## **Kunst Der Polyphonie:**

**The Polyphony of Life** Andreas Pangritz, 2019-10-25 This fascinating book which explores an intriguing idea formulated by Dietrich Bonhoeffer in the very last months of his life has up until now been available only to German readers Since Polyphonie des Lebens first appeared twenty five years ago a whole new generation of scholars has come into contact in English as well as in the original German with the entire collection of his works as well as with a huge body of Bonhoeffer studies that have provided an exhaustive assessment of the man and his theology But now with this brand new English edition of a book that explores a neglected but significant aspect of his life readers may be surprised to discover how Bonhoeffer's interest in music influenced him he seriously considered becoming a professional musician as a teenager but chose the path of theology instead and that not only did music provide him with a rich inner world of solace during his daily life while confined in Tegel Prison during 1943 and 1944 but music also lent him a remarkable metaphor for the fragmentary nature of life itself In Polyphony of Life Andreas Pangritz explores Bonhoeffer's musical development and its impact on his theology and so fills in an important gap in the record of Bonhoeffer's life and thought

**Volume 9: Aesthetics and Philosophy of Art** Guttorm Fløistad, 2007-03-16 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far eight volumes are published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volume 6 1 and Volume 6 2 Asian Philosophy Volume 7 and Philosophy of Latin America Volume 8
