Korean War Handbook Of The Literature And Research

Steven L. Rearden

Korean War Handbook Of The Literature And Research:

The Korean War Lester H. Brune, 1996-04-22 This comprehensive assessment by experts of the significant literature and research about the Korean War has been designed for students teachers and researchers at various levels and for broad interdisciplinary use Edited by Brune this one volume research tool evaluates traditional interpretations and recent findings and trends and points to studies that are still needed on various topics Twenty three topical chapters cover the historical background and general references international aspects of the war and the role and perspectives of major combatants military policies and the strategies and tactics of the various armed forces the Korean unification struggle after the war and the relationship of the U S homefront to the Korean War The book is fully indexed and is easily accessible Twenty three topical chapters cover the historical background and general references international aspects of the war and the role and perspectives of major combatants from the United Nations and Korea to European and Asian and Pacific nations including information on the most recent sources from the Soviet Union and Communist China the military policies and the strategies and tactics of the U S Army Navy and Marines and Air Force the Korean unification struggle after the war and the relationship of the U S homefront to the Korean War from the Administration and Congress to public opinion and the war as seen by women and minorities and through the eyes of the cinema and TV The book is fully indexed and is easily accessible for varied use by students teachers and researchers in different fields and at all levels *The Ashgate Research Companion to the Korean War* Donald W. Boose, 2016-03-23 This essential companion provides a comprehensive study of the literature on the causes course and consequences of the Korean War 1950 1953 Aimed primarily at readers with a special interest in military history and contemporary conflict studies the authors summarize and analyze the key research issues in what for years was known as the Forgotten War The book comprises three main thematic parts each with chapters ranging across a variety of crucial topics covering the background conduct clashes and outcome of the Korean War The first part sets the historical stage with chapters focusing on the main participants The second part provides details on the tactics equipment and logistics of the belligerents Part III covers the course of the war with each chapter addressing a key stage of the fighting in chronological order The enormous increase in writings on the Korean War during the last thirty years following the release of key primary source documents has revived and energized the interest of scholars This essential reference work not only provides an overview of recent research but also assesses what impact this has had on understanding the war **The Korean War** Keith D. McFarland, 2009-12-04 The Korean War is the most comprehensive and detailed bibliography compiled to date on the American involvement in The Forgotten War In this revised and expanded second edition Keith D McFarland's clearly written annotations provide concise descriptions of more than 2 600 of the most important books articles and documents written in English on the conflict in Korea Key topics include origins of the war the political and military roles of North and South Korea the United States the Soviet Union China Great Britain Canada Australia South Africa Turkey and

other United Nations members campaigns and battles weapons and uniforms and the military and diplomatic aspects of the war Specific subjects are easy to find using the index organized by topic and author making The Korean War a necessity for every academic or research library **Historical Dictionary of the Korean War** Paul M. Edwards, 2010-06-10 The Korean War has often been regarded as a forgotten war although that is certainly unfair It was if anything a rather crucial war within the ambit of the Cold War started by North Korea in 1950 and although the bulk of the fighting was over by 1954 peace has never been concluded and the two sides still face off over the demilitarized zone On the other side of the zone is South Korea which has since become a very prosperous and democratic country while North Korea has achieved relatively little So that war is certainly not forgotten by the Koreans And given the large number of deaths and casualties it is still remembered by many in the United States and other allies as well as China and the Soviet Union This Historical Dictionary of the Korean War now in its second edition does much to jolt our memory and inform us about the war This is done first in a lengthy chronology tracking the war but also the path to war and what happened after The introduction covers the war as a whole trying to make sense of it The dictionary section provides all of the necessary details on significant persons places and events battles and other engagements military units and material as well as the political economic and social background There are also maps and a list of acronyms This is really the ideal source for information in addition to which it also has an extensive bibliography

The Korean War Andrew James Birtle, 2000 The first twelve months of the Korean War June 1950 June 1951 had been characterized by dramatic changes in the battlefield as the opposing armies swept up and down the length of the Korean peninsula This war of movement virtually ended on 10 July 1951 when representatives from the warring parties met in a restaurant in Kaesong to negotiate an end to the war Although the two principal parties to the conflict the governments of the Democratic People's Republic of Korea North Korea and the Republic of Korea ROK or South Korea were more than willing to fight to the death their chief patrons The People's Republic of China and the Soviet Union the one hand and the United States and the United Nations UN on the other were not Twelve months of bloody fighting had convinced Mao Tse tung Joseph V Stalin and Harry S Truman that it was not longer in their respective national interests to try and win a total victory in Korea The costs in terms of men and materiel were too great as were the risks that the conflict might escalate into a wider global conflagration Consequently they compelled their respective Korean allies to accept a truce talks as the price for their continued military economic and diplomatic support Page 3 *The Encyclopedia of the Korean War* Spencer C. Tucker, Paul G. Pierpaoli Jr., 2010-04-09 A multidimensional multidisciplinary work on one of the least understood but most important conflicts in modern history A cornerstone work in ABC CLIO's distinguished list of reference works on military history The Encyclopedia of the Korean War A Political Social and Military History is a comprehensive resource on the confrontation that became the first shooting war of the Cold War the first limited conflict of the Atomic Age and the war that led to a dramatic escalation of the national security state while foreshadowing U S involvement in Vietnam Encyclopedia of

the Korean War offers complete coverage of strategies weapon systems and clashes that marked the course of events on the battlefield But this authoritative multidisciplinary work expands beyond the military perspective to portray the overall culture of the era addressing a variety of political economic social and popular culture topics as well Incorporating a wealth of recent research the new edition adds more than 130 entries and updated coverage throughout plus more bibliographic listings an expanded historiographical essay and a documents volume

The Korean War Stanley Sandler, 2021-09-15 The Korean War has been termed The Forgotten War or the Unknown War It is a conflict which never assumed the mythic character of the American Civil War or World War II However this book asserts it would be impossible to understand the Cold War and indeed post 1945 global history without knowledge of the Korean War Providing a history of the Korean peninsula before the war and including a detailed analysis of the fighting itself The Korean War goes beyond the battlefield to deal with the war in the air ground attack and air evacuation The study also evaluates the contributions of the UN naval forces the impact of the war on various homefronts and issues such as defectors opposition to the war racial segregation and integration POWs and the media Recently released Soviet documents are used to assess the role of China the Soviet Union North and South Korea and the allied forces in the conflict This fascinating work offers a unique analysis of the Korean War and will be invaluable to students of twentieth century history particularly those concerned with American and Pacific history

The War for Korea, 1945-1950 Allan R. Millett, 2015-02-27 When the major powers sent troops to the Korean peninsula in June of 1950 it supposedly marked the start of one of the last century s bloodiest conflicts Allan Millett however reveals that the Korean War actually began with partisan clashes two years earlier and had roots in the political history of Korea under Japanese rule 1910 1945 The first in a new two volume history of the Korean War Millett s study offers the most comprehensive account of its causes and early military operations Millett traces the war s origins to the post liberation conflict between two revolutionary movements the Marxist Leninists and the Nationalist capitalists With the U S Soviet partition of Korea following World War II each movement now with foreign patrons asserted its right to govern the peninsula leading directly to the guerrilla warfare and terrorism in which more than 30 000 Koreans died Millett argues that this civil strife fought mostly in the South was not so much the cause of the Korean War as its actual beginning Millett describes two revolutions locked in irreconcilable conflict offering an even handed treatment of both Communists and capitalists nationalists Neither movement was a model of democracy He includes Korean Chinese and Russian perspectives on this era provides the most complete account of the formation of the South Korean army and offers new interpretations of the U S occupation of Korea 1945 1948 Millett s history redefines the initial phase of the war in Asian terms His book shows how both internal forces and international pressures converged to create the Korean War a conflict that still shapes the politics of Asia

A Companion to Dwight D. Eisenhower Chester J. Pach, 2017-04-07 A Companion to Dwight D Eisenhower brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and

era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of Eisenhower s many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history Combat Operations of the Korean War Paul M. Edwards,2015-01-28 This reference work provides information on all known military operations carried out under United Nations command as part of the Korean War from June 1950 through 22 July 1954 Following an introductory history of the Korean War and a precise chronology of all Korean War operations entries are arranged by operation name in five sections primarily ground operations primarily air operations primarily sea operations specialized operations and covert and clandestine operations For each operation information includes dates objectives units involved place within the greater strategy of the war and outcome

To Shape Our World for Good C. William Walldorf, Jr.,2019-06-15 Why does the United States pursue robust military invasions to change some foreign regimes but not others Conventional accounts focus on geopolitics or elite ideology C William Walldorf Jr argues that the politics surrounding two broad public narratives the liberal narrative and the restraint narrative often play a vital role in shaping US decisions whether to pursue robust and forceful regime change Using current sociological work on cultural trauma Walldorf explains how master narratives strengthen and weaken and he develops clear predictions for how and when these narratives will shape policy To Shape Our World For Good demonstrates the importance and explanatory power of the master narrative argument using a sophisticated combination of methods quantitative analysis and eight cases in the postwar period that include Korea Vietnam and El Salvador during the Cold War and more recent cases in Iraq and Libya The case studies provide the environment for a critical assessment of the connections among the politics of master narratives pluralism and the common good in contemporary US foreign policy and grand strategy Walldorf adds new insight to our understanding of US expansionism and cautions against the dangers of misusing popular narratives for short term political gains a practice all too common both past and present *Twentieth Century China: An Annotated Bibliography of Reference Works in Chinese, Japanese and Western Languages* James H. Cole,2019-07-23 This bibliography of reference works from Chinese Japanese and Western language sources covers the 1911 Revolution the Republic of China 1912 1949 the People s Republic of China 1949 onwards post 1911 Hong Kong and Macau and post 1911 overseas Chinese Filled with helpful checklists charts and suggestions for further reading this practical comprehensive and multidisciplinary guide takes readers through the entire case writing process including skills for writing both teaching cases and research cases This edition includes new discussions of students as case writers and how to interpret and respond to reviews as well

as updated and expanded material on video multimedia and Internet cases 1996 Massimo Mastrogregori, 2014-02-21
Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **Eyewitness Korea** James Goulty, 2018-11-30 Today the Korean War of 1950-1953 is overshadowed by later twentieth century conflicts in Vietnam and the Middle East yet at the time it was the focus of international attention It threatened to lead to a third world war and although fought on a limited scale it still involved over a million men under UN command and even more on the Communist side It left the American and British troops who took part with a range of intense recollections that often marked them for the rest of their lives and it is these experiences that James Goulty draws on in this eyewitness history of the conflict He uses official documents letters diaries regimental histories memoirs oral histories and correspondence to show what the war was like for those who took part Their accounts vividly contrast the American and British experience as seen through the eyes of individual servicemen and they throw fresh light on the relations between the UN forces on their different attitudes tactics training and equipment and on the tensions that developed between them

Hollywood Asian Hye Seung Chung, 2006-10-15 From silent films to television programs Hollywood has employed actors of various ethnicities to represent Oriental characters from Caucasian stars like Loretta Young made up in yellow face to Korean American pioneer Philip Ahn whose more than 200 screen performances included roles as sadistic Japanese military officers in World War II movies and a wronged Chinese merchant in the TV show Bonanza The first book length study of Korean identities in American cinema and television Hollywood Asian investigates the career of Ahn 1905-1978 a pioneering Asian American screen icon and son of celebrated Korean nationalist An Ch'ang-ho In this groundbreaking scholarly study Hye Seung Chung examines Ahn's career to suggest new theoretical paradigms for addressing cross ethnic performance and Asian American spectatorship Incorporating original material from a wide range of sources including U.S. government and Hollywood screen archives Chung's work offers a provocative and original contribution to cinema studies cultural studies and Asian American as well as Korean history **East Wind** Tom Buchanan, 2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse-tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931-1945 and the role of the British left in relations with the People's Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino-Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the

student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left's relationship with China has been unjustly overlooked There were many occasions such as the mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China's emergence as an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China's economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century Decisive Encounters Odd Arne Westad,2003

Though the book highlights the military aspects of the war it also shows how these took place alongside profound changes in Chinese politics society and culture changes that ultimately contributed as much to the character of today's China as did the major battles By analyzing the war as an international and not simply a domestic conflict the author explains why so much of the present legitimacy of the Beijing government derives from its successes during the late 1940s and reveals how the antagonism between China and the United States so important to current international affairs was born BOOK JACKET

Resowing the Seeds of War Stephen J. Heidt,2021-03-01 Ending a war as Fred Charles Ikl wrote poses a much greater challenge than beginning one In addition to issues related to battle tactics prisoners of war diplomatic relations and cease fire negotiations ending war involves domestic political calculations Balancing the tides of public opinion versus policy needs poses a deep and enduring problem for presidents In a first of its kind study Resowing the Seeds of War explains how Presidents Truman Eisenhower Nixon and Obama managed the political policy and bureaucratic challenges that arise at the end of war via a series of rhetorical choices that reframe modify or unravel depictions of national enemies the cause of the conflict and the stakes for the nation and world This end of war rhetoric justifies ending hostilities rationalizes postwar national policy argues for the construction of postwar security arrangements and often sustains public support for massive financial investment in reconstruction By tracking presidential manipulations of savage imagery from World War II to the War on Terror this book concludes that even as metaphoric reframing facilitates exit from conflict it incurs unexpected consequences that make national involvement in the next conflict more likely **History of the Office of the Secretary of**

Defense: Strategy, Money, and the New Look, 1953-1956 Alfred Goldberg,2001 *History of the Office of the Secretary of Defense* Steven L. Rearden,1984

Thank you for reading **Korean War Handbook Of The Literature And Research**. Maybe you have knowledge that, people have look hundreds times for their chosen novels like this Korean War Handbook Of The Literature And Research, but end up in infectious downloads.

Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some harmful bugs inside their desktop computer.

Korean War Handbook Of The Literature And Research is available in our digital library an online access to it is set as public so you can get it instantly.

Our digital library hosts in multiple countries, allowing you to get the most less latency time to download any of our books like this one.
