The Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens,2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917 1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his counseling theory and practice demonstrates that it was shaped and informed by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling

Christians Who Counsel Ray S. Anderson,2010-11-01 How does one view Christian counseling as a calling What is the role and task of the counselor from a theological perspective How does one strip away the ambiguity that is too often inherent in the words therapy and counseling in a religious setting Ray S Anderson has written this book as a theologian with a keen interest in helping Christian counselors fulfill their task more effectively by enabling them to see that task more clearly Too often even counselors who achieve effective results are beset by what Anderson calls an uneasy conscience the realization that for some reason a little transactional analysis once a week

works better than a month of Sundays in curing the souls of troubled parishioners This book seeks to put that uneasiness and ambiguity to rest by helping counselors see their work as a means of grace rooted in a model of personhood that is both theologically and psychologically sound for realizing the full potential of each person Christians Who Counsel has three parts involving building a foundation for Christian counseling exploring the spiritual dynamics in counseling and describing counseling in a distinctly Christian mode Written without either theological or psychological jargon this book is for all Christians who counsel whether pastors lay counselors psychotherapists or family therapists With clarity of vision comes the power of a renewed commitment
