The Myth of "The Leader" Lee Thayer,2010-11-23 People create and sustain myths to explain what they cannot or do not comprehend They sometimes create myths to make simple what would otherwise strike them as being too complex to bear in mind Thus we have our ancient gods and our contemporary celebrities and the fairy tales that explain them But there is never one cause for what happens no matter how much we might treasure our formulaic myths Anything that happens has many seen and unseen causes Leadership is an ideal example We conceive of our leaders as the cause of how things turn out If things turn out badly we blame them If they turn out well we elevate them to celebrity hood This is fairy tale thinking The hard truth is that our leaders cannot be any more competent in their role than we are in ours Even then our leaders do not control the outcomes We are following a dangerous path in the way we think about our leaders in this culture We need to be able to distinguish between real leaders and counterfeit leaders This book reveals how to do that This book powerfully and insightfully unveils the myth of the leader
