How Bosnia Armed Marko Attila Hoare, 2004 Within three and a half years of its inception the Bosnian army succeeded in fighting the Serbian army to a standstill Serbia was forced to recognise Bosnia's independence Yet the victory was ambiguous leaving two thirds of the country under the control of Serb and Croat extremists while the remainder became a predominantly Muslim Bosniak inhabited area UN Peacekeeping Operations and the Protection of Civilians Conor Foley, 2017-09-07 Appendix C UN Security Council and General Assembly Resolutions and Presidential Statements UN Security Council Resolutions UN General Assembly Resolutions UN Security Council Meetings and Presidential Statements Bibliography Books Academic Articles and Opinion Index **NATO and the Western Balkans** Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO's evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991 with a particular focus on Bosnia Kosovo and the former Yugoslav Republic of Macedonia in both the conflict and post conflict phases While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism less has been written on NATO's overall role in these conflicts This text therefore fills the gap offering a thematic study of NATO's roles and duties in this region from the early 1990s to the present day The levels of analysis introduced by Mulchinock provide a new framework for examining NATO's response to the Yugoslav wars of secession focusing on the role of key NATO member states and the role of different NATO Secretaries General along with the impact of inter institutional cooperation and conflict with other international organisations **Politics of Ethnic Cleansing** Klejda Mulaj, 2008-02-22 This book sheds light on the causes and consequences of ethnic cleansing in the twentieth century Balkans with particular reference to the former Yugoslavia in the 1990s In providing a thorough and consistent analysis of large scale episodes of ethnic cleansing in modern Balkan history Politics of Ethnic Cleansing fills an important gap in existing conflict and peace studies literature Offering a top down interpretation of the expulsion of ethno national minorities as a means of state building the analysis rests on a fresh multidimensional approach which provides an eclectic discussion of nationalism politics and security This book establishes an agenda for policy making and future research by making specific proposals for clearing up the present ambiguities in international humanitarian law related to ethnic cleansing rethinking humanitarian intervention with a view to restoring the long term viability of the target states and repudiating the argument for forced homogenization as a conflict resolution strategy **Rediscovering the Umma** Ina Merdjanova, 2016 This book discusses the role of Islam in the political and social developments in the Balkans after the fall of communism It explores comparatively the transformations of Muslim identities under the influence of various national and transnational domestic and global factors **Central and Southeast European Politics Since 1989** Sabrina P. Ramet, Christine M. Hassenstab, 2019-10-03 The collapse of the communist monopoly across Central and Southeastern Europe in 1989 1990 initiated a process of rapid change This updated second edition

comprehensively describes the post communist trajectory of the states of Central and Southeastern Europe encompassing democratization privatization corruption and war **Building Democracy in the Yugoslav Successor States** Sabrina P. Ramet, Christine M. Hassenstab, Ola Listhaug, 2017-05-15 Building democracy in societies that have known only authoritarian rule for half a century is complicated Taking the post Yugoslav region as its case study this volume shows how success with democratisation depends on various factors including establishing the rule of law the consolidation of free media and society's acceptance of ethnic religious and sexual minorities Surveying the seven successor states the authors argue that Slovenia is in a class by itself as the most successful with Croatia and Serbia not far behind The other states Bosnia Herzegovina Macedonia Montenegro and Kosovo are all struggling with problems of corruption poverty and unemployment The authors treat the issue of values as a policy problem in its own right debating the extent to which values have been transformed by changes in education and the media how churches and women's organisations have entered into the policy debate and whether governments have embraced a programme designed to effect changes in values **Contesting Europe's Eastern Rim** Ljiljana Saric, Andreas Musolff, Stefan Manz, Ingrid Hudabiunigg, 2010-11-15 Since 1989 Europe's eastern rim has been in constant flux This collection focuses on how political and economic transformations have triggered redefinitions of cultural identity Using discursive modes of identity construction deconstruction reconstruction reformulation and invention the book focuses on the creation of opposition to old and new outsiders and insiders in Europe The linguistic study of discourse elements in connection with an exploration of the significance of metaphors in anchoring individual and collective identity is innovative and allows for a unique analysis of public discourse in Europe **Architectures of Violence** Kate Ferguson, 2022-05-01 Paramilitary or irregular units have been involved in practically every case of identity based mass violence in the modern world but detailed analysis of these dynamics is rare Exploring the case of former Yugoslavia the genocides in Rwanda and Darfur and the ongoing violence in Syria Kate Ferguson exposes the relationships between paramilitaries state commands local communities and organized crime She presents these architectures of violence as a way of comprehending how the various structures of command and control fit together into domestic and international webs of support enabling and encouraging irregular and paramilitary violence Visible paramilitary participation in modern mass atrocities has succeeded in masking the continued dominance of the state in a number of violent crises Irregular combatants have participated so significantly in committing atrocity crimes because political elites benefit from using unconventional forces to fulfil ambitions that violate international law and international policy responses are hindered when responsibility for violence is ambiguous Ferguson's inquiry into these overlooked dynamics of mass violence unveils substantial loopholes in current atrocity prevention architecture Until these are addressed state authorities will likely continue to use irregular combatants as perpetrators of atrocity **The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century** Jochen Böhler, Włodzimierz Borodziej, Joachim von Puttkamer, 2022-02-15 Violence analyzes both the

violence exerted on the societies of Central and Eastern Europe during the twentieth century by belligerent powers and authoritarian and or totalitarian regimes and armed conflicts between ethnic social and national groups as well as the interaction between these two phenomena Throughout the twentieth century Central and Eastern Europe was hit particularly hard by war violence and repression with armed conflicts in the Balkans at the start and end of the period and two world wars in between In the shadow of these full scale wars ethnic social and national conflicts were intensified found new forms and were violently played out The interwar period witnessed the emergence of authoritarian states who enforced their claim to power through continued violence against political opponents stigmatized ethnic national and social groups and were themselves fought with subversive or terrorist techniques This volume focuses specifically on physical violence war and civil war ethnic cleansing systematic starvation policies deportations and expulsions forced labour and prison camps persecution by state security such as intensive surveillance which had an enormous impact on the lives of those it affected and other forms of government oppression and militant resistance Geographically it considers the western regions of Belarus and Ukraine as sites of extreme violence that had a noticeable impact on neighbouring Central and Eastern European countries as well The concluding volume in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in violence in this complex region

**War in the Modern World, 1990-2014** Jeremy

Black, 2014-09-15 In War in the Modern World 1990 2014 Jeremy Black looks at the most modern of conflicts from the perspective that war is a central feature of the modern world Arguing that understanding non Western developments is crucial if the potential of Western war making is to be assessed accurately the book also asserts that knowing the history of conflict can only help future generations Black argues for the need to emphasise the variety of military circumstances as well as the extent to which the understanding of force and the definitions of victory and defeat are guided by cultural assumptions War has a multi faceted impact in the modern world and this book shows its significance As the latest volume in the Warfare and History series this title takes a global and historical perspective on modern warfare enabling the reader to approach familiar conflicts through a new analytical framework This book is an invaluable resource for all students of the history of modern warfare

**Violence after War** Michael J. Boyle, 2014-04-15 Developing a better understanding of the dynamics of violence in post war states can lead to a more durable peace The end of one war is frequently the beginning of another because the cessation of conflict produces two new challenges a contest between the winners and losers over the terms of peace and a battle within the winning party over the spoils of war As the victors and the vanquished struggle to establish a new political order incidents of low level violence frequently occur and can escalate into an unstable peace or renewed conflict Michael J Boyle evaluates the dynamics of post conflict violence and their consequences in Violence after War In this systematic comparative study Boyle analyzes a cross national dataset of violent acts from 52 post conflict states and examines in depth violence patterns from five recent post conflict states Bosnia Rwanda Kosovo East Timor and Iraq In each

of the case studies Boyle traces multiple pathways through which violence emerges in post conflict states and highlights how the fragmentation of combatants especially rebel groups produces unexpected and sometimes surprising shifts in the nature type and targets of attack His case studies are based on unpublished data on violent crime including some from fieldwork in Kosovo East Timor and Bosnia and a thorough review of narrative and witness accounts of the attacks The case study of Iraq comes from data that Boyle obtained directly from U S Central Command published here for the first time Violence after War will be essential reading for all those interested in political violence peacekeeping and post conflict reconstruction Blue Helmets and Black Markets Peter Andreas,2011-08-15 The 1992 1995 battle for Sarajevo was the longest siege in modern history It was also the most internationalized attracting a vast contingent of aid workers UN soldiers journalists smugglers and embargo busters The city took center stage under an intense global media spotlight becoming the most visible face of post Cold War conflict and humanitarian intervention However some critical activities took place backstage away from the cameras including extensive clandestine trading across the siege lines theft and diversion of aid and complicity in the black market by peacekeeping forces In Blue Helmets and Black Markets Peter Andreas traces the interaction between these formal front stage and informal backstage activities arguing that this created and sustained a criminalized war economy and prolonged the conflict in a manner that served various interests on all sides Although the vast majority of Sarajevans struggled for daily survival and lived in a state of terror the siege was highly rewarding for some key local and international players This situation also left a powerful legacy for postwar reconstruction new elites emerged via war profiteering and an illicit economy flourished partly based on the smuggling networks built up during wartime Andreas shows how and why the internationalization of the siege changed the repertoires of siege craft and siege defenses and altered the strategic calculations of both the besiegers and the besieged The Sarajevo experience dramatically illustrates that just as changes in weapons technologies transformed siege warfare through the ages so too has the arrival of CNN NGOs satellite phones UN peacekeepers and aid convoys Drawing on interviews reportage diaries memoirs and other sources Andreas documents the business of survival in wartime Sarajevo and the limits contradictions and unintended consequences of international intervention Concluding with a comparison of the battle for Sarajevo with the sieges of Leningrad Grozny and Srebrenica and more recently Falluja Blue Helmets and Black Markets is a major contribution to our understanding of contemporary urban warfare war economies and the political repercussions of humanitarian action *The Edge of Law* Alex Jeffrey,2019-12-19 Explores the political and social consequences of establishing a new legal system in the wake of violent conflict

**Clausewitz's Timeless Trinity** Colin M. Fleming,2016-05-23 This is the first book to apply the Clausewitzian Trinity of passion chance and reason to the experience of real war It explores the depth and validity of the concept against the conflicts of former Yugoslavia wars thought to epitomise a post Clausewitzian age In doing so it demonstrates the timeless message of the Trinity but also ties the Trinitarian idea back into Clausewitz s political argument Intended to build on the existing corpus

of scholarship this book differs from the existing literature in two ways By applying the Trinity to the wars of former Yugoslavia 1991 1995 it explores war at its micro foundations assessing the complex cause and effect nexus of reciprocity produced by actions between belligerents embroiled in dynamic competition perpetuated by their own interaction Providing valuable insights into the complexities of real war fuelled by passion undermined by chance and shaped by reason it is the first study to bridge the Clausewitzian world of theory with real experience Examining each part of the triad separately the book explores the multiple manifestations of hostility and chance before then assessing the influence of these elements on the policies of the belligerents as the war evolved

Places of Pain Hariz Halilovich, 2013-02-01 For displaced persons memory and identity is performed re constructed and re negotiated daily Forced displacement radically reshapes identity with results ranging from successful hybridization to feelings of permanent misplacement This compelling and intimate description of places of pain and longing that were lost during the 1992 95 war in Bosnia and Herzegovina as well as of survivors places of resettlement in Australia Europe and North America serves as a powerful illustration of the complex interplay between place memory and identity It is even more the case when those places have been vandalized divided up brutalized and scarred However as the author shows these places of humiliation and suffering are also places of desire with displaced survivors emulating their former homes in the far corners of the globe where they have resettled

Britain and the Balkans Carole Hodge, 2006-04-18 This book traces the evolution of British policy in former Yugoslavia from the onset of war in Croatia and Bosnia to the NATO action in Kosovo and beyond examining the underlying factors which have governed Britain's Balkans policy

The Balkans on Trial Carole Hodge, 2019-05-10 This book assesses the International Criminal Tribunal for former Yugoslavia's ICTY legacy and examines the conflicting intersection of law and politics in the search for justice both thematically and through close analysis of some of the major trials It analyses the related case brought against Serbia and Montenegro by Bosnia and Herzegovina at the International Court of Justice ICJ as well as the Ganic case in London where the ICTY and ICJ findings were challenged The book addresses the following questions To what extent the political climate in which the ICTY was conceived and continues to operate has affected the declared aims of its founders Have political considerations and political correctness and the perceived need for political stability and democratic transition at times proved an obstacle to the administration of justice Are some of the acknowledged failings of international policy in the 1990s finding some resonance in more recent court proceedings This highly relevant and comprehensive book will be of interest to students and scholars of political science international relations transitional justice Balkan area studies human rights law international criminal and peace and conflict studies

The Balkans Mark Biondich, 2011-02-17 The Balkans has long been a place of encounter among different peoples religions and civilizations resulting in a rich cultural tapestry and mosaic of nationalities But it has also been burdened by a traumatic post colonial experience The transition from traditional multinational empires to modern nation states has been accompanied by large scale political violence that has resulted in the

deaths of hundreds of thousands and the permanent displacement of millions more Mark Biondich examines the origins of these conflicts while treating the region as an integral part of modern European history shaped by much the same forces and intellectual impulses It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans As Biondich shows the political violence that has bedevilled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity Throughout this period the Balkan proponents of democratic governance civil society and multiculturalism were progressively marginalized The history of revolution war political violence and ethnic cleansing in the modern Balkans is above all the story of this tragic marginalization
