of ethnographic research. The book starts with an account of the Sunuwar's indigenous notion of culture, *mukdum*, as expressed in social practice. With reference to specific social fields, a model of the Sunuwar person, mainly used to grasp deviations from the ideal way of life, is analyzed from the perspective of cultural psychology and the anthropology of the senses. The study concludes with an analysis of healing rituals, showing that their effect simultaneously results from the ancestral atmosphere produced by the shaman and a kind of domination-free discussion among the ritual participants, mainly taking place in the pauses of the ritual. Thus, the shamanic ritual is interpreted as a kind of mediation. Series LIT Studies on Asia. *Asien Forschung und Wissenschaft* Vol. 6. Subject Asian Studies. Anthropology. Cultural Studies. Psychology. Religious Studies. **Routledge Handbook of Race and Ethnicity in Asia** Michael Weiner, 2021-09-30. The *Routledge Handbook of Race and Ethnicity in Asia* introduces theoretical approaches to the study of race, ethnicity, and indigeneity in Asia, beyond those commonly grounded in the Western experience. The volume's twenty-eight chapters consider not only the relationship between ethnic or racial minorities and the state, but social relations within and between individual and transnational communities. These shape not only the contours of governance, but also the means by which knowledge of national identity, self, and other have been constructed and reconstructed over time. Divided into four sections, it provides holistic and comparative coverage of South, South East, and East Asia, as well as Australasia and Oceania, an area that extends from Pakistan in the West to Hawaii in the East. Contributors to this handbook offer a variety of disciplinary and interdisciplinary perspectives, opening a domain of scholarship wherein the relationship between phenotype and racism is less pronounced than European and North American approaches, which have often privileged the so-called colour stigmata, leading to further exclusions of particular ethnic, racial, and indigenous communities. This volume seeks to overcome racism and white ideologies embedded in theories of race and ethnicity in Asia, proving a valuable resource to both students and scholars of comparative racial and ethnic studies, international relations, and human rights. **Civil Service Management and Administrative Systems in South Asia** Ishtiaq Jamil, Tek Nath Dhakal, Narendra Raj Paudel, 2018-06-25.

Land and Territoriality Michael Saltman,2020-05-26 In the past territorial conflict usually involved major powers seeking hegemony over strategic spaces and resources More recently however the decline of opposing global power blocs has elevated ethnicity to a prime cause of conflict over land This book considers the multiple roles ethnicity plays in fostering territorial conflicts both violent and non violent across the globe While land disputes relating to nationalism have resulted in the loss of human life in some regions in others ties between ethnicity and land are asserted more peacefully Nationalism and challenges to the validity of the links between people and places have caused widespread bloodshed in the disputed territory of Palestine involving competing claims of Arabs and Jews have led to war In North America however indigenous Indians claims to land are settled in the courts rather than through violence This book shows how human

behaviour is affected by the multiple ways in which people identify with land topography and natural resources In doing so it highlights the growing trend towards defining physical space in specific ethnic contexts associated with a contemporary world that facilitates global movement *Reproduction of Inequality and Social Exclusion* Uddhab Pyakurel,2021-01-05 This book is a detailed account of how hierarchy has been maintained historically by the Nepali state affirming the uniqueness of a caste based social order by bringing outsiders especially ethnic groups and religious minorities into the caste fold Focusing on the contemporary state of Dalits the community that was and is put at the bottom of a very hierarchical social order in Nepal the author argues that the traditional caste based social order is still prevalent in the new Nepal even after the recent socio political and constitutional changes Illustrated by scientifically employed and interpreted data mainly in the three sectors of education politics and employment the book postulates that people who were and are born into the high caste still have more access to the resources and opportunities available in society in comparison with those born into the lower caste It further argues that although reservation policies are in place to address social exclusion these could not bring expected outcomes mainly due to the lack of engagement if not ignorance of both dominant groups and the community in the margin The absence of clarity among political actors on the positive discrimination and affirmative actions has contributed to backtracking the recently created space in line with inclusive Nepal *Towards A Democratic Nepal* Mahendra Lawoti,2005-02-17 Providing a comprehensive critique of the Constitution adopted in 1990 this book identifies it as an important factor in the exclusion of various ethnic and minority groups It examines the causes for the lack of democratic consolidation in Nepal and outlines alternative institutions that can give voice to the various socio cultural groups in the country Dr Lawoti makes a case for setting up a new Constituent Assembly and for following the principle of self determination to reform the polity He also makes several important recommendations for the construction of an inclusive and democratic Nepal
