**The Kurds Ascending** M. Gunter, 2011-06-20 This is the first book to be primarily directed at analyzing the evolving solution to the Kurdish problem in Iraq and Turkey Although this solution remains cautiously fragile it does represent a strikingly positive future that until recently seemed so bleak      Oil and National Identity in the Kurdistan Region of Iraq Alessandro Tinti, 2021-11-29 Examining the interplay between the oil economy and identity politics using the Kurdistan Region of Iraq as a case study this book tells the untold story of how extractivism in the Kurdish autonomous region is interwoven in a mosaic of territorial disputes simmering ethnic tensions dynastic rule party allegiances crony patronage and divergent visions about nature Since the ousting of Saddam Hussein the de facto borders of the Kurdistan Region of Iraq have repeatedly changed with energy interests playing a major role in such processes of territorialisation However relatively little research exists on the topic This book provides a timely empirical analysis of the intersections between extractive industries oil imaginaries and identity formation in one of the most coveted energy frontiers worldwide It shines a light on relations between the global production networks of petro capitalism and extractive localities

Besides the strained federal relationship with the Iraqi central government the transformative effects the petroleum industry has had on Kurdish society are also explored in depth Moreover the book fills a gap in the literature on Kurdish Studies which has devoted scant attention to energy related issues in the re imagination of Kurdish self determination This book will be of great interest to students and scholars of the extractive industries energy studies conflict studies Middle Eastern politics and political ecology

**Jewish Subjects and Their Tribal Chieftains in Kurdistan** Mordechai Zaken, 2007-08-31 Based on new oral sources carefully analyzed this book explores the relationships between Jewish subjects and their tribal chieftains in Kurdistan focusing on the patronage and justice provided by the chieftains and the financial support provided by the Jews to endure troubles and caprices of chieftains New reports and vivid tales unveil the status of Jews in the tribal setting the slavery of rural Jews the conversion to Islam and the defense mechanisms adopted by Jewish leaders to annul conversion of abducted women Other topics are the trade and occupations of the Jews and their financial exploitation by chieftains The last part explores the experience of Jewish communities in Iraqi Kurdistan between World War I and the mass migration to Israel 1951 52

*The Kurdish National Movement in Turkey* Cengiz Gunes, 2013-01-11 This book provides an interpretive and critical analysis of Kurdish identity nationalism and national movement in Turkey since the 1960s By raising issues and questions relating to Kurdish political identity and highlighting the ideological specificity diversity and the transformation of Kurdish nationalism it develops a new empirical dimension to the study of the Kurds in Turkey Cengiz Gunes applies an innovative theoretical approach to the analysis of an impressively large volume of primary sources and data drawn from books and magazines published by Kurdish activists political parties and groups The analysis focuses on the specific demands articulated by the Kurdish national movement and looks at Kurdish nationalism at a specific level by disaggregating the nationalist discourse showing variations over time and across different Kurdish nationalist organisations Situating contemporary Kurdish political identity and its political manifestations within a

historical framework the author examines the historical and structural conditions that gave rise to it and influenced its evolution since the 1960s The analysis also encompasses an account of the organisational growth and evolution of the Kurdish national movement including the political parties and groups that were active in the period Bringing the study of the organisational development and growth of the Kurdish National Movement in Turkey up to date this book will be an important reference for students and scholars of Middle Eastern politics social movements nationalism and conflict **The PKK-Kurdistan Workers' Party's Regional Politics** Ali Balci,2016-11-30 This book presents a theoretical framework to study dissident ethnic movements imagination of world politics with a special focus on the PKK as a case study Dissident ethnic movements are not only a challenge to the existing hegemonic power but they also produce an alternative closed society based on different ethnic imagination Instead of taking the armed PKK movement as a pure resistant this book approaches contemporary Kurdish nationalism led by the PKK as a counter hegemonic with a narrative that entails the emergence of a new kind of identity and sense of belonging through which the PKK has been able to exercise its power This book is an attempt to go beyond resistance oriented approach unveiling the two faces of the PKK s representation of world politics its transformative effect on the Kurds and its exclusionary function towards traditional and alternative Kurdish subjects institutions **The Sung Home. Narrative, Morality, and the Kurdish Nation** Wendelmoet Hamelink,2016-04-08 The Sung Home tells the story of Kurdish singer poets dengbajs in Kurdistan in Turkey who are specialized in the recital singing of historical songs After a long period of silence they returned to public life in the 2000s and are presented as guardians of history and culture Their lyrics life stories and live performances offer fascinating insights into cultural practices local politics and the contingencies of state borders Decades of oppression have deeply politicized and moralized cultural and musical production Through in depth ethnographic analysis Hamelink highlights the variety of personal and social narratives within a society in turmoil Set within the larger global stories of modernity nationalism and Orientalism this study reflects on different ideas about what it means to create a Kurdish home **The Kurdish Nationalist Movement** David Romano,2006-03-02 David Romano s 2006 book focuses on the Kurdish case to try and make sense of ethnic nationalist resurgence generally In a world rent by a growing number of such conflicts the questions posed about why how and when such challenges to the state are mounted are becoming increasingly urgent Throughout the author analyses these questions through the lens of social movement theory considering in particular politico social structures resource mobilization strategies and cultural identity His conclusions offer some thought provoking insights into Kurdish nationalism as well as into the strengths and weaknesses of various social movement theories While the book offers a rigorous conceptual approach the empirical material the result of the author s personal experiences makes it a compelling read It will find a readership amongst students of the Middle East and also amongst those interested in ethnic relations minority rights terrorism state repression social movement theories and many other related issues **Nation Building in Kurdistan** Mohammed

Brenneman,2016-01-20 The Kurds are the largest ethnic group in the world without their own homeland numbering over 30 million people divided among Turkey Iran Iraq and Syria Originating as rural nomads living in the mountains the Kurds have transformed into an urban entity within the Middle East Brenneman who has lived and conducted long term fieldwork among the Kurds in Iraq and Turkey presents a rich arc of their culture and experiences from ancient to modern times The latest edition incorporates original and updated accounts of core and changing aspects of contemporary Kurdish culture including human rights challenges complicated ethnic identity women s roles and gender issues family and community dynamics diverse religious practices transition from oral tradition to literacy and struggles to defeat the Islamic State Questions for discussion at the end of each chapter encourage readers to think deeply about what it means to be a proud ethnic group fighting for sovereignty and recognition **Iran, Iraq, and the Legacies of War** L. Iraqi Kurdistan, the PKK and International Relations Hannes Černý, 2017-07-28 Due to its primacy in explaining issues of war and peace in the international arena the discipline of International Relations IR looms large in analyses of and responses to ethnic conflict in academia politics and popular media in particular with respect to contemporary conflicts in the Middle East Grounded in constitutive theory this book challenges how ethnic ethno nationalist conflict is represented in explanatory IR by deconstructing its most prominent state centric models frameworks and analytical concepts As much a critique of contemporary scholarship on Kurdish ethno nationalism as a detailed analysis of the most prominent Kurdish ethno nationalist actors the book provides the first in depth investigation into the relations between the PKK and the main Iraqi Kurdish political parties from the 1980s to the present It situates this inquiry within the wider context of the ambiguous political status of the Kurdistan Region of Iraq its relations with Turkey and the role Kurdish parties and insurgencies play in the war against ISIS in Iraq and Syria Appreciating these complex dynamics and how they are portrayed in Western scholarship is essential for understanding current developments in the Iraqi and Syrian theatres of war and for making sense of discussions about a potential independent Kurdish state to emerge in Iraq Iraqi Kurdistan provides a comprehensive and critical discussion of the state centric and essentialising epistemologies ontologies and methodologies of the three main paradigms of explanatory IR as well as their analytical models and frameworks on ethnic identity and conflict in the Middle East and beyond It will therefore be a valuable resource for anyone studying ethnicity and nationalism International Relations or Middle East Politics

**From the Ashes of Angels** Andrew Collins, 2001-09-01 Provides convincing evidence that angels demons and fallen angels were flesh and blood members of a giant race predating humanity spoken of in the Bible as the Nephilim Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan By the author of Gateway to Atlantis Our mythology describes how beings of great beauty and intelligence who served as messengers of gods fell from grace through pride These angels also known as Watchers are spoken of in the Bible and other religious texts as lusting after human women who lay with them and gave birth to giant offspring called the Nephilim These religious sources also record how these beings revealed forbidden arts and sciences to humanity transgressions that led to their destruction in the Great Flood Andrew Collins reveals that these angels demons and fallen angels were flesh and blood members of a race predating our own He offers evidence that they lived in Egypt prior to the ancient Egyptians where they built the Sphinx and

other megalithic monuments before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below Humanity regarded these angels described as tall white haired beings with viperlike faces and burning eyes as gods and their realm the paradise wherein grew the tree of knowledge Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril
