a truth about the way trauma plays out over time including between generations Grounded in Erik Erikson's way of looking at things the book is a journal of encounters between clinical psychoanalysis and other disciplines and an inquiry into what might be learned there for both Sometimes that learning has to do with trauma the way in which what can't be emotionally contained thought about or spoken in one part of a system is passed along with disorganizing sometimes heartbreaking consequences to another After a reflection on dignity the book examines intergenerational trauma in families including Erikson's It then illustrates how trauma to organizations slips below the threshold of awareness and yet continues to wear down its members The final section examines aspects of the larger society including radicalization war trauma the pandemic and cultural healing What emerges is the sober yet hopeful truth that what people discover by taking their own emotional experiences seriously though that might markedly differ from what is accepted in the everyday world is a primary path toward recovery from trauma
