Olick, Vered Vinitzky-Seroussi, Daniel Levy, 2011 In the last few decades there are few concepts that have rivaled collective memory for attention in the humanities and social sciences Indeed use of the term has extended far beyond scholarship to the realm of politics and journalism where it has appeared in speeches at the centers of power and on the front pages of the world's leading newspapers Seen by scholars in numerous fields as a hallmark characteristic of our age an idea crucial for understanding our present social political and cultural conditions collective memory now guides inquiries into diverse though connected phenomena Nevertheless there remains a great deal of confusion about the meaning origin and implication of the term and the field of inquiry it underwrites The *Collective Memory Reader* presents organizes and evaluates past work and contemporary contributions on collective memory Combining seminal texts hard to find classics previously untranslated references and contemporary landmarks it will serve as a key reference in the field In addition to a thorough introduction which outlines a useful past for contemporary memory studies The *Collective Memory Reader* includes five sections Precursors and Classics History Memory and Identity Power Politics and Contestation Media and Modes of Transmission Memory Justice and the Contemporary Epoch comprising ninety one texts A short editorial essay introduces each of the sections while brief capsules frame each of the selected texts An indispensable guide The *Collective Memory Reader* is at once a definitive entry point into the field for students and an essential resource for scholars **Shakespeare and Commemoration** Clara Calvo, Ton Hoenselaars, 2019-07-16 Memory and commemoration play a vital role not only in the work of Shakespeare but also in the process that has made him a world author As the contributors of this collection demonstrate the phenomenon of commemoration has no single approach as it occurs on many levels has a long history and is highly unpredictable in its manifestations With an international focus and a comparative scope that explores the afterlives also of other artists this volume shows the diverse modes of commemorative practices involving Shakespeare Delving into these cultures of commemoration it presents keen insights into the dynamics of authorship literary fame and afterlives in its broader socio historical contexts Touring Cultures Chris Rojek, John Urry, 1997 Available on Hospitality and Tourism Complete Publications via EBSCOHOST via internet A password may be needed off campus **Pastoral Bearings** Mary Clark Moschella, Jane F. Maynard, Leonard Hummel, 2010-03-18 The study of lived religion is an enterprise which attempts to elucidate how ordinary men and women in all times and places draw on religious behavior media and meanings to make sense of themselves and their world Through the influence of liberation theology and postmodernism pastoral theologians like other scholars of religion have begun more closely to examine the particularity of religious practice that is reflected through the rubric of lived religion *Pastoral Bearings* offers up ten studies that exemplify the usefulness of the lived religion paradigm to the field of pastoral theology The volume presents detailed qualitative research focused on the everyday beliefs

and practices of individuals and groups and explores the implications of lived religion for interdisciplinary conversation intercultural and gender analysis and congregational studies Reflecting upon the utility of this approach for pastoral theological research education and pastoral care the studies collected in Pastoral Bearings demonstrate the importance of the study of lived religion Performing Southeast Asia Marcus Cheng Chye Tan, Charlene Rajendran, 2020-02-14

Performing Southeast Asia Performance Politics and the Contemporary is an important reconsideration of the histories and practices of theatre and performance in a fluid and dynamic region that is also experiencing an overarching politics of complexity precarity and populist authoritarian tendencies In a substantial introductory essay and essays by leading scholars activists and practitioners working inside the region the book explores fundamental questions for the arts The book asks how theatre contributes to and or addresses the political condition in the contemporary moment how does it represent the complexity of experiences in peoples daily lives and how does theatre engage in forms of political activism and enable a diversity of voices to flourish The book shows how in an age of increasingly violent politics political institutions become sites for bad actors and propaganda Forces of biopolitics neo liberalism and religious and ethnic nationalism intersect in unpredictable ways with decolonial practices all of which the book argues are forces that define the contemporary moment Indeed by putting the focus on contemporary politics in the region alongside the diversity of practices in contemporary theatre we see a substantial reformation of the idea of the contemporary moment not as a cosmopolitan and elite artistic practice but as a multivalent agent of change in both aesthetic and political terms With its focus on community activism and the creative possibilities of the performing arts the region Performing Southeast Asia is a timely intervention that brings us to a new understanding of how contemporary Southeast Asia has become a site of contest struggle and reinvention of the relations between the arts and society Peter Eckersall The Graduate Center City University of New York Performing Southeast Asia with chapters concerned with how regional theatres seek contextually grounded yet post national istic forms how history and tradition shape but do not hold down contemporary theatre and how in the editors words such artistic encounters could result in theatres that do not merely attend to matters of cultural heritage tradition or history but instead engage overtly with theatre and performance in the contemporary contributes to the possibility of understanding what options for an artistically transubstantiated now ness may be to the possibility that is of what might be called a Present Tense Theatre C J W L Wee Professor of English Nanyang Technological University Performing Southeast Asia examines contemporary performance practices and their relationship with politics and governance in Southeast Asia in the twenty first century In a region haunted historically by strongman politics authoritarianism and militarism religious tension and ethnic strife the chapters reveal how contemporary theatre and performances in the present reflect yet challenge dominant socio political discourses The authors analyse works of political commitment and conviction created and performed by Southeast Asian artists as modes and platforms of reaction and resistance to the shifting political climates that inform contemporary life

in urban Southeast Asia The discussions center on issues of state hegemonies and biopolitics finance and sponsorship social liberalism and conservatism the relevance of history and tradition and globalisation and cultural practice These diverse yet related concerns converge on an examination of the efficacies of theatre and performance as means of political intervention and transformation that point to alternative embodiments of political consciousness through which artists propose critical options for rethinking the state citizenship identity and belonging in a time of seismic socio political change The editors also reframe an understanding of the contemporary not simply as a temporal adjective but in the context of present Southeast Asia as a geopolitical condition that shapes artistic and performance practices *Authenticity* Yolanda van Ede, 2004
