A Jurisprudence of Movement Olivia Barr, 2016-02-22 Law moves whether we notice or not Set amongst a spatial turn in the humanities and jurisprudence more specifically this book calls for a greater attention to legal movement in both its technical and material forms Despite various ways the spatial turn has been taken up in legal thought questions of law movement and its materialities are too often overlooked This book addresses this oversight and it does so through an attention to the materialities of legal movement Paying attention to how law moves across different colonial and contemporary spaces this book reveals there is a problem with common law's place Primarily set in the postcolonial context of Australia although ranging beyond this nationalised topography both spatially and temporally this book argues movement is fundamental to the very terms of common law's existence How then might we move well Explored through examples of walking and burial this book responds to the challenge of how to live with a contemporary form of colonial legal inheritance by arguing we must take seriously the challenge of living with law and think more carefully about its spatial productions and place making activities Unsettling place this book returns the question of movement to jurisprudence

**The Spaces of Mental Capacity Law** Beverley Clough, 2021-10-21 This book explores the conceptual spaces and socio legal context which mental capacity laws inhabit It will be seen that these norms are created and reproduced through the binaries that pervade mental capacity laws in liberal legal jurisdictions such as capacity incapacity autonomy paternalism empowerment protection carer cared for disabled non disabled public private Whilst on one level the book demonstrates the pervasive reach of laws questioning individuals mental capacity within and beyond the medical context which it is most commonly associated with at a deeper and perhaps more important level it challenges the underlying norms and assumptions underpinning the very idea of mental capacity and reflects outwards on the transformative potential of these realisations for other areas of law In doing so whilst the book offers lessons for mental capacity law scholarship in terms of reform efforts at both domestic and international levels it also offers ways to develop our understandings of a range of linked legal policy and theoretical concepts In so doing it offers new critical vantage points for both legal critique and conceptual change beyond mental capacity law The book will be of interest to researchers in mental capacity law disability law and socio legal studies as well as critical geographers and disability studies scholars

Negotiating State and Non-State Law Michael A. Helfand, 2015-07-02 Non state law is playing an increasing role in both public and private ordering Numerous organizations have emerged alongside the nation state each purporting to provide their members with rules and norms to govern their conduct and organize their affairs The nation state increasingly finds itself sandwiched between two broad and contrasting categories of

non state law The first law above the state captures legal systems that function across the territorial borders of nation states The second category law below the state includes forms of local customary religious and indigenous law As these forms of non state law persist and proliferate alongside the nation state the relationship between state and non state law becomes more complex multifaceted and tense This volume addresses this relationship considering whether and to what extent state and non state law can coexist and how each form of law seeks to influence as well as transform the other **Subversive**

**Property** Sarah Keenan,2014-08-13 This book explores the relationship between space subjectivity and property in order to invert conventional socio legal understandings of property Sarah Keenan demonstrates that new political possibilities for property may be unveiled by thinking about property in terms of space and belonging rather than exclusion Drawing on feminist and critical race theory this book shifts focus away from the propertied subject and on to the broader spaces in and through which the propertied subject is located Using case studies such as analyses of compulsory leases under Australia s Northern Territory Intervention and lesbian asylum cases from a range of jurisdictions Keenan argues that these spaces consist of networks of relations that revolve around belonging not just belonging between subject and object as property is traditionally understood but also the less explored relation of belonging between the part and the whole This book therefore offers a conceptually useful way of analysing a wide range of socio legal issues It will be of relevance to those working in the area of property and legal geography but also to those with more general interests in socio legal studies social and political theory postcolonial studies critical race studies and gender and sexuality studies **On the Move** Timothy

Cresswell,2012-11-12 On the Move presents a rich history of one of the key concepts of modern life mobility Increasing mobility has been a constant throughout the modern era evident in mass car ownership plane travel and the rise of the Internet Typically people have equated increasing mobility with increasing freedom However as Cresswell shows while mobility has certainly increased in modern times attempts to control and restrict mobility are just as characteristic of modernity Through a series of fascinating historical episodes Cresswell shows how mobility and its regulation have been central to the experience of modernity **CULTURAL GEOGRAPHY IN PRACTICE** Miles Ogborn,Alison Blunt,Pyr
