Heaths And Moorlands Cultural Landscapes

Jelte van Andel, James Aronson

Heaths And Moorlands Cultural Landscapes:

Heaths and Moorland D. B. A. Thompson, Alison J. Hester, Michael B. Usher, 1995 Western Europe has a wide range of heathers and moorland with Great Britain and Ireland having optimum conditions for the full development of heather Scotland has a mixture of blanket bogs wet heathers and moorland scapes shaped by burning and other sorts of management mainly for red grouse hill sheep and red deer This text celebrates these landscapes their history habitats wildlife and beauty It also incorporates the ecologist Professor Charles H Gimingham to develop the study of heaths and moorland Heaths and Moorlands D. B. A. Thompson, Alison J. Hester, Michael B. Usher, 1995 *Economy and Ecology of Heathlands* W. Herbert Diemont, Wim J.M. Heijman, Henk Siepel, Nigel R. Webb, 2014-12-22 Heathlands in Europe reflect a long history of human activity and use Through the ages heathlands have been of importance as semi agricultural areas hunting territories and various other uses of mankind This diversity of use has created a cultural diversity over the whole Atlantic area of Europe from Portugal and Spain in the south to Norway in the north and from Germany in the east to Ireland in the west *Economy and Ecology of Heathlands* shows us both the diversity in use all over Europe and combines this information with the newest insights in ecology and the Natura 2000 status most of these heathlands have got nowadays Central theme is how to cover the costs of maintenance of these heathlands Is their future in new types of commons or do other types of land ownership using the revenues of heathland ecosystem services give better opportunities The editors combine a broad variance in knowledge of heathlands varying from all aspects of ecology land use as well as economy Moorlands of England and Wales Ian G Simmons, 2019-08-07 The huge expanse of the moor The millennia of the hunter gatherers The millennia of an agriculturalist economy Into an industrial economy Vegetation management and nature conservation More detailed histories Representations from the imaginations Too far for you to see **Nature's End** S. Sörlin, P. Warde, 2009-07-23 Environmental History as a distinct discipline is now over a generation old with a large and diverse group of practitioners around the globe This book provides a reflection on the achievements diversity and direction of environmental history in its varied national international and continental contexts **Heathland** Clive Chatters, 2021-03-04 In Clive we have an ever fascinating guide to Britain s heathery districts not only marvelling at the wildlife of such wild places but also celebrating their diverse origins uses and cultural resonances Andrew Byfield Heathlands are so much more than simply purple carpets of heather They are ancient landscapes found throughout Britain that support a complex of inter related species and an immense diversity of habitats They also possess a unique human history defined by the struggle between pastoralism and the competing demands of those who seek exclusive use of the land In this latest addition to the British Wildlife Collection Clive Chatters introduces us to Britain s heathlands and their anatomy He then takes the reader on a geographical heathland tour from the maritime sub arctic of the Shetlands to the mild wetness of the Atlantic coast with an in memoriam nod to those heaths that have been erased from common memory and understanding He concludes with a

review of how people have perceived and used heathland wildlife over the ages and sets out a future vision for this iconic landscape its unique habitats and the species that live there Most of our heaths are pale shadows of their former selves However Chatters argues it is not inevitable that the catastrophic losses of the recent past are the destiny of our remaining heaths Should we wish their place in the countryside as an integral part of British culture can be secured

Drivers of Environmental Change in Uplands Aletta Bonn,Tim Allott,Klaus Hubacek,Jon Stewart,2009-01-13 The uplands are a crucial source of ecosystem services such as water provision carbon retention maintenance of biodiversity provision of recreation value and cultural heritage This puts them in the focus of both environmental and social scientists as well as practitioners and land managers This volume brings together a wealth of knowledge of the British uplands from diverse but interrelated fields of study clearly demonstrating their importance in 21st Century Britain and indicating how we may through interdisciplinary approaches meet the challenges provided by past and future drivers of environmental change The upland environments are subject to change They face imminent threats as well as opportunities from pressures such as climate change changes in land management and related changes in fire risk increases in erosion and water colour degradation of habitats altered wildlife and recreational value as well as significant changes in the economy of these marginal areas This book presents up to date scientific background information addresses policy related issues and lays out pressing land management questions A number of world class experts provide a review of cutting edge natural and social science and an assessment of past current and potential future management strategies policies and other drivers of change After appraisal of key concepts and principles chapters provide specific examples and applications by focussing on UK upland areas and specifically the Peak District National Park as a key example for other highly valuable upland regions

Mountains of Northern Europe Scottish Natural Heritage, Centre for Mountain Studies,2005-10-03 This publication contains the proceedings of an international conference held in Pitlochry Scotland in November 2002 to mark the UN International Year of Mountains 2002 The conference participants discussed the state of current knowledge about the mountains of Northern Europe and considered issues arising from the interactions between people and nature and the conservation and sustainable development activities needed to benefit the natural heritage of mountain regions in the UK Norway and Sweden Finland and Iceland

Upland Habitats Alan F. Fielding,Paul F. Haworth,2002-01-31 Upland Habitats presents a comprehensive illustrated guide to the habits wildlife and conservation of Britains last wilderness areas These include heather moors sheep walk deer forest blanket bogs montane and sub montane forests The book examines the unique characteristics of uplands and the ecological processes and historical events that have shaped them since the end of the last glaciaton Among the key conservation and management issues explored in are modern agricultural practices and economics habitat degradation through overgrazing commercial forest plantations the persecution of wildlife recreation in the uplands the funding of upland farming

Restoration Ecology Jelte van Andel,James Aronson,2012-05-21 Enlarged enhanced and

internationalized edition of the first restoration ecology textbook to be published with foreword by Dr Steven Whisnant of Texas A M University and Chair of the Society of Ecological Restoration Since 2006 when the first edition of this book appeared major advances have taken place in restoration science and in the practice of ecological restoration Both are now accepted as key components of the increasingly urgent search for sustainability at global national and community levels hence the phrase New Frontier in the title While the first edition focused on ecosystems and landscapes in Europe this new edition covers biomes and contexts all over the world Several new chapters deal with broad issues such as biological invasions climate change and agricultural land abandonment as they relate to restoration science and ecological restoration Case studies are included from Australia North America and the tropics This is an accessible textbook for senior undergraduate and graduate level students and early career scientists The book also provides a solid scientific background for managers volunteers and mid career professionals involved in the practice of ecological restoration Review of the first edition I suspect that this volume will find its way onto the shelves of many restoration researchers and practitioners and will be used as a key text in graduate courses where it will help fill a large void My own copy is already heavily bookmarked and will be a constant source of research ideas and lecture material Environmental Conservation Companion Website A companion website with downloadable figures is available at www.wiley.com/go/vanandel/restorationecology

Early Medieval Settlement in Upland Perthshire: Excavations at Lair, Glen Shee 2012-17 David Strachan, David Sneddon, Richard Tipping, 2019-10-31 Excavation of seven turf buildings at Lair in Glen Shee confirms the introduction of Pitcarmick buildings to the hills of north east Perth and Kinross in the early 7th century AD Clusters of these at Lair and elsewhere in the hills are interpreted as integrated spatially organised farm complexes comprising byre houses and outbuildings

The Oxford Companion to Global Change David J. Cuff, 2008 In recent years global change has become increasingly important in technological ecological and political spheres This companion examines the environmental events of recent times and investigates long term trends as well as broader issues of global change

Cities Without Cities Thomas Sieverts, 2003-10-09 This book investigates the social economic environmental and formal characteristics of today's built environment providing a better understanding of this new type of urban form and argues for a change in planning systems

Exploring Environmental History T. C. Smout, 2009-05-12 This volume newly available in paperback brings together the best of T C Smout's recent articles and contributions to books and journals on the topic of environmental history and offers them as a collection of explorations The author's interests are multi faceted and though often focussed on post 1600 Scotland by no means restricted to that area

Countryside Conservation Bryn Green, 1996 This third edition of the standard text Countryside Conservation charts and evaluates those changes which represent a fundamental revolution in the ways in which the countryside is planned and managed It sets out the principles policies and practice which underlie the ecology planning and management of the new countryside discussing ways in which countryside conservation objectives are

evolving and how they can best be achieved *Nature Contested* T. C. Smout, 2019-08-07 This work deals with four centuries of conflict over some of the most valued landscapes in Europe Based on a series of lectures given by the author at Oxford University in 1999 it combines social and cultural history with ecology and geography *Tundra Plovers* Des Thompson, Ingvar Byrkjedal, 2011-11-30 This text presents the tundra plovers comprising of the grey plover and the Eurasian Pacific and American golden plovers Breeding on tundra or northern heaths and moorland they migrate far south to coastal mudflats saltings and agricultural landscapes The text examines the taxonomy appearance behaviour ecology and conservation of golden and grey plovers and compares and contrasts their natural history and biogeography It also gives accounts on all aspects of their lifestyle including feeding mating parental care moults migration and avoidance of predators

Restoration and History Marcus Hall, 2010-02 Papers from a meeting of an interdisciplinary group of ecologists geographers anthropologists sociologists historians and philosophers held July 2006 in Zurich Switzerland *Encyclopedia of Environmental Change* John A Matthews, 2013-12-13 Accessibly written by a team of international authors the Encyclopedia of Environmental Change provides a gateway to the complex facts concepts techniques methodology and philosophy of environmental change This three volume set illustrates and examines topics within this dynamic and rapidly changing interdisciplinary field The encyclopedia includes all of the following aspects of environmental change Diverse evidence of environmental change including climate change and changes on land and in the oceans Underlying natural and anthropogenic causes and mechanisms Wide ranging local regional and global impacts from the polar regions to the tropics Responses of geo ecosystems and human environmental systems in the face of past present and future environmental change Approaches methodologies and techniques used for reconstructing dating monitoring modelling projecting and predicting change Social economic and political dimensions of environmental issues environmental conservation and management and environmental policy Over 4 000 entries explore the following key themes and more Conservation Demographic change Environmental management Environmental policy Environmental security Food security Glaciation Green Revolution Human impact on environment Industrialization Landuse change Military impacts on environment Mining and mining impacts Nuclear energy Pollution Renewable resources Solar energy Sustainability Tourism Trade Water resources Water security Wildlife conservation The comprehensive coverage of terminology includes layers of entries ranging from one line definitions to short essays making this an invaluable companion for any student of physical geography environmental geography or environmental sciences *Livestock Farming Systems* D Gagnaux, J R Poffet, 2000-11 Sustainable livestock farming and improved product quality are societal concerns that currently influence the direction of research on livestock farming systems LFS Livestock feeding plays a mayor role in animal health and product quality Systems research into these areas is an effective way of studying the complex interactions between feeding health and management The growing emphasis on new objectives such as landscape preservation and organic livestock farming also calls for systems research The book

focuses on the following topics advances in modelling animal nutrition and health and their interactions at farm level
advances for managing LFS for land use sustainability in contrasted environments with a special emphasis on mountain
conditions improvement of health welfare and production in organic livestock farming decision support systems and models
for improving livestock farming management

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Heaths And Moorlands Cultural Landscapes** . In a downloadable PDF format (*), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
