Hegel Y Marx:

Sobre la relación entre Hegel y Marx Carlos Pérez Soto, 2021-08-03 Dos personajes históricos que marcaron el pensamiento filosófico político y económico del mundo contemporáneo cuyas obras por la interacción que las complementa determinan una relación entre ellos Hegel's Philosophy of Right, with Marx's Commentary H.P. Kainz, 2012-12-06 GEORG WILHELM FRIEDRICH HEGEL 1770 1831 THE PLACE OF HEGEL IN THE HISTORY OF PHILOSOPHY In order to gain a proper perspective of Hegel's place in the history of philosophy it might be useful to focus on one key concept which has evolved significantly in meaning from the time of Aristotle to Hegel I am speaking of the philosophical concept of the category In Aristotle's system there were ten categories or predicaments of reality or being These included substantiality time place quantity quality and other aspects of knowable beings The most notable thing about these categories is that they all have to do with what we would call objective realities That is none of them purport to describe subjective or mental states or conditions In modern philosophy i.e. philosophy since the time of Descartes there was a swing of the pendulum in the opposite direction from objectivity to subjectivity culminating in the twelve new categories of Kant All of Kant's categories were subjective ways of looking at reality We can organize objective phenomena into universal unities therefore the first Kantian category is unity We can separate objective phenomena into particular divisions therefore the second category is plurality And so forth With Hegel the modern trend to subjectivism is arrested and we have not surprisingly a new type of category the category of the unity of thought and being of self and other of subject and object *Filosofar en situación de indigencia* Pedro Trigo, 1999 Selección de artículos de varios autores cuya intención común es contribuir a la elaboración de una filosofía que esté pensada desde América Latina su historia su situación social y su cultura para responder a los acuciantes problemas teóricos y prácticos del continente Academic Rebels in Chile Ivan Jaksic, Iván Jaksic?, 1989-01-01 Many philosophers have been appointed to top level political positions during Chile's modern history What makes Chilean philosophers unique in the context of Latin America and beyond is that they have developed a sophisticated rationale for both their participation and withdrawal from politics All along philosophers have grappled with fundamental problems such as the role of religion and politics in society They have also played a fundamental role in defining the nature and aims of higher education The philosophers' production constitutes a substantial albeit largely unknown portion of the intellectual history of Chile and Latin America This book describes in detail the evolution of philosophical work in Chile and pays close attention to the relationship between philosophical activity and contemporary social and political events Various Chilean philosophical sources are discussed for the first time in the literature on Chilean ideas The work of such intellectuals as Andrés Bello Valentin Letelier Enrique Molina Jorge Millas Juan Rivano Juan de Dios Vial Larraín and many others is examined in relation to the principal political and educational issues of their time The book also develops a distinction between the two main currents of Chilean philosophy namely a professionalist current that seeks the independence of the field from social and

political involvements and a critical current that seeks to relate philosophical activity to national realities Marx and Latin America José M. Aricó, 2013-12-10 In a work centred on Marx's harsh biography of Simón Bolívar José Aricó examines why Latin America was apparently excluded from Marx's thought challenging the allegation that this expressed some Eurocentric prejudice Aricó shows how the German thinker's hostility towards the Bonapartism and authoritarianism he identified in the Liberator coloured his attitude towards the continent and the significance of its independence processes Whilst criticising Marx's misreading of Latin American realities Aricó demonstrates contemporaneous countervailing tendencies in Marx's thought including his appraisal of the revolutionary potentialities of other peripheral extra-European societies As such Aricó convincingly argues that Marx's work was not a dogma of linear progress but a living contradictory body of thought constantly in development English translation of the Marx y América Latina edition Fondo de Cultura Económica 2010

Marx for Today Marcello Musto, 2013-09-13 Since the onset of global crisis in recent years academics and economic theorists from various political and cultural backgrounds have been drawn to Marx's analysis of the inherent instability of capitalism The rediscovery of Marx is based on his continuing capacity to explain the present In the context of what some commentators have described as a Marx renaissance the aim of this book is to make a close study of Marx's principal writings in relation to the major problems of our own society and to show why and how some of his theories constitute a precious tool for the understanding and critique of the world in the early twenty-first century The book brings together varied reflections on the Marxian oeuvre drawing on different perspectives and fields and argues its case in two different parts The first will encompass such diverse areas and themes as political thought economics nationalism ethnicity post-capitalist society freedom democracy emancipation and alienation showing in each case how Marx has still today an invaluable contribution to make The second presents a complete and rigorous account of the dissemination and the reception of Marx's work throughout the world in the last decade Both parts make a significant contribution to the current research on Marx and Marxism This book was originally published as a special issue of Socialism and Democracy *Marxismo norteamericano (American Marxism Spanish Edition)* Mark R. Levin, 2022-08-02 BESTSELLER 1 DEL NEW YORK TIMES Mark R. Levin autor seis veces bestseller 1 del New York Times estrella de Fox News y presentador de radio regresa para explicar cómo aquellos peligros sobre los que nos advertí hace una década finalmente han ocurrido y lo que se debe hacer ahora para hacerlos retroceder Mark R. Levin moviliza a los conservadores en 2009 con Libertad y tiranía al cual brindó un marco filosófico histórico y práctico para detener el ataque liberal contra los valores basados en la Constitución que hizo su aparición durante los años de Obama Ese libro hablaba de que estamos parados frente al precipicio del ataque del progresismo a nuestras libertades desde la economía hasta la atención médica y desde el calentamiento global hasta la inmigración Ahora más de una década después hemos ido más allá de ese precipicio y estamos pagando el precio En Marxismo norteamericano Levin explica cómo hoy en día los elementos centrales de la ideología marxista se han generalizado en la

sociedad y la cultura estadounidenses desde nuestras instituciones educativas la prensa y las corporaciones hasta Hollywood el partido Demócrata y la presidencia de Biden y cómo a menudo se la disfraza con rutilos engañosos como progresismo socialismo democrático activismo social y activismo comunitario Con su característico análisis incisivo Levin se sumerge en la psicología y las tácticas de estos movimientos de masas el extendido lavado de cerebro de estudiantes los propósitos antiestadounidenses de la Teoría Crítica de la Raza y del Green New Deal y la escalada de represión y censura para silenciar a voces opositoras e imponer la conformidad Levin expone a un gran número de instituciones intelectuales académicos y activistas que lideran esta revolución y nos brinda algunas respuestas e ideas sobre cómo confrontarlos Como escribe Levin La contrarrevolución a la Revolución norteamericana está en pleno vigor Y ya no puede ser desestimada ni ignorada porque está devorando a nuestra sociedad y a nuestra cultura rondando en nuestras vidas cotidianas y omnipresente en nuestra política en nuestras escuelas en los medios y en la industria del entretenimiento Y tal como hizo antes Levin busca unir al pueblo estadounidense para que defienda su libertad

El origen y el triunfo del ego moderno Carl R. Trueman, 2022-04-01 La cultura moderna está obsesionada con la identidad. Desde la decisión del tribunal en el caso Obergefell vs. Hodges en 2015, la identidad sexual ha dominado el discurso público y las tendencias culturales, aunque ningún fenómeno histórico es su propia causa. Desde Agustín hasta Marx, diversos puntos de vista y perspectivas han contribuido al entendimiento moderno del ser. Carl Trueman analiza el desarrollo de la revolución sexual como un síntoma y no una causa de la pérdida de la identidad. Trueman estudia el pasado para traer claridad al presente y dar guía para el futuro mientras los cristianos navegan la cultura en la pérdida siempre cambiante del ser humano por la identidad. Modern culture is obsessed with identity. Since the landmark Obergefell v. Hodges Supreme Court decision in 2015, sexual identity has dominated both public discourse and cultural trends, yet no historical phenomenon is its own cause. From Augustine to Marx, various views and perspectives have contributed to the modern understanding of the self. Carl Trueman analyzes the development of the sexual revolution as a symptom rather than the cause of the human search for identity. Trueman surveys the past, brings clarity to the present and gives guidance for the future as Christians navigate the culture in humanity's ever-changing quest for identity.

El vacilar de las cosas Juan José Sebreli, 2014-07-01 El vacilar de las cosas constituye, junto con El asedio a la modernidad, la síntesis de las indagaciones, interrogaciones e hipótesis planteadas por Sebreli a lo largo de su vida intelectual. Signos de un tiempo de transición. El título aparentemente enigmático de este nuevo libro de Sebreli está inspirado por un parrafo de Hegel. El libro refleja las sensaciones que tiene el hombre de hoy el mundo en que vive, está oscilando, acaso porque no hay ni siquiera un sitio para encontrar explicaciones a esta situación confusa. Sebreli acude a dos grandes pensadores del pasado: presenta a un Hegel y a un Marx insólitos, desconocidos tanto por sus admiradores como por sus detractores. Contra la opinión corriente que los considera obsoletos, el ensayista argentino descubre su rigurosa actualidad, contra la opinión también difundida que los responsabiliza de la violencia y el caos de la vida moderna, ve en sus respectivos métodos de pensamiento los más adecuados para interpretar el lado malo de la modernidad sin hacer por eso visiones catastróficas ni apocalípticas. En la primera parte de la obra, el autor analiza las grandes corrientes del pensamiento político en que se basaron el siglo precedente y el actual. En la segunda parte, Política

de la filosofía se refiere a las formas en que estas ideas intentaron ser aplicadas a la historia llevadas a la realidad. Estudia comparativamente las grandes revoluciones la inglesa la francesa y la rusa y se detiene en esta última para indagar las causas de su deformación en el totalitarismo estalinista hasta su posterior colapso. En el último centenario de este fin de siglo provoca en lo social lo político y lo económico y se esboza observando las tendencias latentes en el presente la perspectiva de un posible futuro intelectual.
