answers in her study of European legitimacy based on the European Elections Study of 1994 She demonstrates that publics of the EU 12 display a similar well structured European belief system This enables comparative measurement and makes the EU a laboratory for hypothesis testing The modelling of legitimacy processes discovers cross country differences in the evolution of European legitimacy Distinct legitimation styles exist among European publics and call for perceptive attention in future EU proposals and campaigns This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789056294083> *Russia and the Idea of Europe* Iver B. How Referendums Challenge European Democracy Richard Rose, 2020-04-22 This book explains how citizens are using referendums to challenge decisions taken by the European Union The opening chapters compare the two chief institutions of electoral democracy parliamentary elections to decide who governs and referendums to decide policies The EU relies on international treaties for its authority to make policies Chapters analysing referendum voting on Europe in Britain Greece and the Netherlands show that cultural values can have a stronger influence than class The book uses Brexit the British referendum in which a majority voted for the UK leaving the European Union as the leading example of a conflict between national voters and the EU However taking back control of policymaking does not ensure effective policymaking when success depends not only on what the British Parliament does but also on decisions taken in Brussels Washington and elsewhere Boris Johnson's electoral success is insufficient to deliver all his promises in the world beyond Brexit The EU is challenged too as its policies increasingly depend on what happens on other continents *Being and Becoming European in Poland* Marysia H. Galbraith, 2015-03-15 Overthrowing communism in 1989 and joining the European Union in 2004 the Polish people hold loyalties to region country and now continent even as the definition of what it means to be European remains unclear Paying particular attention to those who came of age in the earliest years of the neoliberal and democratic transformations this book uses the life story narratives of rural and urban southern Poles to reveal how being European is

considered a fundamental component of being Polish while participants are simultaneously becoming European Ultimately this study demonstrates how the EU is regarded as both an idea and an instrument and how ordinary citizens make choices that influence the shape of European identity and the legitimacy of its institutions *Finding Europe* Anthony Molho, Diogo Ramada Curto, Niki Koniordos, 2007 In the last decade or so many books have been devoted to the history of Europe Two conceptual axes predominate in a large number of these accounts a discourse focusing on Europe's values and another discourse fashioned largely in opposition to the first which emphasizes the process of European construction The first conceives of Europe's past teleologically as a process by which certain values Christian ethics individualism capitalism tolerance republicanism due process etc were affirmed and came to define European culture The second approach rejects the discourse on values emphasizes the post Enlightenment emergence of the concept of Europe and the political and ideological implications in its continuous redefinitions and re-elaborations during the past two or more centuries This volume offers new approaches that integrate the long temporal dimension of the values based approach albeit devoid of its teleological element with the constructivist interpretation **About Turn, Forward March with Europe** Jane M. O. Sharp, 1996 Following 1990s defence cuts Britain's armed forces are stretched quite severely Successive governments have preferred buying US nuclear technology and intelligence to working with European partners The US has disengaged from Europe leaving the NATO countries with no common purpose The contributors to this volume economists and defence analysts outline how UK governments need to establish priorities within budget constraints exploring a division of labour with European partners restructure the army towards forces suitable for low intensity interventions and peace support rationalize defence production and procurement adapt the bipolar Cold War arms control regimes to the new multipolar world and redefine the requirement for an independent British nuclear capability Citizens' Reactions to European Integration Compared Elizabeth Frazer, Florence Haegel, Virginie Van Ingelgom, 2013-01-17 Pre financial crisis EU citizens were overlooking Europe ignoring it in favour of globalisation economic flows and crises of political corruption Innovative focus group methods allow an analysis of citizens reactions and demonstrate how euroscepticism is a red herring instead articulating an indifference to and ambivalence about Europe *Explaining European Identity Formation* Stephanie Bergbauer, 2017-10-24 What makes people identify with Europe To answer this question this book analyzes the development and determinants of a common European identity among EU citizens from the Maastricht Treaty in 1992 to the recent financial and economic crisis The author examines citizens identification with Europe for all EU member states and systematically explores the theoretical and empirical implications of two turning points in the recent history of EU integration namely the EU's enlargement to Central and Eastern Europe in 2004 2007 and the financial and economic crisis that started in 2008 The book integrates theoretical approaches to European identity in sociology social psychology and EU public opinion research in a comprehensive model for explaining individual identification with Europe The empirical analysis employs a multilevel framework to systematically

assess the influence of individual characteristics and the political economic and social context on citizens feelings of identity
The long analysis period spanning from 1992 to the present allows inferences to be drawn about the long term developments in the sources of European identification as well as the immediate impact of EU enlargement and the crisis on the determinants of European identification
