## **Kyoto In The Momoyama Period:**

Kyoto in the Momoyama Period Wendell Cole, 1967 Discusses political social and artistic life in Kyoto Japan's capital from 1573 to 1615 A D      **Japanese Tea Culture** Morgan Pitelka, 2013-10-16 From its origins as a distinct set of ritualised practices in the sixteenth century to its international expansion in the twentieth tea culture has had a major impact on artistic production connoisseurship etiquette food design and more recently on notions of Japaneseness The authors dispel the myths around the development of tea practice dispute the fiction of the dominance of aesthetics over politics in tea and demonstrate that writing history has always been an integral part of tea culture      **Turning Point** Miyeko Murase, 2003 Japan's brief but dramatic Momoyama period 1573 1615 witnessed the struggles of a handful of ambitious warlords for control of the long splintered country and finally the emergence of a united Japan This was also an era of dynamic cultural development in which the feudal lords sponsored lavish innovative arts to proclaim their newly acquired power One such art was a ceramic ware known as Oribe whose mysterious sudden appearance and rise in popularity are explored in this book Ceramics are closely connected to the tea ceremony and central to Japanese culture In this context Oribe wares represented a unique and major development since they were the easiest Japanese ceramics to carry extensive multicolor decoration Boldly painted with geometric and naturalistic designs they display sensuous glazes especially in a distinctive vitreous green as well as a whole repertoire of playful new shapes Their genesis has traditionally been ascribed to Furuta Oribe 1543 44 1615 a warrior and the foremost tea master of his time who appears to have played a crucial role in redefining the aesthetics of Japan Over seventy engaging vessels of Oribe ware along with striking examples of other types of wares produced in the same milieu make up the heart of this catalogue Metropolitan Museum of Art website      **The Politics of Reclusion** Kendall H. Brown, 1997-01-01 The Chinese themes of the Four Graybeards of Mt Shang and the Seven Sages of the Bamboo Grove figure prominently in the art of Momoyama period Japan ca 1575 1625 Kendall Brown proposes that the dense and multivalent implications of aesthetic reclusion central to these paintings made them appropriate for patrons of all classes the military who were presently in power the aristocracy who had lost power and the Buddhist priesthood who forsook power These paintings and their attendant messages thus serve as dynamic cultural agents that elucidate the fundamental paradigms of early modern Japanese society Unlike traditional art history studies which emphasize the style and history of art objects The Politics of Reclusion sets out to reconstruct the possible historical context for the interpretive reception and use of Chinese hermit themes within a specific period of Japanese art In emphasizing the political dimension of aesthetic reclusion it introduces into the field of Japanese art history a discussion of the politics of aesthetics that characterizes recent work in the field of Japanese literature By embedding the paintings within the contexts of politics philosophy religion and even gender this study restores the reflexive relations between the paintings and their culture and as such is one of the first extensive intellectual and social histories of Japanese art in a Western language It is one that will appeal not only to students

of art but to those interested in Japanese literature history and philosophy      **The Journal of Asian Studies** ,1968      **Arts of Japan** Hugo Munsterberg,2012-10-10 Arts of Japan is a classic and informative text that explores the rich cultural heritage and history of Japanese Art This art history text examines the various influences that have shaped the course of Japanese art history in the fields of painting sculpture architecture and handicrafts Discussed with challenging insight are the impact of the various Indian and Chinese schools the pervasive influence of Zen philosophy and the many other artistic developments giving the reader a well rounded picture of the great significance and contribution of Japanese art Special features of the book are sections on handicrafts and a chapter on prehistoric art The book comes at a time when there is an awakened interest in Asian art throughout the world In the past due to linguistic barriers political upheavals and the limited number of specialists misconceptions have been especially numerous in the field of Japanese art The Arts of Japan admirably corrects these misinterpretations consolidates the results of the most recent scholarship and in one compact volume presents an up to date authoritative survey of Japanese and throughout its long history and in all its colorful diversity      Columbia Chronologies of Asian History and Culture John Stewart Bowman,2000 A collection of thirty chronologies for all the countries of Asia that describe the country s history and culture      **Daitokuji** Gregory P. A. Levine,2005 The Zen Buddhist monastery Daitokuji in Kyoto has long been revered as a cloistered meditation centre a repository of art treasures and a wellspring of the Zen aesthetic Gregory Levine s Daitokuji unsettles these conventional notions with groundbreaking inquiry into the significant and surprising visual and social identities of sculpture painting and calligraphy associated with this fourteenth century monastery and its enduring monastic and lay communities The book begins with a study of Zen portraiture at Daitokuji that reveals the precariousness of portrait likeness the face that gazes out from an abbot s painting or statue may not be who we expect it to be or submit quietly to interpretation By tracing the life of Daitokuji s famed statue of the chanoyu patriarch Sen no Riky u 1522 91 which was all but destroyed by the ruler Toyotomi Hideyoshi 1537 98 but survived in Rashomon like narratives and reconstituted sculptural forms Levine throws light upon the contested status of images and their mytho poetic potential Levine then draws from the seventeenth century journal of K ogetsu Sogan Bokuseki no utsushi to explore practices of calligraphy connoisseurship at Daitokuji and the pivotal role played by the monastery s abbots within Kyoto art circles The book s final section explores Daitokuji s annual airings of temple treasures not merely as a practice geared toward preservation but also as a space in which different communities vie for authority over the artistic past An epilogue follows the peripatetic journey of the monastery s scrolls of the 500 Luohan from China to Japan to exhibition and partial sale in the West and back to Daitokuji Illuminating canonical and heretofore ignored works and mining a trove of documents diaries and modern writings Levine argues for the plurality of Daitokuji s visual arts and the breadth of social and ritual circumstances of art making and viewing within the monastery This diversity encourages reconsideration of stereotyped notions of Zen art and offers specialists and general readers alike opportunity to explore the fertile and

sometimes volatile nexus of the visual arts and religious sites in Japan      *Hakata* Andrew Cobbing, 2013-04-15 In *Hakata The Cultural Worlds of Northern Kyushu* experts in various fields have collaborated to produce an interdisciplinary collection offering diverse insights on a region yet to be fully addressed in English A historic port situated in a strategically vital region as the closest point of contact with the Asian continent Hakata has long served as a key hub in the transcultural networks linking Japan with the outside world This volume explores the rich legacy of these wider interactions in particular the cosmopolitan international dimension deeply embedded in Hakata's urban culture With an identity all its own and quite distinct from other regions in Japan it is a culture once again increasingly relevant in today's world of borderless communications      **Civil Affairs Handbook** United States. *The Meiji Restoration* Robert Hellyer, Harald Fuess, 2020-05-07 In world history the Meiji Restoration of 1868 ranks as a revolutionary watershed on a par with the American and French Revolutions In this volume leading historians from North America Europe and Japan employ global history in novel ways to offer fresh economic social political cultural and military perspectives on the Meiji Restoration and the subsequent creation of the modern Japanese nation state Seamlessly mixing meta and micro history the authors examine how the Japanese state and Japanese people engaged with global trends of the early nineteenth century They also explore the internal military conflicts that marked the 1860s and the process of reconciliation after 1868 They conclude with discussions of how new political cultural and diplomatic institutions were created as Japan emerged as a global nation defined in multiple ways by its place in the world

**From Castle to Teahouse** John B. Kirby, Jr, 2015-04-15 The Momoyama period of Japanese art history at the turn of the 16th century is perhaps best known to the West through the resplendent paintings of the Kano masters and their fellow artists Yet this same period offers such a variety of architectural pleasures that in at least one of its many facets it makes an appeal to every taste It ranges from the largest and most imposing castles to the smallest and most tastefully designed teahouses Paintings and gardens are an integral part of it as they are in all Japanese architecture and here also the range extends from the gorgeous and elaborate to the utmost in simplicity and restraint It is with this exuberant period in Japanese history that the present book is concerned Its purpose is to present against a background of colorful history the architectural achievements of an elegant age In the first part of this book Mr Kirby discusses and illustrates the principal forms of castle shoin and sukiya architecture that he considers to be the most important contributions of the Momoyama period The second part presents existing examples of Momoyama structures together with a brief section on developments of less importance in religious architecture and construction of an essentially engineering nature All of these are pictured in a generous selection of excellent photographs accompanied by plans and elevations for a number of the structures discussed

**The Ceramic Narrative** Matthias Ostermann, 2006-07-06 The Ceramic Narrative is an exploration of past and present ceramic iconography concerned with the

depiction of narratives or with images meant to be thought provoking beyond the merely decorative The book is beautifully illustrated with an extensive variety of work from history and the present day showing how many contemporary artists continue this tradition with modern interpretations Examining ancient Greece the ceramic imagery of the Maya culture the ceramics of China Persia and Japan European tin glaze traditions and the narrative imagery appearing on later European porcelains Matthias Ostermann attempts wherever possible not only to present ceramic narratives in their cultural and historical contexts but also to refer to some of the older myths and sources that may have served as inspiration Applied arts writer David Whiting contributes an essay on the development of ceramic narratives in the twentieth century while illustrations present the work of more than 75 contemporary international ceramic artists who explore narrative in distinctive and different ways These include the exploration of mythologies and existing stories personal visions private stories and memory the human figure relationships and identity political and social commentary and finally the ceramic object itself seen as message and metaphor This book will serve as a beginning for further study of this fascinating and little explored subject and as a celebration of the work of all ceramic artists whose passion is the ceramic narrative
