fiction from writers including John Boyne it becomes clear the Holocaust has impacted more than the people that directly experienced it As the era of first generation Holocaust survivors approaches its end their stories as well as their trauma lives on however through their descendants As a consequence the descendants of Holocaust survivors as current research suggests have also been affected from the result of the experience of their parents and grandparents Few stories are ever written by the heirs of those who endured that indescribable horror and in the way that it manifests psychologically just two generations later Author Dr Jack Fried born to the son and daughter of Holocaust survivors is one of the many whose life has been forever changed by the events that transpired during the Holocaust Inter generational trauma is not a well known concept but for Dr Fried it meant that he had to take a journey into a past he didn't personally know his grandparents past to find pieces to a puzzle that may answer his questions about the origins of a lifelong battle he has had with separation anxiety His trip took him to Poland where he uncovered a slew of pent up emotions fears and dark histories Oddly as Dr Fried learns about his family's past and his present he unknowingly embarks on a spiritual journey into Jewish mysticism which slowly enables him to transcend his lifelong struggles with a fear and anxiety that didn't belong to him All of the inhibiting emotions were released upon his connection to the strife of his ancestors Heirs of Auschwitz is an extremely worthwhile read for anyone with unresolved feelings anyone who has not witnessed or has avoided witnessing human suffering and for those who cannot fathom what hell on earth is like
