After Adoption Janette Logan, Carole Smith, 2013-01-11 Few children nowadays are placed for adoption with no form of contact planned with birth relatives and it has become common professional practice to advocate direct rather than indirect contact Practice has outstripped evidence in this respect and not enough is known about how contact arrangements actually work out particularly for older children adopted from state care Such children have often experienced neglect and sometimes abuse and have frequently been adopted without parental agreement Based on research with a large number of adoptive parents children and birth relatives After Adoption considers the impact of direct post adoption contact on all concerned in such cases It also discusses the development of adoption policy and law particularly with regard to the legal and social consequences reviews the research evidence on adopted children s contact with their birth families explores through interviews participants feelings about adoption and direct contact their relationships with each other what hinders and what helps After Adoption challenges readers to re think the relationship between adoption and the possibility of direct post adoption contact and at the same time provides a comprehensive understanding of adoption issues It is a timely and valuable addition to the literature on adoption making a substantial contribution to policy and practice

The Adopted Child Christa Hoffmann-Riem, 2017-07-05 This exploration of the experiences of adopting parents and children offers unusual insight into adoption s complexity and its profound impact on family life Based on the author s research in Germany where she lived and taught The Adopted Child has a great deal to say about child rearing and identity as well as offering insights into similarities and differences in family life and adoption in Germany and the United States Hoffmann Reim takes the reader through the decision to adopt the adoption placement procedure and the transition from applicant to mother and father She explores differences between emotions experienced in adopting a baby a toddler and an older child and how these emotions can affect relations with the world outside the nuclear family A central concern is secrecy and disclosure with regard to the adopted child s origins Based on case studies and extensive interviews The Adopted Child has fascinated American readers as it did those in Germany Professionals as well as those interested in adoption and family life in general will find it significant Sociologists will find it solidly grounded in concepts and traditions from a diversity of related disciplines And anyone interested in Germans and German society will find the materials revealing and the author s interpretation insightful and wise

The Adopted Child Comes of Age Lois Raynor, 2021-11-07 How do adoptions really turn out How do adopted children

feel about the family they were given and the opportunities they were offered To what extent do they fulfil their new parents expectations of them And does it matter whether their adoption grew out of a fostering relationship or was considered right from the start as a permanent arrangement Originally published in 1980 the major follow up study on which this book is based sought to answer these questions The research involved 160 sets of parents and over 100 of their adopted children now young adults This was in fact the largest group of adult adoptees anywhere in the world to be interviewed and studied in a systematic way As they look back over their life together the parents and the young people explain what adopting or being adopted was like for them This title offers glimpses of adoptive family life over a period of more than twenty years compares the views of the young people with those of their adopters and measures the factors which influenced the various outcomes Particular attention is paid to the basis on which the child was originally placed in order to shed light on the controversial subject at the time of whether a preliminary fostering period represents a useful safeguard The information gathered by Lois Raynor and her colleagues provided the feedback so long sought by social work teachers and by those practising social workers who had the responsibility for making long term plans for children and for approving foster home or adoption applications at the time Readers with personal experience of adoption will be interested in making their own comparisons while prospective adopters will learn to avoid some pitfalls and to enjoy an adopted child as their own Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1973 **Annals of Theoretical Psychology** Joseph R. Royce, Leendert P. Mos, 2013-11-11 As such things happen several manuscripts in the present volume were under review prior to the ones that appeared in Volume I of the Annals A major difficulty encountered in the preparation of these volumes apart from working up to three years in advance of publication is eliciting appropriate commentary If this format is to succeed the commentary must be both engaging to the reader and satisfying to the author It is not yet clear how successful we have been in this regard and indeed we do not feel bound to publish commentary with each manuscript that is accepted for publication Nevertheless we do invite readers commentaries on published materials The contributions by Jan Smedslund and Benjamin Wolman in this volume have been through an inordinately long publication lag We have been in receipt of both manuscripts since early in 1981 and Dr Smedslund especially has since clarified and advanced his views elsewhere in print K B Madsen and Joseph Rychlak submitted their manuscripts in the fall of 1981 while Michael Hyland and J Philippe Rushton had first drafts of their manuscripts accepted for publication in the fall of 1982 We are grateful to our contributors for their expressed commitment to the Annals and assure potential contributors that the delay in publication is a mere matter of getting the series off the ground *Survival of the Prettiest* Nancy Etcoff, 2011-02-02 A provocative and thoroughly researched inquiry into what we find beautiful and why skewering the myth that the pursuit of beauty is a learned behavior In *Survival of the Prettiest* Nancy Etcoff a faculty member at Harvard Medical School and a practicing psychologist at Massachusetts General Hospital argues that beauty is neither a cultural construction an invention of the fashion industry nor

a backlash against feminism it is in our biology Beauty she explains is an essential and ineradicable part of human nature that is revered and ferociously pursued in nearly every civilization and for good reason Those features to which we are most attracted are often signals of fertility and fecundity When seen in the context of a Darwinian struggle for survival our sometimes extreme attempts to attain beauty both to become beautiful ourselves and to acquire an attractive partner suddenly become much more understandable Moreover if we understand how the desire for beauty is innate then we can begin to work in our own interests and not just the interests of our genetic tendencies

Adoption, Race, and Identity, Adoption Race and Identity is a long range study of the impact of interracial adoption on those adopted and their families Initiated in 1972 it was continued in 1979 1984 and 1991 Cumulatively these four phases trace the subjects from early childhood into young adulthood This is the only extended study of this controversial subject Simon and Altstein provide a broad perspective of the impact of transracial adoption and include profiles of the families involved in the study They explore and compare the experiences of both the parents and the children They identify families whose adoption experiences were problematic and those whose experiences were positive Finally the study looks at the insights the experience of transracial adoption brought

to the adoptive parents and what advice they would pass on to future parents adopting children from different racial backgrounds. They include the reflections of those adopted included in the 1972 first phase who are now adults themselves. This second edition includes a new concluding chapter that updates the fourth and last phase of the study. The authors were able to locate 88 of the 96 families who participated in the 1984 study. Bringing together all four phases of this twenty year study into one volume gives the reader a richer and deeper understanding of what the experience of transracial adoption has meant for the parents, the adoptees and children born into the families studied. This landmark work will be of compelling interest to social workers, policy makers and professionals and families involved on all sides of interracial adoption.

The Emperor's Embrace Jeffrey Masson, 2001-02-28. Jeffrey Moussaieff Masson's marvelous Jane Goodall New York Times bestseller *When Elephants Weep* made us re evaluate the emotional lives of animals. And in his follow up New York Times bestseller *Dogs Never Lie About Love* Masson reflected with intelligence and originality. Los Angeles Times Sunday Book Review on the emotional world of dogs. Now in *The Emperor's Embrace* Masson offers a remarkable look at one of the most fulfilling roles in the animal world: fatherhood. With fascinating insight, impeccable research and captivating writing, controversial psychoanalyst Jeffrey Masson, a new father himself, introduces us to the world's best dads. He takes us to such places as Antarctica as he explores how emperor penguin fathers incubate the eggs of their young by carrying them around on their feet for two months, nestled beneath a special brood pouch. And he tells us how, once the babies hatch, the fathers snuggle the babies on their feet until the mother returns from her time at sea, feeding them a special milk like substance until her arrival. Masson, a superb storyteller, showcases the extraordinary behavior of outstanding fathers, heroes among animals, including the wolf and why wolves make good fathers and dogs don't. The beaver who encourages his young to cling to his tail as he navigates through ponds, the sea horse, the only male animal

that gives birth to its young the marmoset the South American monkey who carries his babies for the first two years of their lives wherever he goes Masson also examines nature's worst fathers lions langurs bears and humans He shows that when a father does care for his young as with the beaver we immediately look for a biological and not an emotional explanation But Masson demonstrates that for these animals as with humans fatherhood is a profound all encompassing experience Groundbreaking compelling inspirational Masson's unique look at one of nature's most venerable institutions takes us to animal habitats around the world yet always returns to the heart For animal lovers fathers mothers sons and daughters everywhere *The Emperor's Embrace* is a book that will forever change our perceptions of parenthood and family love

Mandell, 2013-05-14 This book discusses the crisis of caregiving as it affects parents seeking to provide good care for their children and people who care for their aged or disabled relatives Discussed are alternatives to the present welfare system a description of the current safety net programs and an analysis of the privatization of social services [Adoption - But at what Price?](#), 2003 **Well-functioning Families for Adoptive and Foster Children** Joyce S. Cohen, Anne Westhues, 1990-12-15 The increase in adoption and fostering of children with special needs has been one of the most positive developments in Canadian child welfare over the past fifteen years But special needs children place greater demands on the adopting or fostering families and this in turn has led to increased disruption of placements This book will help child welfare professionals and students to assess situations so that disruption can be minimized It evolved from a clinical analysis which compared the characteristics of families who adopted and successfully maintained a special needs child with families who tried without success From this clinical analysis the authors developed a unique training program for adoption foster workers which is organized in four modules family assessment child assessment matching and maintenance They outline in detail the training program and the findings of the ensuing research project based on implementation of the program They also present a number of remarkable yet representative case studies to which theoretical concepts are applied along with a set of practical professional tools to aid child welfare workers in assessment and planning A survey of the relevant literature and an overview of child welfare organization are included This timely and innovative manual fills a gap in the child welfare literature It provides a much needed guide to the assessment and matching of children with adoptive and foster families and to the maintenance and support of those families *Kinship by Design* Ellen Herman, 2009-08-01 What constitutes a family Tracing the dramatic evolution of Americans answer to this question over the past century *Kinship by Design* provides the fullest account to date of modern adoption's history Beginning in the early 1900s when children were still transferred between households by a variety of unregulated private arrangements Ellen Herman details efforts by the U S Children's Bureau and the Child Welfare League of America to establish adoption standards in law and practice She goes on to trace Americans shifting ideas about matching children with physically or intellectually similar parents revealing how research in developmental science and technology shaped adoption as it

navigated the nature nurture debate Concluding with an insightful analysis of the revolution that ushered in special needs transracial and international adoptions Kinship by Design ultimately situates the practice as both a different way to make a family and a universal story about love loss identity and belonging In doing so this volume provides a new vantage point from which to view twentieth century America revealing as much about social welfare statecraft and science as it does about childhood family and private life

To Save the Children of Korea Arissa H Oh, 2015-06-17 The important largely unknown story of American adoption of Korean children since the Korean War with remarkably extensive research and great verve Charles K Armstrong Columbia University Arissa Oh argues that international adoption began in the aftermath of the Korean War First established as an emergency measure through which to evacuate mixed race GI babies it became a mechanism through which the Korean government exported its unwanted children the poor the disabled or those lacking Korean fathers Focusing on the legal social and political systems at work To Save the Children of Korea shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial US Korea relationship and was facilitated by crucial congruencies in American and Korean racial thought government policies and nationalisms Korean adoption served as a kind of template as international adoption began in the late 1960s to expand to new sending and receiving countries Ultimately Oh demonstrates that although Korea was not the first place that Americans adopted from internationally it was the place where organized systematic international adoption was born Absolutely fascinating Giulia Miller Times Higher Education Gracefully written Oh shows us how domestic politics and desires are intertwined with geopolitical relationships and aims Naoko Shibusawa Brown University Poignant wide ranging analysis and research Kevin Y Kim Canadian Journal of History Illuminates how the spheres of public and private domestic and political are deeply imbricated and complicate American ideologies about family nation and race Kira A
