Hell No We Wont Go Vietnam Draft Resisters In Canada:

Hell No, We Won't Go Alan Haig-Brown, 1996 Here 20 American Vietnam War draft resisters deserters and conscientious objectors tell us what Canada means to them Their harrowing stories recount the challenges and rewards of adapting to a new land where after more than twenty years they have all contributed to Canadian culture and society The most valuable contribution remains the insights of its twenty subjects into their individual decisions to choose exile over fighting in a war they judged to be wrong or immoral *Globe and Mail* [The Borderlands of the American and Canadian Wests](#) Sterling Evans, 2006-01-01 The Borderlands of the American and Canadian Wests is the first collection of interdisciplinary essays bringing together scholars from both sides of the forty ninth parallel to examine life in a transboundary region The result is a text that reveals the diversity difficulties and fortunes of this increasingly powerful but little understood part of the North American West Contributions by historians geographers anthropologists and scholars of criminal justice and environmental studies provide a comprehensive picture of the history of the borderlands region of the western United States and Canada The Borderlands of the American and Canadian Wests is divided into six parts Defining the Region Colonizing the Frontier Farming and Other Labor Interactions the Borderlands as a Refuge in the Nineteenth Century the Borderlands as a Refuge in the Twentieth Century and Natural Resources and Conservation along the Border Topics include the borderlands environment its aboriginal and gender history frontier interactions and comparisons agricultural and labor relations tourism the region as a refuge for Mormons far right groups and Vietnam War resisters and conservation and natural resources These areas show how the history and geography of the borderlands region has been transboundary multidimensional and unique within North America [Unguarded Border](#) Donald W. Maxwell, 2023-05-12 Unguarded Border tells the stories of the 50 000 Americans who fled across the border to Canada in the 1960s and 1970s a migrant experience that does not fit the usual paradigms Historian Donald W Maxwell explores how these Americans in exile forged cosmopolitan identities permanently changing perceptions of military service nation and citizenship [The Devil's Trick](#) John Boyko, 2022-05-17 Forty five years after the fall of Saigon John Boyko brings to light the little known story of Canada s involvement in the American War in Vietnam Through the lens of six remarkable people some well known others obscure bestselling historian John Boyko recounts Canada s often overlooked involvement in that conflict as peacemaker combatant and provider of weapons and sanctuary When Brigadier General Sherwood Lett arrived in Vietnam over a decade before American troops he and the Canadians under his command risked their lives trying to enforce an unstable peace while questioning whether they were merely handmaidens to a new war As American battleships steamed across the Pacific Canadian diplomat Blair Seaborn was meeting secretly in Hanoi with North Vietnam s prime minister if American leaders accepted his roadmap to peace those ships could be turned around before war began Claire Culhane worked in a Canadian hospital in Vietnam and then returned home to implore Canadians to stop supporting what she deemed an immoral war Joe

Erickson was among 30 000 young Americans who changed Canada by evading the draft and heading north Doug Carey was one of the 20 000 Canadians who enlisted with the American forces to serve in Vietnam Rebecca Trinh fled Saigon with her husband and young daughters joining the waves of desperate Indochinese refugees thousands of whom were to forge new lives in Canada Through these wide ranging and fascinating accounts Boyko exposes what he calls the Devil s wiliest trick convincing leaders that war is desirable persuading the public that it is acceptable and telling combatants that the deeds they carry out and the horrors they experience are normal or at least necessary In uncovering Canada s side of the story Boyko reveals the many secret and forgotten ways that Canada not only fought the war but was forever shaped by its lessons and lies

Confronting the War Machine Michael S. Foley,2003 Focusing on the draft resistance movement in Boston in 1967 68 this study argues that these acts of mass civil disobedience turned the tide in the antiwar movement by drawing the Johnson administration into a confrontation with activists who were largely young middle class liberal and from suburban backgrounds the core of Johnson s constituency

Making Men, Making History Peter Gossage,Robert Rutherford,2018-05-01 What has it meant to be a man in Canada Alexander Ross fur trader Percy Nobbs architect fisherman fencer Andy Paull residential school survivor and athlete Yves Charbonneau jazz musician and commune member James black and gay in postwar Windsor Who were these men and how did they identify as masculine Populated with figures both well known and unknown Making Men Making History frames masculinity as a socially and historically constructed category of identity susceptible to variation across time place and social context This examination of historical Canadian masculinities reveals the dissonance between hegemonic ideals of manhood and masculinity and the everyday lives of men and boys The volume showcases some of the best new work in masculinity studies With an introduction that contextualizes the international origins of the field Making Men Making History is the first book to explore these themes entirely in Canadian historical settings

On the Other Side(s) of 150 Linda M. Morra, Sarah Henzi, 2021-05-20 *On the Other Side s of 150* explores the different literary historical and cultural legacies of Canada s sesquicentennial celebrations It asks vital questions about the ways that histories and stories have been suppressed and invites consideration about what happens once a commemorative moment has passed Like a Cubist painting this modality offers a critical strategy by which also to approach the volume as dismantling reassembling and re enacting existing commemorative tropes as offering multiple conditional and contingent viewpoints that unfold over time and as generating a broader although far from being comprehensive range of counter memorial performances The chapters in this volume are thus provisional interconnected and adaptive they offer critical assemblages by which to approach commemorative narratives or showcase lacunae therein by which to return to and intervene in ongoing readings of the past from the present moment and by which not necessarily to resolve but rather to understand the troubled and troubling narratives of the present moment Contributors propose that these preoccupations are not a means of turning away from present concerns but rather a means of grappling with how the past informs or is shaped to inform them and how such concerns are defined by immediate social contexts and networks

Buffalo Gal Laura Pedersen, 2008-09-01 Growing up in the snowblower society of Buffalo New York Laura Pedersen s first words were most likely turn the wheel into a skid Like many families subsisting in the frigid North during the energy crisis the Pedersens feared rising prices at the gas pump argued about the thermostat fought over the dog to stay warm at night and often slept in their clothes While her parents were preoccupied with surviving separation and stagflation daughter Laura became the neighborhood wild child skipping school playing poker betting on the horses and trading stocks Learning how to beat the odds by high school graduation Pedersen was well prepared to seek her fortune on Wall Street becoming the youngest person to have a seat on the American Stock Exchange and a millionaire by age 21 Combining laugh out loud humor with a slice of social history her hometown was a flash point for race riots antiwar protests and abortion rallies not to mention bingo bowling and Friday night fish fries Pedersen paints a vivid portrait of an era

Journeys to the Socialist Republic of Vietnam Kalman Dubov,2021-12-12 This volume reviews my visit to Vietnam a country with a long and fascinating history Though relatively small Vietnam had a large footprint on the world stage from the time it was an empire and governed by China for over a thousand years through recent times Though under Chinese occupation for a millennium the embers of independence did not dissipate At an appropriate time a revolt expelled the Chinese and Vietnam regained its independence A resurgent Vietnam after this long quiescent period transformed them into a resilient and hardy people refusing to allow others to invade and conquer them Amazingly three different world powers tried to invade Vietnam and conquer them And each in turn was repelled The first of these were the Mongolians The Mongol army was thoroughly defeated and its army was annihilated in the Battle of the Bach Dang River in 1287 1288 The only others who were successful against the Mongols were the Hungarians far distant from the Far East Six hundred and sixty six years later the French arrived in a colonial effort to subdue these people However the Battle of Dien Bien Phu resulted in French defeat with the Vietnamese again victorious in defeating an invader The United States the greatest superpower in the world then tried to subdue them by might and force by raining bombs that still litter the countryside However the TET Offensive 1968 was so devastating the United States withdrew from the futile effort at defeating them How is it possible that the Vietnamese with about 50 million people in the north of today s unified country was able to defeat the greatest powers wielded against them This is a question to ponder as Vietnam asserts itself as an increasingly powerful economy My knowledge and awareness of Vietnam were colored by the Vietnam War As an 18 year old I submitted documentation regarding eligibility for the military s draft system I received a deferral based on my advanced studies but was acutely aware of the fierce opposition the war engendered on American streets and university campuses I describe this divisive setting culminating in young men deciding to evade the draft by emigrating to Canada or other countries That departure was heart

wrenching considering that forced exit a permanent closure to American citizenship President Carter later pardoned these draft dodgers allowing them to return home At the same time however those men who heeded the country s call to arms paid the price in injury and death These veterans were furious at the unfairness of such a pardon I describe this setting as well as the long simmering and unresolved debate of American Prisoners of War POWs who may have been left behind and not repatriated A special congressional commission was established to delve into these charges but among Vietnamese war veterans the charge and answer remain unresolved decades after the war ended I describe my stepping on Vietnamese soil itself a surreal experience for the first time but as a civilian If fate had decreed otherwise I might have been in the country many years earlier and certainly not by way of a modern cruise ship welcomed by song and smile Vietnam is an amazing country Its people are like no other on our planet I share my wonder and respect for these unique people in this volume trying to capture their presence and their gift of firmest resolve Encyclopedia of American Social Movements Immanuel Ness,2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice **Vietnam** John Prados,2009 The first major synthesis of the war since 2001 drawing upon a host of newly declassified documents presidential tapes and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts America *Encyclopedia of Cold War Politics* Brandon Toropov,2000 There are many reference works on the cold war including The Cold War Encyclopedia 1996 and the recent Historical Dictionary of the Cold War 2000 These works put a crucial period of the twentieth century into perspective They share an international focus driven in part by the global nature of the cold war the events that defined it and the people who fought it This new encyclopedia takes a different tack focusing almost exclusively on American domestic events and issues and touching on international themes only when they are relevant to the U S scene More than 700 entries are arranged alphabetically beginning with Acheson Dean secretary of state from 1949 to 1953 and ending with Yippies an anti establishment DEGREESB radical element of the hippie movement In between are entries on presidents and their opponents civil rights groups and leaders phrases and definitions The length of each entry ranging from 100 2 500 words reflects the importance of the subject or the depth of coverage needed Acheson s boss Harry Truman earns just over four columns while Truman s opponent in the infamous 1948 general election Thomas Dewey barely rates one column Each entry is factual and concise The entry on Martin Luther King Jr mentions his early life and education his adherence to Gandhi s policy of nonviolence the March on Washington and his assassination in Tennessee avoiding the various controversies surrounding both King s life and death Sometimes the generally objective tone of the work is missing as when for example it defines communism as paradoxical and self defeating Black and white photographs enhance the text and the index is detailed This volume is a worthy addition to the cold war reference shelf Its coverage of people places and events that might be ignored in works with a more international

perspective makes it a good starting point for anyone interested in an American focus Recommended for high school public and academic libraries RBB Copyright © American Library Association All rights reserved

Signatures of the Past Marc Maufort, Caroline De Wagter, 2008 In the last decades of the twentieth century North American drama has powerfully enacted the problematic notions of cultural memory and identity as the essays assembled in this critical anthology demonstrate Echoing Derrida's non-essentialist interpretation of the term signature this collection provides an innovative focus on North American theatre and drama as a site of latent cultural memories In this volume the concept of cultural memory offers a privileged vantage point from which to redefine issues of diasporic identities exilic predicaments and multi-ethnic subject positions at the dawn of a new century Playwrights examined here include noted Canadian and US artists such as Marie Clements Eva Ensler Lorraine Hansberry Tomson Highway Cherríe Moraga Djanet Sears Guillermo Verdecchia August Wilson and Chay Yew to cite but a few In the process of remembering North American dramatists develop new aesthetic modes in which the signatures of the past merge with the present and foreshadow an imagined future

The Campus and a Nation in Crisis Willis Rudy, 1996 This book demonstrates how colleges and universities have played a vital role during times of great crisis in American history responding actively and helpfully to all the major challenges confronting their country The colleges of the land became politicized repeatedly by such momentous developments as the American Revolution the Civil War between the North and the South the two vast global conflicts of the twentieth century and America's controversial involvement in Southeast Asia Campus life became intensely fractious during these difficult and turbulent periods Violence sometimes accompanied the campus activism While there were significant differences in the response of groups on the campuses students and professors reacted differently for example to the crises of earlier times as compared to those in more recent years there is an element of continuity That thread of continuity from the Revolutionary era to Vietnam was the fact that time after time the members of the academic communities sought to resolve the nation's crises constructively They rallied to the cause of colonial rights and ultimately political independence They supported the aims of their embattled sections North and South They sought to influence their nation's responses to the global crises of the twentieth century And they campaigned to extricate the nation from an increasingly costly military entanglement in Southeast Asia In all five of these tests of national purpose the colleges and universities while not the ultimate decision makers helped shape the eventual patterns of America's response in an important way

Conscription, Conscientious Objection, and Draft Resistance in American History Jerry Elmer, 2023-09-25 *Conscription, Conscientious Objection, and Draft Resistance in American History* is the definitive history of conscription in America It is the first book ever to consider the entire temporal sweep of conscription from pre-Revolutionary War colonial militia drafts through the end of the Vietnam era Each chapter contains an examination of that era's draft law the actual workings of the conscription machinery and relevant court decisions that shaped the draft in practice In addition the book describes the popular opposition to conscription organized and unorganized

violent and nonviolent public and clandestine legal and illegal Using sources never before utilized by historians including government documents obtained in Freedom of Information Act requests the book demonstrates how anti conscription sentiment has been far deeper than is popularly appreciated
