Krupp Or The Lords Of Essen:

Krupp Bernhard Menne,1937 **Sheffield's Great War and Beyond, 1916-1918** Peter Warr,2015-08-30 This book is out of the ordinary As well as describing the many changes in Sheffield between 1914 and 1918 it tells about the troubling events in following years as poverty and riots took hold It is also special in identifying hundreds of small as well as large Sheffield companies that worked to provide the necessities of war With many previously hidden facts the book describes the city s national factories the new Ministry of Munitions the government s control of companies arguments about the employment of women an increased emphasis on workers welfare the impact of the Sheffield Committee on Munitions of War and the special contributions of the Cutlers Company Compulsory call up conscientious objectors and the work of the Sheffield Military Tribunal are also brought to life as are problems caused by a shortage of food and the eventual imposition of rationing The city s German prisoners of war are introduced as are the ravages of influenza and the terrible poverty and conflict that soon afflicted the city These local changes are presented against a background of important national events and with more than 100 original photographs **German Disarmament After World War I** Richard J. Shuster,2006-09-27 German Disarmament After World War I examines the Allied disarmament of Germany and the challenges that such an enormous task presented to international efforts in enforcing the Treaty of Versailles In the twenty first century disarmament remains a critical issue for the International community This new book focuses on three key areas and lessons of Allied disarmament operations from 1920 31 the role and experience of international arms inspectors working amidst an embittered German populace the ramifications of the divergent disarmament priorities of the leaders of the disarmament coalition the effectiveness of united Allied policies backed by sanctions These major issues are examined within the overall context of the assessment of Allied disarmament operations in Germany While some historians perceive German disarmament as a failure this book argues that arms inspectors successfully destroyed Germany s ability to pose a military threat to European security This new study shows how the destructive legacy of war convinced the victorious nations especially Britain and France of the importance in minimizing German military strength French post war security concerns however were often faced with the unwillingness of Britain to enforce the totality of the military articles of the treaty German obstruction also influenced Allied disarmament policies German Disarmament After World War I examines the initial effectiveness of Allied disarmament efforts in Germany and explains how they ultimately disappeared through diverging conceptions of a post war world This book will be of great interest to all students of disarmament the interwar period and of military history modern European history and security studies **The Arms of Krupp** William Manchester,2017-10-31 The Krupp family were the premier German arms manufacturers from the middle of the 19th century until the end of World War II producing artillery pieces and submarines that set the standard for effectiveness This book relates the history of this influential company Reassessing the Nuremberg Military Tribunals Kim Christian Priemel,Alexa Stiller,2012 For decades

the history of the US Military Tribunals at Nuremberg NMT has been eclipsed by the first Nuremberg trial the International Military Tribunal or IMT The dominant interpretation neatly summarized in the ubiquitous formula of Subsequent Trials ignores the unique historical and legal character of the NMT trials which differed significantly from that of their predecessor The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law history and political science exploring the genesis impact and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949 Kim C Priemel is Assistant Professor of History at Humboldt University Berlin Germany Alexa Stiller is Research Associate at the Department of Modern History and Contemporary History University of Berne Switzerland
