McCann, Asia Society, 1997 *Korea Briefing* examines a period of far reaching change in the two Koreas Kim Il Sung's death has marked the end of a political regime that dominated the North since before the Korean War In the South internal political challenges difficult North South issues such as economic relations and new relationships with China Russia and other countries forecast momentous changes Chapters on recent events the state of current economic political and international relations and the directions of bellwether reforms in language policy and education are at the core of this study *Korea Briefing*, 2002 **Serials in the British Library**, 2001 *Korea's Amazing Century: From Kings to Satellites*, **South Korea's Democracy in Crisis** Gi-Wook Shin, 2022-12-27 Like in many other states worldwide democracy is in trouble in South Korea entering a state of regression in the past decade barely thirty years after its emergence in 1987 The contributors to this volume trace the sources of illiberalism in today's Korea *The Strategy for Korea's Economic Success* HwY-Chang Moon, 2016-04-01 Korea's economic success has inspired numerous studies and research projects in past decades Despite good efforts to analyze the strategy of Korea earlier studies have not been able to comprehensively and systematically explain the country's miraculous growth After thorough analysis of these earlier studies a new model has been developed by showing that a country or firm does not have to be more innovative or possess more resources to have a competitive advantage over others In *The Strategy for Korea's Economic Success* HwY Chang Moon details four factors that comprise the ABCD model and illustrates how the Korean government corporations and people have exemplified these factors in achieving their current level of success The four factors are agility speed precision benchmarking learning best practices convergence mixing synergy and dedication diligence goal orientation Together these factors have enabled Korea's economic success and will continue to drive the next level of growth Anyone can become more competitive with proper implementation of the ABCDs Korea's development strategy holds special value because it is more practical and appropriate for many developing countries For more developed countries on the other hand the ABCDs can be used to fast track the next phase of growth Moon also highlights the role of internationalization in broadening the scope of strategic choices and shows

how the combined implementation of internationalization and the ABCDs deepens the pool of strategic resources
