and coach Ken Morrow will teach you how he lands several bass over ten pounds every year *Fly-Fishing for Sharks*

Richard Louv, 2002-06-19 For three years journalist Richard Louv listened to America by going fishing with Americans Doing what many of us dream of he traveled from the Atlantic to the Pacific from trout waters east and west to bass waters north and south Fly Fishing for Sharks is the result of his journey a portrait of America on the water fishing rod in hand To explore the cultures of fishing Louv joined a bass tournament on Lake Erie and got a casting lesson from fly fishing legend Joan Wulff He angled with corporate executives in Montana and fly fished for sharks in California He spent time with fishing boat captains in Florida the regulars who fish New York City's Hudson River and a river witch in Colorado He teamed secrets of fishing and living from steelheaders in the Northwest Bass n Gals in Texas and an ice fisher in the North Woods Along the way he heard from one of Hemingway's sons what it was like to fish with Papa and from Robert Kennedy Jr how fishing changed his life As he describes the eccentricities obsessions and tribulations of dedicated anglers he also uncovers the values that unite them He reveals the healing qualities of fishing how it binds the generations how the angling business has grown and how the future of fishing is threatened But most of all Fly Fishing for Sharks is about the unforgettable characters Louv meets on the water and the stories they tell From them Louv learns about our changing relationship with nature about a hidden America and about himself The Orvis Encyclopedia of Fly Fishing Tom Rosenbauer, 2010-11-07 From rods to reels fly lines to tippets fishing hats to hip boots this guide covers everything an angler will need before heading to the water If your favorite way to spend the day is stepping into a mountain stream fly fishing gear in hand to match wits with an elusive rainbow trout The Orvis Encyclopedia of Fly Fishing is the perfect companion Ideal for newcomers looking to get their feet wet as well as for seasoned fisherman who need a reliable reference this A to Z guide unlocks the mysteries of the sport including answers to questions such as Where in Montana will I find the best fly fishing for mountain whitefish Montana page 136 What kind of fish bite at night Night Fishing page 176 Which European country has the best fly fishing Scotland page 235 Can I catch a shark on a fly rod Sharks page 240 What's the difference between a Bucktail a Featherwing Streamer and a Woolly Bugger Streamers page 251 Written by Tom Rosenbauer a top instructor at the Orvis Fly Fishing School and loaded with stunning full color photographs and clear illustrations of step by step techniques The Orvis Encyclopedia of Fly Fishing serves as a comprehensive course in the fundamentals of the sport **Striper Wars** Dick Russell, 2013-02-22 When populations of striped bass began plummeting in the early 1980s author and fisherman Dick Russell was there to lead an Atlantic coast conservation campaign that resulted in one of the most remarkable wildlife comebacks in the history of fisheries As any avid fisherman will tell you the striped bass has long been a favorite at the American dinner table in fact we've been feasting on the fish from the time of the Pilgrims By 1980 that feasting had turned to overfishing by commercial fishing interests Striper Wars is Dick Russell's inspiring account of the people and events responsible for the successful preservation of one of America's favorite fish and of what has happened since Striper Wars is a tale replete with heroes and

some villains as the struggle to save the striper migrated down the coast from Massachusetts to Maryland Russell introduces us to a postman at arms against a burly trap net fisherman a renowned state governor caving to special interests and a fishing tackle maker fighting alongside marine biologists And he describes how champions of this singular fish blocked power plants and New York s Westway Project that would otherwise compromise its habitat Unfortunately those who cheered the triumphant ending to the campaign as the coastal states enacted measures that enabled the striped bass to make its comeback have found the peace transitory there is now a new enemy emerging on the front In recent years a chronic bacterial disease has struck more than seventy percent of the striped bass population in the primary spawning waters of the Chesapeake Bay Malnutrition seems to be a significant factor brought on by the same overfishing that plagued the bass in the first battle only this time the overfishing is devastating menhaden the silvery little fish upon which the bass feed Lessons learned during the first conservation battle are being applied here highlighting a need for a whole new ecosystem based approach to conserving species Only with constant vigilance by concerned citizens Dick Russell reminds us can environmental victories be sustained This particular fish story is a personal one for him and he follows the striper s saga today all the way to California where the fish was introduced in 1879 and where agribusiness now threatens its future For his conservation work during the 1980s Russell received a citizen s Chevron Conservation Award
