Korean War West Confronts:

The Korean War Michael Hickey, 2001-09-04 An authoritative account by the historian and Korean War vet offers a comprehensive picture of the war and riveting tales of heroics Gripping The Washington Post Book World Winner of the Westminster Medal for Military Literature On June 25 1950 the North Korean People's Army shocked American troops by crossing the 38th parallel into South Korea After five years of relative quiet following the close of World War II the US Army was unprepared to face a battle ready enemy After an initial defeat General MacArthur turned the tides along with significant contributions from UN allies Joining the Americans were troops from Britain Australia Canada New Zealand South Africa Turkey and elsewhere working together despite problems of culture and logistics In *The Korean War* Michael Hickey frames the conflict in the larger context of international power politics A veteran of the war himself he recounts such masterstrokes as MacArthur's landing behind the enemy lines at Inchon the drama of the glorious Glosters episode and both collaboration and mutiny in the prisoner of war camps of either side Drawing on many previously unexamined sources from several countries including recently declassified documents regimental archives diaries and interviews Hickey adds extensively to our knowledge of one of the most significant conflicts of modern times A fine opinionated contribution to Korean War literature Not to be missed Publishers Weekly

The Korean War Michael Hickey, 1999 *The Korean War* Paul Edwards, 2003-01-09 This historical dictionary of the Korean War is designed to provide brief but helpful information about all aspects of the war including units involved the United Nations political and military actions significant sites and operations and weapons use

United Nations Participants in the Korean War Paul M. Edwards, 2013-08-29 When in 1950 the United Nations called upon its members to provide aid to South Korea more than forty nations responded Some of these sent troops which fought under the United Nations Command some sent commodities and medical supplies Some nations offered moral and political support but for a variety of reasons were not able to send aid This book looks at the nations involved what was behind their willingness to provide troops or aid or what prevented them from doing so The military contribution of the nations involved is discussed The combination of troops and their individual needs made the logistics of this enterprise difficult but in the end troops from 17 nations fought together to defend the freedom of South Korea

The Will to Win Bryan R. Gibby, 2012-07-02 *The Will to Win* focuses on the substantial role of US military advisors to the Republic of Korea Army ROKA from 1946 until 1953 in one of America's early attempts at nation building Gibby describes ROKA's structure mission challenges and successes thereby linking the South Korean army and their US advisors to the traditional narrative of this forgotten war The work also demonstrates the difficulties inherent in national reconstruction focusing on barriers in culture and society and the effects of rapid decolonization combined with intense nationalism and the appeal of communism to East Asia following the destruction of the Japanese empire Key conclusions include the importance of individual advisors the significance of the prewar advisory effort and the depth of the impact these

men had on individual Korean units and in a few cases on the entire South Korean army. The success or failure of South Korean government in the decade following the end of World War II hinged on the loyalty strength and fighting capability of its army which in turn relied on its American advisors. Gibby argues that without a proficient ROKA the 1953 armistice still in effect today would not have been possible. He reexamines the Korean conflict from its beginning in 1945 particularly Korean politics military operations and armed forces and demonstrates the crucial role the American military advisory program and personnel played to develop a more competent and reliable Korean army. **War and Happiness** Peter S.

Jenkins, 2019-06-07 Jenkins rare combination of psychological theorizing and archival research in several countries and time periods yields a fascinating new take on the central question of when states over estimate or under estimate others resolve. The biases that leaders and elites fall prey to appear to vary with their emotional states and senses of well being factors that most scholars have ignored. Robert Jervis author of *How Statesmen Think* This groundbreaking book explains how the happiness levels of leaders politicians and diplomats affect their assessments of the resolve of their state's adversaries and allies. Its innovative methodology includes case studies of the origins of twelve wars with Anglo American involvement from 1853 to 2003 and the psycholinguistic text mining of the British Hansard and the U S Congressional Record. *Korea* Christoph Bluth, 2013-05-10 Korea is one of the critical flashpoints in the world today. News of North Korea's recent nuclear tests conducted in defiance of international pressure drew widespread condemnation and raised serious concerns about the threat now posed to regional and international security by the regime of North Korea's dear leader Kim Jong Il. This book penetrates the veil surrounding the conflict on the Korean peninsula and North Korea's missile and nuclear programmes. It provides a thorough historical analysis of relations between the two Koreas since the Korean War which traces both North Korea's path to economic ruin and South Korea's transition from struggling dictatorship to vibrant democracy. As well as examining the political and economic development of North and South Korea at the domestic level the book goes on to explore regional relations with Russia China and Japan and most importantly America's dealings with Korea and its negotiations with North Korea in particular. It concludes with an analysis of North Korea's current nuclear programme and its likely impact on international security in the 21st century. *A War of Patrols* William Johnston, 2011-11-01 In June 1950 North Korea invaded South Korea. Responding to a United Nations call Canada deployed an 8000 man brigade to the peninsula to fight as part of an American led UN force. This comprehensive account of the Canadian campaign in Korea provides the first detailed study of the training leadership operations and tactics of the brigade under each of its three wartime commanders as well as its relationship with American and Commonwealth allies. This impeccably researched analytical history also examines the various units from the Special Force to the army's regular battalions that replaced them.

Unequal Partners in Peace and War Jongsuk Chay, 2002-03-30 The United States and the Republic of Korea have managed to forge a strong working relationship both in wartime and in peacetime despite an inequality in power between

them through fulfillment of their respective responsibilities Chay explores how Korean and American actions and inaction affected relations between the two and within the international context of the Korean War He focuses on how and why war might have been avoided or resolved differently as a result of poor choices and missed opportunities Using Korean sources as well as Chinese and Russian materials this study provides valuable new insights into the relationship between these two unequal powers The course of the Korean War swung like a pendulum powered by two outside interventions that of the United States made largely due to the symbolic value of Korea and that of China an action taken mainly for security reasons Chay identifies key actions including the division of Korea along the 38th Parallel the 1949 troop withdrawal and the failure to build an adequate military and economic deterrent in the South as events that had they not occurred might have influenced the final outcome of the conflict Restraint on the part of the United States and China and the role of the Korean peninsula as a geographic buffer zone ultimately prevented either side from gaining control of the entire peninsula resulting in a stalemate While issues of relative strength and weakness hindered U S Korean cooperation after the end of the Second World War once war came to the region the two powers built a successful partnership that addressed the national interests of both parties

A Companion to Dwight D. Eisenhower Chester J. Pach, 2017-04-07 A Companion to Dwight D Eisenhower brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of Eisenhower s many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history

Scorched Earth, Black Snow Andrew Salmon, 2011-08-15 The first year of the Korean War was a tumultuous series of epic battles ending in a legendary and harrowing retreat In the summer of 1950 British and Australian troops were dispatched to fight with UN forces in the savage struggle against communism in Korea After both triumph and tragedy while breaking out of the Pusan Perimeter 27th Brigade the Argyll and Sutherland Highlanders and the Middlesex battalions soon joined by the Royal Australians spearheaded the UN drive north After a spectacular series of battles victory beckoned 27th Brigade was halted to allow the Americans the glory of reaching the Chinese border But across the rugged border in a shock counter offensive China stormed south In a desperate action 27th Brigade fought its way out of the trap to join the UN Command on a harrowing 200 mile bug out And across the peninsula surrounded by eight enemy divisions in terrain higher than Cassino and temperatures colder than Stalingrad 41 Commando fought alongside US Marines at Chosin Reservoir Hellfire Valley the most nightmarish battle fought by American

or British troops in living memory and escaped annihilation by a hair's breadth

The Cold War's Odd Couple Steve Tsang, 2005-10-28 The relationship between the USA and the People's Republic of China PRC was the defining factor in the Cold War in Asia the potentially explosive conflict which as seen in the Korean War brought the world to the brink of nuclear disaster The PRC had not become Titoist as some hoped and remained firmly within the Soviet international orbit But how did Great Britain and the Republic of China ROC fit into this potentially lethal global jigsaw Steve Tsang has illuminated the history of a seemingly obscure corner of international relations and politics but which was to contemporaries at the heart of global survival He has carried out extensive research in unique Chinese and English language sources both official and private

Showdown, Confronting Modern America in the Western Film John H. Lenihan, 1980 Showdown is a study of America's oldest most representative film genre the Western movie from the perspective of social allegory It assesses scores of major and minor films to show how Westerns function as vehicles for contemporary social and political critiques of American life

War, Literature, and the Arts, 1992

Loyalty First David A. Foy, 2023-08-31 Finalist 2023 Army Historical Foundation Distinguished Writing Awards provides critical texture to a historical figure often left pilloried without full context The balanced treatment of a complex flawed leader is valuable to understanding MacArthur's command and an instructive lesson for today's intelligence professionals and those who rely on intelligence to guide their decisions

Aether A Journal of Strategic Airpower Spacepower Major General Charles A Willoughby served as Douglas MacArthur's stalwart chief intelligence officer G-2 for over a decade throughout World War II and the Korean War This first full biography examines Willoughby's shadowy origins in his native Germany his curious arrival in the United States and his military service in World War I as well as his work during the interwar years as a junior diplomat budding historian and neophyte intelligence officer His chance encounter with MacArthur in the mid 1930s would prove to be the genesis of a near symbiotic relationship between the two with significant consequences for both Throughout his life Willoughby identified with strong authoritarian leaders notably Franco and especially MacArthur The author also assesses Willoughby's performance as a professional intelligence officer both in World War II and Korea where he is often vilified for his inaccurate assessments of enemy strength and most likely courses of action as well as his sycophantic relationship with his commander Willoughby is most often criticized for his failing to foresee the entry of Chinese forces into the Korean War and its impact upon the US Army and the prosecution of the war Following MacArthur's removal by President Truman in 1951 Willoughby retired and spent the rest of his days engaged in right wing political activity and in staunchly defending his much maligned boss The legacy he left is one filled with lingering and important questions about loyalty to superiors in civilian as well as military environments how far that loyalty should extend and walking the tightrope involved in telling truth to power

The Far East and Australasia 2003 Europa Publications, 2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume

[The Imjin and Kapyong Battles, Korea, 1951](#)

Paul MacKenzie,2013-03-12 The sacrifice of the Glorious Glosters in defense of the Imjin River line and the hilltop fights of Australian and Canadian battalions in the Kapyong Valley have achieved greater renown in those nations than any other military action since World War II This book is the first to compare in depth what happened and why Using official and unofficial source material ranging from personal interviews to war diaries this study seeks to disentangle the mythology surrounding both battles and explain why events unfolded as they did Based on thorough familiarity with all available sources many not previously utilized it sheds new light on fighting the forgotten war **Eyewitness Korea** James Goulty,2018-11-30 Today the Korean War of 1950 1953 is overshadowed by later twentieth century conflicts in Vietnam and the Middle East yet at the time it was the focus of international attention It threatened to lead to a third world war and although fought on a limited scale it still involved over a million men under UN command and even more on the Communist side It left the American and British troops who took part with a range of intense recollections that often marked them for the rest of their lives and it is these experiences that James Goulty draws on in this eyewitness history of the conflict He uses official documents letters diaries regimental histories memoirs oral histories and correspondence to show what the war was like for those who took part Their accounts vividly contrast the American and British experience as seen through the eyes of individual servicemen and they throw fresh light on the relations between the UN forces on their different attitudes tactics training and equipment and on the tensions that developed between them **War since 1945** Jeremy Black,2005-04-01 Most writing on modern warfare begins with the French Revolutionary Wars and continues through World Wars I and II giving post 1945 conflicts only a cursory glance through the lens of Cold War politics Distinguished military historian Jeremy Black corrects that imbalance with War since 1945 a comprehensive look at the many large and small scale wars fought around the world in the past sixty years Black argues strenuously that in order fully to understand recent warfare we must discard the Cold War narrative that has until now framed the majority of historical inquiry By treating conflicts especially those in and between developing nations on their own terms he is able to bring proper attention to the wide varieties of force structures methods goals and military cultures that have been employed in post World War II battles Rather than recapitulate the familiar assessments that consider improvements in weaponry or increases in the size of armies without adequately weighing the wider context of their uses in specific wars Black presents an account of warfare that focuses on the actual tasks the military is ordered to undertake His global coverage of warfare is unparalleled and his insistence on the centrality of developing nations to this period of military history brings new knowledge to bear on understudied aspects of recent history Black brings the book up to date with considerations of the current war on terror and the U S led war in Iraq Timely and accessible War since 1945 will be essential to anyone who wants to understand the state of warfare in the present day **Shooting the Messenger** Paul L. Moorcraft,Philip M. Taylor,2008-06-30 As the literature on military media relations grows it is informed by antagonism either from journalists who report on wars or from ex soldiers in their memoirs

Academics who attempt more judicious accounts rarely have any professional military or media experience. A working knowledge of the operational constraints of both professions underscores *Shooting the Messenger*. A veteran war correspondent and think tank director Paul L. Moorcraft has served in the British Ministry of Defence while historian by training. Philip M. Taylor is a professor of international communications who has lectured widely to the U.S. military and at NATO institutions. Some of the topics they examine in this wide-ranging history of military media relations are the interface between soldiers and civilian reporters covering conflicts; the sometimes grey area between reporters' right or need to know and the operational security constraints imposed by the military; the military's manipulation of journalists who accept it as a trade-off for safer battlefield access; the resultant gap between images of war and their reality; the evolving nature of media technology and the difficulties and opportunities this poses to the military journalistic performance in reporting conflict as an observer or a participant. Moorcraft and Taylor provide a bridge over which each side can pass and a path to mutual understanding.
