Legacy of Conquest Patricia Limerick, 1987-12 This study corrects the misperceptions of the American West based on representations from novels and films and shows how western history was and is a vast economic event The Legacy of Conquest Patricia Nelson Limerick, 1987 Limerick is one of the most engaging historians writing today Richard White The settling of the American West has been perceived throughout the world as a series of quaint violent and romantic adventures But in fact Patricia Nelson Limerick argues the West has a history grounded primarily in economic reality in hardheaded questions of profit loss competition and consolidation Here she interprets the stories and the characters in a new way the trappers traders Indians farmers oilmen cowboys and sheriffs of the Old West meant business in more ways than one and their descendents mean business today 28 illustrations **Re-imagining the Modern American West** Richard W. Etulain, 1996-09 Describes changes in how the West has been seen from a male dominated frontier to a region with a powerful sense of place to a modern center of both genders ethnic groups and environmental interests The Routledge Companion to Gender and the American West Susan Bernardin, 2022-06-19 This is the first major collection to remap the American West through the intersectional lens of gender and sexuality especially in relation to race and Indigeneity Organized through several interrelated key concepts The Routledge Companion to Gender and the American West addresses gender and sexuality from and across diverse and divergent methodologies Comprising 34 chapters by a team of international contributors the Companion is divided into four parts Genealogies Bodies Movements Lands The volume features leading and newer scholars whose essays connect interdisciplinary fields including Indigenous Studies Latinx and Asian American Studies Western American Studies and Queer Feminist and Gender Studies Through innovative methodologies and reclaimed archives of knowledge contributors model fresh frameworks for thinking about relations of power and place gender and genre settler colonization and decolonial resistance Even as they reckon with the ongoing gendered and racialized violence at the core of the American West contributors forge new lexicons for imagining alternative Western futures This pathbreaking collection will be invaluable to scholars and students studying the origins myths histories and legacies of the American West This is a foundational collection that will become invaluable to scholars and students across a range of disciplines including Gender and Sexuality Studies Literary Studies Indigenous Studies and Latinx Studies **Stephen F. Austin** Gregg Cantrell, 2016-02-09 The Texas State Historical Association is pleased to offer a reprint edition of Stephen F Austin Empresario of Texas Gregg Cantrell's path breaking biography of the founder of Anglo Texas Cantrell's portrait goes beyond the traditional interpretation of Austin as the man who spearheaded American Manifest Destiny Cantrell portrays Austin as a borderlands figure who could navigate the complex cultural landscape of 1820s Texas then a portion of Mexico His command of the Spanish language respect for the Mexican people and ability to navigate the shoals of Mexican politics made him the perfect advocate for his colonists and often for all of Texas Yet when conflicts between Anglo colonists and

Mexican authorities turned violent Austin's accommodationist stance became outdated Overshadowed by the military hero Sam Houston he died at the age of forty three just six months after Texas independence Decades after his death Austin's reputation was resurrected and he became known as the Father of Texas More than just an icon Stephen F Austin emerges from these pages as a shrewd complicated and sometimes conflicted figure »**Gold Fever» and Women** Sigrid Schönfelder,2023-02-06 Throughout its history the American West symbolized a place of hope and new beginnings where anything was possible especially for men However the history written until the 1970s and 1980s excluded women Sigrid Schönfelder illustrates how the American West served as a catalytic gold mine for many transformations for women It draws on the life narratives of three healthcare providers whose devotion within the social reform movements of the long nineteenth century contributed significantly to shaping healthcare policies Their stories show how women contributed to place making in the West and served as role models for other women to enter the field of medicine *Muddy Ground* John William Nelson,2023-09-12 In early North America carrying watercraft usually canoes and supplies across paths connecting one body of water to another was essential in the establishment of both Indigenous and European mobility in the continent's interior The Chicago portage a network of overland canoe routes that connected the Great Lakes and Mississippi watersheds grew into a crossroads of interaction as Indigenous and European people vied for its control during early contact and colonization John William Nelson charts the many peoples that traversed and sought power along Chicago's portage paths from the seventeenth to the mid nineteenth centuries including Indigenous Illinois traders French explorers Jesuit missionaries Meskwaki warriors British officers Anishinaabe headmen and American settlers Nelson compellingly demonstrates that even deep within the interior power relations fluctuated based on the control of waterways and local environmental knowledge Pushing beyond political and cultural explanations for Indigenous European relations in the borderlands of North America Nelson places environmental and geographic realities at the center of the history of Indigenous Chicago offering a new explanation for how the United States gained control of the North American interior through a two pronged subjugation of both the landscapes and peoples of the continent **The New Western History** Forrest Glen Robinson,1998 Seven scholars examine the work of the new western historians who retell the story of the American West from the point of view of the oppressed and colonized and discuss ways to expand the horizons of this new approach to include fiction literature by women racial categories writers who presaged the movement popular culture and natural history *A New Significance* Clyde A. Milner,1996 These essays represent a reinterpretation of the American West in terms of the issues and subjects of late 20th century America The emphasis is on younger scholars The result is a basic book on the state and direction of Western history The Human Tradition in the American West Benson Tong,Regan A. Lutz,2002 The Human Tradition in the American West is an engrossing collection of 13 biographies of men and women whose contributions to the development of the American West have largely been left untold in the history books This volume goes beyond the traditional biographical

reader by including the lives that collectively offer racial and gender diversity as well as differing class and sexual orientation backgrounds Editors Benson Tong and Regan A Lutz have assembled an impressive group of scholars whose succinct and well written accounts will give students a more complete understanding of this diverse dynamic region of the United States This book is an excellent resource for courses on the American West U S history survey courses and courses in American social and cultural history *Parables of Possibility* Terence Martin,1995-01-05 *Parables of Possibility* *The North American West in the Twenty-First Century* Brenden W. Rensink,2022-11 This edited volume takes stories from the modern West of the late twentieth century and carefully pulls them toward the present explicitly tracing continuity with and unexpected divergence from trajectories established in the 1980s and 1990s *A New Significance* ,1996 *Hidden Treasures of the American West* Patricia Loughlin,2005 The stories of two women historians and one anthropologist of the 1930s and 40s and their work in Oklahoma and the Southwest **Faraway Ranch Special History Study, Chiricahua National Monument** Elizabeth Wegman-French,2006 *Frontiers Past and Future* Carl Abbott,2006 Abbott offers a fruitful new way to read science fiction one that also greatly enriches our understanding of western history and its impact on our collective imagination Detailing the overlap of science fiction and western fiction especially relating to their mutual interest in and concerns about frontier expansionism he reveals an unsuspected common ground that informs the writings of both camps Reviewing the work of many Hugo and Nebula Award winners as well as drawing upon popular film and television series like the Buck Rogers serials Abbott s study journeys across the far reaches of science fiction s universe

**The Motherless Child in the Novels of Pauline Hopkins** Jill Bergman,2012-12-17 Well known in her day as a singer playwright novelist and editor of the *Colored American Magazine* Pauline Hopkins 1859 1930 has been the subject of considerable scholarly attention over the last twenty years Nevertheless her novels have not received their critical due *The Motherless Child* the first book length study of Hopkins s major fictions fills this critical gap offering a sustained analysis of motherlessness in *Contending Forces* *Hagar s Daughter* *Winona* and *Of One Blood* **The Cultures of the American New West** Neil Campbell,2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company *Eugenic Nation* Alexandra Minna Stern,2005-08-08 Many people assume that eugenics all but disappeared with the fall of Nazism but as this sweeping history demonstrates the idea of better breeding had a wide and surprising reach in the United States throughout the twentieth century With an original emphasis on the American West *Eugenic Nation* brings to light many little known facts for example that one third of the involuntary sterilizations in this country occurred in California between 1909 and 1979 as it explores the influence of eugenics on phenomena as varied as race based intelligence tests school segregation tropical medicine the Border Patrol and the environmental movement *Eugenic Nation* begins in the 1900s when influential California eugenicists molded an extensive agenda of better breeding for the rest of the country The book traces hereditarian theories of sex and gender to the culture of conformity of the 1950s and moves to the 1960s arguing that the liberation

movements of that decade emerged in part as a challenge to policies and practices informed by eugenics      Reading the West Michael Kowalewski, 1996-02-23 The American West of myth and legend has always exerted a strong hold on the popular imagination and the essays in Reading the West examine some of the basis of that fascination Reading the West first published in 1996 is a collection of critical essays by writers independent scholars and critics on the literature of the American West in the last two centuries It showcases new ways of reading and understanding western writing Arguing for the importance of place in literature these essays explore what makes representative literary works western They also explore the multicultural and ecological dimensions of western writing This volume helps enrich our understanding of a distinguished body of literary work which has sometimes been unjustly ignored It deals not only with literature but with the changing conception of the West in the American imagination
