### **Global Children's Literature in the College**

**Classroom** Sara Austin, Tanja Nathanael, 2023-05-22 *Global Children's Literature in the College Classroom* explores the importance of children's literature as a pedagogical resource in any college course. It can be used to introduce a complex topic, give students a glimpse into a specific culture, or expand the way students think about education and teaching. Global children's literature is particularly useful in language classrooms, education programs, and classes that discuss globalism and colonialism. This book includes fifteen essays representing fifteen countries and eight languages, divided into four sections. The first section of essays, *Across the University*, looks at children's literature in non-traditional settings, including British literature and multicultural studies, which considers what children's literature specifically brings to these courses. The second section, *Borders and Crossings*, examines how children's literature defines or defies political and cultural separations. The third section, *Childhood Studies and Education*, considers the importance of global children's literature in education classrooms as a way of promoting diversity and inclusion. The fourth section, *Non-English Texts and Texts in Translation*, focuses on the use of children's literature to teach language and folklore traditions in France, Russia, and Italy. The essay that closes this section discusses using children's literature to teach translation skills at the University of Taipei.

### **Legacies**

Anita M. Meinbach, Liz C. Rothlein, 1995-08-01 *The Blitz and Its Legacy* Mark Clapson, Peter J. Larkham, 2013 *The Blitz and Its Legacy* is a fascinating volume which includes war experiences of destruction, architecture, urban design, the political process of planning and reconstruction, and also popular perceptions of rebuilding. Its findings provide very timely lessons which highlight the value of learning from historical precedent. Drawing together leading scholars and new researchers from across the fields of planning, history, architecture, and geography, this volume presents an historical and cultural commentary on the immediate and longer-term impacts of wartime destruction.

*My Sicilian Legacy* Richard F. Cavallaro, 2008 The lives of Angelo Cavallaro and Angela Gravagna are entwined in a backdrop set in the coastal areas of the Province of Catania, Sicily, and moves onto the northern hillsides of the active volcano Mount Etna. They are traced from their early childhoods where they lived as peasants during the reconstruction of Italy and Sicily through their immigration to America. The journey of Angelo, Angela, and their six children begins in the tiny village of Passopisciaro and continues as they travel to Palermo in 1913 to board a ship and sail across the Atlantic Ocean. You share and experience their fears as they pass through Ellis Island and their joys of eventually arriving to their new home in Rochester, New York. In this sensitive memoir, the author attempts to do what most Italians only dream of: to piece together all the stories parents have retold their children over the generations, from their struggles and humble beginnings to the joys they shared with their extended families in later years. In chapters that examine individual members of his family and highlight their life achievements, the reader gains a better understanding of the unique characteristics that all immigrants have in common. The memories recorded are a tribute to the

legacy they left lessons about life responsibility self respect and love of family It is written with gratitude to all immigrants our ancestral grandfathers and grandmothers mothers and fathers aunts and uncles These were the risk takers and pioneers who were willing to sacrifice personal comfort in order to provide a better life for their families in an unknown world A narrative that honors our link to the past through the memories they left behind My Sicilian Legacy is a chronicle focusing on the importance of family life and the pride in maintaining ethnic roots It is a description of how the ordinary events that shape and mold character thinking aspirations and joys can be achieved through hard work and perseverance the early immigrants gave of themselves so their children would attain a better lifestyle Richard Cavallaro traces his own ancestral history to this area of Sicily and paints a vivid picture of the events that occurred through three generations which eventually led to the creation of My Sicilian Legacy a tribute that many Italians and Sicilians will share with pride *Peacebuilding Legacy* Sukanya Podder,2022 *Peacebuilding Legacies* addresses an important gap relating to the long term effects of peacebuilding programmes involving children and young people Podder unpacks the concept of peacebuilding legacy through the lens of time transformation and intergenerational peace **The Legacy of Vietnam Veterans and Their Families** Dennis K. *School Choice, Race and Social Anxiety* Anthony E. Healy,2021-11-29 Based on a carefully contextualized and critical study this book tells how France s dominant social and political ideology and prevailing cultural conventions abate the effects of race and anxiety within school choice here focused on public school middle class parents living among immigrants in the diverse Paris suburbs The study employs innovative techniques to tackle the presence of race a difficult topic in France and to address the impact of global risk from which social anxiety springs Interviews for this book took place when a wave of deadly terrorism mass migration of refugees and the divisiveness of a presidential election made topics around the study poignant It demonstrates how race operates in French education policy and practices by directing attention to how experienced and more qualified teachers move over their careers to less diverse schools seen by teachers as having better students The book explores how social anxiety created through global risk is culturally resisted within the French context by viewing this resistance theoretically through parental dispositions It presents the racist perception in French school choice by revealing the education policies and parental choices that often segregate immigrants into schools with inexperienced and unqualified teachers This book will be of interest to academics at upper level undergraduate as well as graduate courses policymakers educators who are interested in inequality sociology of education transnational and critical perspectives on
