Schwartz, 2002 Owners of mystery bookshops will tell you that there are several sorts of buyers those who purchase on impulse or whim genre addicts who buy paperbacks by the week and by the armful and those who have caught up on canonical texts and regularly buy new novels by select authors in hardcover Richard

B Schwartz belongs in the last group with his own list of approximately seventy favorite writers. *Nice and Noir: Contemporary American Crime Fiction* explores the work of these writers building upon a reading of almost seven hundred novels from the 1980s and 1990s. By looking at recurring themes in these mysteries, Schwartz offers readers new ways to approach the works in relation to contemporary cultural concerns. *The Reign of Henry the Fifth: 1415-1416* James Hamilton Wylie, William Templeton Waugh, 1919. *Genreflecting* Diana Tixier Herald, Samuel Stavole-Carter, 2019-05-24. Librarians who work with readers will find this well-loved guide to be a treasure trove of information. With descriptive annotations of thousands of genre titles mapped by genre and subgenre, this is the readers' advisor's go-to reference. Next to author, genre is the characteristic that readers use most to select reading material, and the most trustworthy consideration for finding books readers will enjoy. With its detailed classification and pithy descriptions of titles, this book gives users valuable insights into what makes genre fiction appeal to readers. It is an invaluable aid for helping readers find books that they will enjoy reading. Providing a handy roadmap to popular genre literature, this guide helps librarians answer the perennial and often confounding question: "What can I read next?" Herald and Stavole-Carter briefly describe thousands of popular fiction titles, classifying them into standard genres such as science fiction, fantasy, romance, historical fiction, and mystery. Within each genre, titles are broken down into more specific subgenres and themes. Detailed author, title, and subject indexes provide further access. As in previous editions, the focus of the guide is on recent releases and perennial reader favorites. In addition to covering new titles, this edition focuses more narrowly on the core genres and includes basic readers' advisory principles and techniques. *killing for culture* David Kerekes, David Slater, 2016-06-03. Unlike images of sex which were clandestine and screened only in private, images of death were made public from the onset of cinema. The father of the modern age, Thomas Edison, fed the appetite for this material with staged executions on film. Little over a century later, the executions are real, and the world is aghast at brutalities freely available online at the click of a button. Some of these films are created by lone individuals using shaky camera phones. Luka Magnotta, for instance, and the teenagers known as the Dnipropetrovsk maniacs. Others are shot on high-definition equipment and professionally edited by organized groups such as the militant extremists ISIS. *KILLING FOR CULTURE* explores these images of death and violence and the human obsession with looking and not looking at them. Beginning with the mythology of the so-called snuff film and its evolution through popular culture, this book traces death and the artifice of death in the mondo documentaries that emerged in the 1960s and later the faux snuff pornography that found an audience through Necrobabes and similar websites. However, it is when videos depicting the murders of Daniel Pearl and Nick Berg surfaced in the 2000s that an era of genuine atrocity commenced, one that has irrevocably changed the way in which we function as a society. *American Noir* Barry Forshaw, 2017-04-27. The word *Noir* is used here in its loosest sense; every major living American writer is considered, including the giants Harlan Coben, Patricia Cornwell, James Lee Burke, James Ellroy, and Sara Paretsky, as well as non-crime writers such as Stephen King who stray into

the genre often through a concentration on one or two key books Many exciting new talents are highlighted and Barry Forshaw's knowledge of and personal acquaintance with many of the writers grants valuable insights into this massively popular field But the crime genre is as much about films and TV as it is about books and this book is a celebration of the former as well as the latter American television crime drama in particular is enjoying a new golden age and all of the important current series are covered here as well as key important recent films

**Contemporary Issues in the Sociology of Death, Dying and Disposal** Peter C. Jupp, 2016-07-27 This

book utilises a dynamic analysis of mortality to acknowledge shifts of emphasis in cultural and religious traditions A central concern is the diversity of representations of death to be found within the varying cultural religious medical and legal systems of contemporary western societies Since the construction of death mores has social implications a major element of the book is an examination of the way in which groups and individuals employ specific representations of mortality in order to generate meaning and purpose for life and death
