How to Be a Dean George Justice, 2019-03-12. The essential guide to the hardest job in higher ed. A deanship in higher education is an exciting but complex job combining technical administration and academic leadership. On one hand, the dean is an institutional leader standing up for the faculty, staff, and students. On the other, the dean is a middle manager managing personnel, curriculum, and budgets, and trying to live up to the expectations of the governing board, president, and provost. But what is it really like to be a dean? In *How to Be a Dean*, George Justice illuminates both of these leadership roles, which interact and even conflict with each other, while deans do their best to help faculty members and students. Providing tested advice, Justice takes readers from the job search through the daily work of the dean and ultimately to the larger questions of leadership excellence and integrity. The role provokes. He also explores the roles of different deanships in the broader context of academic leadership. Based on the author's experience as a dean at two large research universities, *How to Be a Dean* is clear, engaging, and opinionated. Current deans will use this book to reflect on the work they do in productive ways. Faculty members considering administrative work will find in this book some idea about the

day to day work required of their institutional leaders And finally readers who are simply curious about what deans do will find pointed analysis about what works and what doesn't Public Papers of the Presidents of the United States, William J.
