Terms with a Crisis Martin Butler, Sina Farzin, Michael Fuchs, Fabian Hempel, 2025-02-27 The COVID 19 pandemic hit the world as a purportedly novel situation with which people struggled to come to terms The contributions to this volume show how various actors reacted to this pandemic through specific forms of representation and storytelling in popular culture public discourse and science communication They demonstrate how these representations both leverage new media and resort to familiar scripts and characters to make sense of the situation Thus they uncover the transformative potential of narratives about epi pandemics across different domains and their contribution to the production of knowledge as well as the

recalibration of norms and values **ADE Bulletin** Association of Departments of English,1995 *America Now* Robert Atwan,2022-11-08 This thoughtful collection of essays immerses students in the public dialog surround some of the most important issues in America today *Sensing the Past* Jim Cullen,2013-01-09 How do perceptions of the past not just of particular events but of the trajectory of history as a whole shape our experience of the world *Sensing the Past* tackles this question with an unlikely source of historical insight the work of six major Hollywood stars Clint Eastwood Daniel Day Lewis Denzel Washington Tom Hanks Meryl Streep and Jodie Foster By focusing on the career choices made by these iconic actors Cullen uncovers a discrete set of historical narratives revealing the surprising ways historical forces shape our understanding of the world *The Columbia History of Post-World War II America* Mark C Carnes,2007-07-06 Beginning with an analysis of cultural themes and ending with a discussion of evolving and expanding political and corporate institutions *The Columbia History of Post World War II America* addresses changes in America s response to the outside world the merging of psychological states and social patterns in memorial culture scandal culture and consumer culture the intersection of social practices and governmental policies the effect of technological change on society and politics and the intersection of changing belief systems and technological development among other issues Many had feared that Orwellian institutions would crush the individual in the postwar era but a major theme of this book is the persistence of individuality and diversity Trends toward institutional bigness and standardization have coexisted with and sometimes have given rise to a countervailing pattern of individualized expression and consumption Today Americans are exposed to more kinds of images and music choose from an infinite variety of products and have a wide range of options in terms of social and sexual arrangements In short they enjoy more ways to express their individuality despite the ascendancy of immense global corporations and this volume imaginatively explores every facet of this unique American experience **From a Native Son** Ward Churchill,1996 Ward Churchill has emerged over the past decade as one of the strongest and most influential voices of native resistance in North America *From a Native Son* collects his most important and unflinching essays which explore the themes of *Voice and Inequality* Carew Boulding,Claudio A. Holzner,2021 Understanding who participates in politics and in which kinds of activities is central to understanding how democracies work This book offers the first large scale empirical analysis of political participation in 18 Latin American countries with a focus on understanding the political behavior of the region s poorest citizens Poor people in Latin America vote protest and contact government officials at surprisingly high levels approaching or exceeding levels of activism of individuals with significantly more resources and schooling To explain this puzzling finding we argue that key institutions of democracy including civil society political parties and competitive party systems are especially important for understanding the activism of poorer citizens and as a result have profound effects on inequalities in political participation *WPA, Writing Program Administration* ,1994 **Competing Voices from the Russian Revolution** Michael C. Hickey,2010-12-21 This new collection of documents helps students understand the complex

texture of Russian public rhetoric and popular debate during World War I and the 1917 Revolution How better to understand history than through the words of those who lived it *Competing Voices from the Russian Revolution* Fighting Words presents documents that underscore the extraordinary richness of public discussion about key events and issues during the 1917 Russian Revolution one of the pivotal events in modern history Carefully edited and annotated the documents help clarify the issues while revealing the broad range of ways in which Russians understood the events unfolding around them Focusing on public rhetoric and debate in Russia from the outbreak of World War I in 1914 through the dissolution of the Constituent Assembly in January 1918 the documents present the views not only of key political figures but also of ordinary men and women mothers soldiers factory workers peasants students businesspeople and educated professionals *Until the Fires Stopped Burning* Charles B. Strozier, 2014-08-05 Charles B Strozier's college lost sixty eight alumni in the tragedy of 9 11 and the many courses he has taught on terrorism and related topics since have attracted dozens of survivors and family members A practicing psychoanalyst in Manhattan Strozier has also accepted many seared by the disaster into his care In some ways the grief he has encountered has felt familiar in other ways unprecedented Compelled to investigate its unique character further he launched a fascinating study into the conscious and unconscious meaning of the event both for those who were physically close to the attack and for those who witnessed it beyond the immediate space of Ground Zero Based on the testimony of survivors bystanders spectators and victim's friends and families *Until the Fires Stopped Burning* brings much needed clarity to the conscious and unconscious meaning of 9 11 and its relationship to historical disaster apocalyptic experience unnatural death and the psychological endurance of trauma Strozier interprets and contextualizes the memories of witnesses and compares their encounter with 9 11 to the devastation of Hiroshima Auschwitz Katrina and other events Kai Erikson has called a new species of trouble in the world Organizing his study around zones of sadness in New York Strozier powerfully evokes the multiple places in which his respondents confronted 9 11 while remaining sensitive to the personal social and cultural differences of these experiences Most important he distinguishes between 9 11 as an apocalyptic event which he affirms it is not rather it is a monumental event and 9 11 as an apocalyptic experience which is crucial to understanding the act's affect on American life and a still evolving culture of fear in the world *The Edge of Race* Kalervo Gulson, Zeus Leonardo, David Gillborn, 2017-10-02 The phrase the edge of race can be used both as a description and as a response to two key concerns The first of these is that while race is increasingly on the periphery of education policy with a growing disregard shown for racist inequities as education systems become dominated by market driven concerns it is important that we map the shifting relations of race in neoliberal politics and policies The second concern is that at this time within and outside the spaces of the academy even to mention race equity is to risk condemnation marginalization and ridicule The authors in this collection use the edge of race as a provocation in order to examine the concepts methodologies policies politics processes and practices associated with race and racism in education The chapters offer empirical examples

of the perpetuation and perniciousness of racism that point to the continued salience of research about race. Additionally, the chapters make contributions to conceptual and methodological understandings of race and racism. The contributors illustrate the contingency, productivity, and fragility of race as a concept and point to how educational research continues to be a contested site in and from which to study race and education. This book was originally published as a special issue of *Discourse Studies in the Cultural Politics of Education*.

Explorations in Environmental Political Theory Joel Jay Kassiola, 2015-03-04. The contributors to this volume focus on the political and value issues that in their shared view underlie the global environmental crisis facing us today. They argue that only by transforming our dominant values, social institutions, and way of living can we avoid ecological disaster.

Voices Of The Religious Left Rebecca Alpert, 2000-05-24. What has happened to the religious left? If there is a religious left, why don't we hear more about it? The academics and activists who write this rich volume, edited by Rebecca Alpert, argue passionately on topics that concern all of us. Quoting from the Bible, the Torah, the Qur'an, the teachings of Buddha, as well as Native American folklore, they make the voices of the religious left heard, teaching lessons of peace and liberation. As this invaluable sourcebook shows, the religious left is committed to issues of human rights and dignity. Answering questions of identity and ideology, the essays included here stem from the culture wars that have divided orthodox and liberal believers. Responding to the needs of and raised by marginalized social groups, the writers discuss economic issues and religious politics as they champion equal rights and promote the teaching of progressive vision. Containing insightful perspectives of adherents to many faiths, *Voices of the Religious Left* makes it clear that there is a group dedicated to instilling the values of justice and freedom. They are far from silent. All of the essays in this collection represent the power of the written word as a vehicle for advocacy and social change. It is my hope that the readers of these essays will themselves feel compelled to think more about the importance of taking a stand on issues from religious perspectives and to act on something that compels them.

Legacies of Totalitarian Language in the Discourse Culture of the Post-Totalitarian Era Ernest Andrews, 2011-05-19. This book is unique in its kind. It is the first scholarly work to attempt a comprehensive and fairly detailed look into the lingering legacies of the communist totalitarian modes of thought and expression in the new discourse forms of the post-totalitarian era. The book gives also new and interesting insights into the ways the new presumably democratically minded political elites in post-totalitarian Eastern Europe, Russia, and China manipulate language to serve their own political and economic agendas. The book consists of ten discrete discussions, nine case studies or chapters, and an introduction. Chapter 1 discusses patterns of continuity and change in the conceptual apparatus and linguistic habits of political science and sociology practiced in the Czech Republic before and after 1989. Chapter 2 analyzes lingering effects of communist propaganda language in the political discourse and behavior in post-communist Poland. Chapter 3 analyzes the legacy of Soviet semantics in post-Soviet Moldovan politics through the prism of such politically contested words as

democracy democratization and people Chapters 4 and 5 discuss the way in which communist patterns of thought and expression manifest themselves in the new political discourse in Romania and Bulgaria respectively Chapter 6 examines phenomena of change and continuity in the socio linguistic and socio political scene of post Soviet Latvia Chapter 7 analyzes the extent to which the language of the post communist Romanian media differs from the official language of the communist era Chapter 8 examines the evolution of Russian official discourse since the late eighties with a view of showing whether or not new phenomena in the evolution of post Soviet discourse represent new development or just a mutation of the value orientations of the old Soviet ideological apparatus Chapter 9 gives a detailed and lucid account of the evolution of both official and non official discourse in China since the end of the Mao era
