Hegel and Marx David MacGregor, 2014-06-15 The Second Edition of *Hegel and Marx After the Fall of Communism* surveys Hegel s close connection with world famed economist Friedrich List the declared enemy of Karl Marx Illuminating the mysterious nature of Hegel s relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last 15 years since the original publication in 1998 The Afterword to this Edition looks at Russia s revival as a world power under Vladimir Putin and China s ambitious economic development efforts that bring to mind Sun Yat sen s vision of The International Development of China

From Marx to Hegel and Back Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy Given the contemporary renaissance of Marx and Marxist theories how should we re read the Hegel Marx connection today What place does Hegel have in contemporary critical thinking Most schools of Marxism regard Marx s inversion of Hegel s dialectics as a progressive development leaving behind Hegel s idealism by transforming it into a materialist critique of political economy Other Marxist approaches argue that the mature Marx completely broke with Hegel By contrast this book offers a wide ranging and innovative understanding of Hegel as an empirically informed theorist of the social political and economic world It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another With a particular focus on essential concepts like recognition love revolution freedom and the idea of critique this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel s philosophy with the power of Marx s social and economic critique of the contemporary world

Marx's Capital and Hegel's Logic , 2014-04-17 This book provides a wide ranging and in depth reappraisal of the relation between Marx s economic theory in *Capital* and Hegel s *Logic* by leading Marxian economists and philosophers from around the world The subjects dealt with include systematic dialectics the New Dialectics materialism vs idealism Marx s inversion of Hegel Hegel s Concept logic universality particularity singularity Hegel s Essence logic essence appearance Marx s levels of abstraction of capital in general and competition and capital as Hegelian Subject The papers in this volume were originally presented at the 22nd annual meeting of the International Symposium on Marxian Theory at Mount Holyoke College in August 2011 The twelve authors are divided between seven economists and five philosophers as is fitting for the interdisciplinary subject of the relation between Marx s economic theory and Hegel s logic Contributors are

Chris Arthur Riccardo Bellofiore Roberto Fineschi Gast n Caligaris Igor Hanzel Juan I igo Carrera Mark Meaney Fred Moseley Patrick Murray Geert Reuten Mario Robles Tony Smith and Guido Starosta **Hegel, Marx and the Contemporary World** Kaveh Boiveiri,Emmanuel Chaput,2016-06-22 This book is the result of a three day conference held in April 2014 at the University of Montreal Canada discussing the relevance of the work of Hegel and Marx in today s world particularly with regard to the ecological economic political and anthropological crisis facing humanity Accordingly the book an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory However if indeed the necessity of a proper critique Kritikos is intimately linked to a state of crisis Krisis the conceptual frame necessary to produce such a critique may itself be in crisis Among the vast number of critical oppositions to contemporary capitalism what are the keys available to understand the present forms of human conditions alienation and exploitation Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established Looking back to Marx and Hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism Be it with or against Hegel and or Marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers Both Marx s and Hegel s philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in Hegel s case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx s case Both intellectual ventures are at every turn haunted by the notion of crisis This book will appeal to anyone interested in Hegel s and Marx s philosophical and political theories Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel but it also places the relevance of their teachings for the contemporary reader in perspective *Divergent Paths: The Hegelian foundations of Marx's method* Norman Levine,2006-01-01 Divergent Paths is the first in a series of three volumes that explores the historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx s ideas from Hegel through to the present day and is absolutely essential reading **Marx and We** Sun Zhengyu,2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without

Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations **Marx, Durkheim, Weber** Ken Morrison, 2006-07-06 This is an excellent introduction to classical social theory For most students it is the only book on the subject that they will need The expositions are clear and comprehensive outlining with almost alarming clarity ideas with which many of us have to struggle Alan Bryman The Management Centre University of Leicester This is a thoroughly revised expanded version of the best selling student text in classical social theory The book provides an authoritative accessible undergraduate guide to the three pivotal figures in the classical tradition Readable and stimulating the book explains the key ideas of these thinkers and situates them in their historical and philosophical contexts The student gains an immediate understanding of what is distinctive and relevant about these giants of sociology The book includes a glossary with over 150 entries For a decade the book has been required reading on undergraduate degree programmes This new edition refines the material extends the analysis and enhances our appreciation It is a nugget in its field **The Communist Ideal in Hegel and Marx (RLE Marxism)** David MacGregor, 2015-04-24 One reader has called this study first published in 1984 easily the best book on the relation of Hegel to Marx With spirited argument MacGregor demonstrates that Hegelian logic suited Marx's purpose so well because it already contained the unique elements that later appeared in Marx's social theory including the notions of surplus value and the transition to communism The most exciting thing about the book is the clear demonstration that the mature Marx gets ever closer to Hegel and is increasingly indebted to him In short the author gives us a new Hegel and a new Marx In a manner both original and penetrating MacGregor shows that dialectical logic is pre eminently social logic a reconstruction in thought of social relationships and social structure Central to the work is the examination of the Philosophy of Right in which Hegel delineated a theory of modern capitalist society MacGregor provides a compelling analysis of Hegel's importance for Lenin and a strong caveat that contemporary Marxism ignores Hegel to its own peril MacGregor establishes that Hegel's absolute idealism is founded on a theory of the dialectics of labour similar to Marx's historical materialism Another significant discovery elucidates Hegel's concept of poverty as the missing link which joins Marx's formulation to classical liberal theory **The Logic of Marx's Capital** Tony Smith, 1990-07-05 Beginning with value and commodity at the start of Volume I in Marx's major work and progressing step by step to the end of Volume III Smith establishes in detail that Capital is a systematic theory of socio economic categories ordered according to dialectical logic At each stage in his analysis of the theory Smith makes Marx's arguments more accessible He also considers in depth the objections to Marx's employment of dialectical logic that have been formulated by Hegelians especially those presented in Klaus Hartmann's Die Marxsche Theorie Smith presents a persuasive case against this whole range of Marx criticisms many of which have also been proposed from non Hegelian standpoints **Frankfurt School** J. M. Bernstein, 1994 The Frankfurt School refers to the members associated with the Institut für Sozialforschung Institute for Social Research which was

founded in Frankfurt in 1923 The work of this group is generally agreed to have been a landmark in twentieth century social science It is of seminal importance in our understanding of culture progress politics production consumption and method This set of six volumes provides a full picture of the School by examining the important developments that have occurred since the deaths of the original core of Frankfurt scholars All the major figures Adorno Horkheimer Marcuse Benjamin are represented In particular the important post war work of Jurgen Habermas is fully assessed The collection also covers the work of many of the minor figures associated with the School who have been unfairly neglected in the past resulting in the most complete survey and guide to the oeuvre of the Frankfurt School

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views

Marxism, History, and Intellectuals Suman Gupta, 2000 This study focuses on that area of revolutionary socialist philosophy which is devoted to conceiving the intellectual and allocating or refusing to do so a role to the intellectual in the revolutionary process and state Through an examination of the intellectual's role the author tries to reach an understanding of the connotations and pragmatics of transformative socialism in our time Primarily this study is a survey and reexamination of the constructions of and attitudes toward intellectuals in different revolutionary socialist philosophies with particular reference to the corresponding theories of history that are implicit therein The actual process of reconceptualizing transformative socialism in our context and in the light of the above reexamination is taken up toward the end of the book in a more or less polemical fashion

Reassessing Marx's Social and Political Philosophy Jan Kandiyali, 2018-06-27 Interest in the study of Marx's thought has shown a revival in recent years with a number of newly established academic societies conferences and journals dedicated to discussing his thought This book brings together distinguished and up and coming scholars to provide a major re evaluation of historical issues in Marx scholarship and to connect Marx's ideas with fresh debates in contemporary Anglo American social and political philosophy Among the topics discussed are Marx's relationship to his philosophical predecessors including Hegel the young Hegelians and the utopian socialists his concept of recognition his critique of liberalism and his views on the good life This book will be of interest to scholars and advanced students interested in Marx Hegel the history of political thought and social and political philosophy

Marx's Capital, Method and Revolutionary Subjectivity Guido Starosta, 2015-11-24 In Marx's Capital Method and Revolutionary Subjectivity Guido Starosta develops a materialist inquiry into the social and historical determinations of revolutionary subjectivity Through a methodologically minded critical reconstruction of the Marxian critique of political economy from the early writings up to the Grundrisse and Capital this study shows that the outcome of the historical movement of the objectified form of social mediation which has turned into the

very alienated subject of social life i.e. capital is to develop as its own immanent determination the constitution of the self abolishing working class as a revolutionary subject A crucial element in this intellectual endeavour is the focus on the intrinsic connection between the specifically dialectical form of social science and its radical transformative content The Routledge Companion to Nineteenth Century Philosophy Dean Moyar, 2010-04-05 The nineteenth century is a period of stunning philosophical originality characterised by radical engagement with the emerging human sciences Often overshadowed by twentieth century philosophy which sought to reject some of its central tenets the philosophers of the nineteenth century have re-emerged as profoundly important figures The Routledge Companion to Nineteenth Century Philosophy is an outstanding survey and assessment of the century as a whole Divided into seven parts and including thirty chapters written by leading international scholars the Companion examines and assesses the central topics themes and philosophers of the nineteenth century presenting the first comprehensive picture of the period in a single volume German Idealism philosophy as political action including young Hegelians Marx and Tocqueville philosophy and subjectivity including Schopenhauer Kierkegaard and Nietzsche scientific naturalism including Darwinism philosophy of race experimental psychology and Neo Kantianism utilitarianism and British Idealism American Idealism and Pragmatism new directions in Mind and Logic including Brentano Frege and Husserl The Routledge Companion to Nineteenth Century Philosophy is essential reading for students of philosophy and for anyone interested in this period in related disciplines such as politics history literature and religion *Marx After Marxism* Tom Rockmore, 2008-04-30 *Marx After Marxism* encourages readers to understand Karl Marx in new ways unencumbered by political Marxist interpretations that have long dominated the discussions of both Marxists and non Marxists This volume gives a broad and accessible account of Marx's philosophy and emphasizes his relationship to Hegel **Marx and Weber on Oriental Societies** Lutfi Sunar, 2016-05-06 The Orient was central to the work of Marx and Weber both figures building their theories around the question of why modernity appeared to emerge only in the West While Marx's account focused on the accumulation of capital in the West Weber's explanation for this phenomenon centred on Western rationalization Extending recent work comparing the social theories of Marx and Weber this book examines their approaches to Oriental societies showing how in spite of the differences in their respective theorizations of the historical and political development of the West their work on the form of modern society in the Orient converges each complementing the other Fully conversant with recent scholarly work on Marx and Weber this comprehensive re-examination of the points of convergence and departure in their work requires us to re-evaluate both their positions in the history of sociology and their relevance to contemporary social questions As such it will appeal to scholars of social and political theory and classical sociology **Political Theory, Science Fiction, and Utopian Literature** Tony Burns, 2010-02-19 Ursula K Le Guin's *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political

thought and literature and of science fiction Published in 1974 it marked a revival of utopianism after decades of dystopian writing According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia which Tom Moylan calls a critical utopia The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian dystopian literature and science fiction It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics Le Guin's concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature It also claims that her theory of the novel has an affinity with the ancient Greek tragedy This implies that there is a conservatism in Le Guin's work as a creative writer or as a novelist which fits uneasily with her personal commitment to anarchism
