It takes up an interdisciplinary approach and includes contributions from seasoned scholars and emerging researchers across memory studies, folklore, ethnography, linguistics, literary studies, intellectual history, sociology, epigraphy, and archeology. Thematically organized, the book examines how the past was transmitted through collective memory, including inscriptions, monuments, royal narratives, folklore, language, travelogues, memoirs, religious practices, and ethnography of diverse communities. Departing from conventional historiographical narratives, it analyzes the medieval politico-cultural landscape of the region through a geo-cultural lens, emphasizing historical interactions and cultural preservation in collective memory. An invaluable resource for academics and professionals in history and related disciplines, this book also appeals to general readers interested in Indian history and culture. It is a rich and informative reference resource for students, practitioners, and enthusiasts in social sciences. Providing in-depth examples of Indian multilingualism, this volume analyses how each language is valued in its own context, how national-level policies are appropriated and contested in local discourses, and how language and culture influence educational opportunities and identity negotiation for Kumauni young women. In doing so, the author examines how students and educators navigate a multilingual society with similarly diverse classroom practices. She simultaneously critiques the language and education system in modern India and highlights alternative perspectives on empowerment through the lens of a unique Gandhian educational context. This volume allows Kumauni women and their educators to take centre stage and provides a thoughtful and nuanced insight into their minority language environment. This unique book is sure to appeal to students and scholars of multilingualism, sociolinguistics, language policy, and minority languages. *Studies on Kumaun Himalaya* N. C.
