the Cosmos to re-ignite his heart and experience the deep enigmas of existence with the great thinkers of the past Natural
Science arose in the cultural setting of Christian Europe Those first scientists at the dawn of the modern age were spiritually
trained mystic Monks of Christian Church Natural Science is mysteriously intertwined with the riddles of the Soul and
Christianity The search for the meaning of life and the soul became bound up with debates over atoms and molecules and
ended there Times changed and the search for the soul was obscured by the uncertainty of the findings of natural science
which eventually pervaded everything including the teachings of Christianity The Spiritual Body of Man and his Christology
was cast into shadow by the new Light of natural science and Eden faded into man's dreams Is there a secret mystery
teaching hidden in the discoveries of the natural sciences that relates to the search for the Soul Man's spiritual body and the
secrets of Christianity Tazo takes up these threads of thought to reveal a concealed Teaching of the Spirit that goes back to
ancient times Follow along as Tazo shows the hidden connection of the Ancient Teachings to unlock the deepest secrets of
the natural world Our science must lead the way must prepare for what has to happen with the bodily essence in the future
In the near future it must itself develop into something which has life in itself and recognize the life inherent in the earth The

Miller, 2011-04-25 The concept of raising the spiritual light quotient is similar to the intelligence quotient used in modern psychology the IQ test However the spiritual light quotient is not the same as intelligence Rather the SLQ reflects one s ability to understand spiritual concepts to meditate and to connect with other dimensions It also is a measurement of one s ability to understand the relationship between Earth and the environment of the Earth and Earth s relationship to the galaxy Finally it is a measurement of one s ability to understand the existence of other dimensions as well as the relationship between the ascended masters and guides and our journey to higher realms for soul evolution Thus it appears necessary to look at the SLQ of a person the SLQ of an area and the SLQ of a planet All of the channeling I bring forth is based on the concept of the Sacred Triangle which is a new paradigm for spirituality This paradigm states that in order to heal Earth and bring everything into balance one must unite the concepts of galactic spirituality with ancient mystical thought and with the energies of native peoples including Native Americans
