Legacy Of Stone Ancient Life On The Niagara Frontier:

Legacy of Stone Ronald F. Williamson, Robert I. MacDonald, Buffalo and Fort Erie Public Bridge Authority, 1998 The Mighty Niagara John N. Jackson, 2003-03 makes some notable contributions to the popular and scholarly literature about the Niagara region a welcome addition to the literature of US Canada cross border studies The Canadian Historical Review provides a most engaging and eloquently written story a learned tale of the Niagara region s associated historical triumphs and abiding challenges The book s geographical and social histories will be of interest not only to residents of the Niagara Frontier but to anyone who has ever been fascinated by the complexly related natural and technological wonders that have helped to make Niagara one of the world s most famous and enduring icons ISLE This in depth regional study of the Niagara Frontier traces the evolution of landscape and patterns of settlement on both sides of the Niagara River extending from St Catharines Ontario to Lockport New York This significant region astride an international frontier both connects and separates unites and divides Canadian and American territories bordering the Niagara River Like map overlays that build on an underlying base geography Professor Jackson s chronological approach begins with the qualities of the physical background and their ongoing ramifications up to the present for the use and development of land He then adds the Native settlements showing their trails and economic activities while highlighting the amazing fact that certain Native features remain an intrinsic part of the modern landscape The next time period reveals that the previous human landscapes once continuous across the Niagara River became acutely discontinuous with the creation in 1783 of an unseen but divisive international boundary Subsequent chapters follow the changes over the course of time as canals railways hydroelectric power and the dominance of the automobile in the present era all transform the environment Jackson also discusses Niagara Falls as the fulcrum around which the Niagara Frontier has developed and the impact of the tourist industry on the region This thorough analysis of an important international region will be of great use to students of regional urban and historical geography as well as to anyone involved in cross boundary trade education or tourism John N Jackson St Catharines Ontario is professor emeritus of applied geography at Brock University and the author of fourteen previous books on regional geography and history John Burtniak St Catharines now retired was the special collections librarian and university archivist at Brock University Gregory P Stein Buffalo NY is associate professor of geography and planning at SUNY College at Buffalo

Bones of the Ancestors Ronald F. Williamson, Susan Pfeiffer, 2003-01-01 This book provides a rare glimpse of thirteenth century life and death in a southern Ontario Iroquoian community The discovery in 1997 of an Iroquoian ossuary containing the remains of at least 87 people has given scientists a remarkably detailed demographic profile of the Moatfield people as well as strong indicators of their health and diet Published in English A Trail Called Home Paul O'Hara, 2019-05-04 An exploration of trees in the Golden Horseshoe and the stories they tell Trees define so much of Canadian life but many people particularly in the Golden Horseshoe area of Ontario don t know that much about them Granted it is harder here there are

more trees that are native to this area than anywhere else in Canada The great storytellers of the landscape trees are looking glasses into the past They speak of biology ecology and geology as well as natural and human history Through a greater understanding of trees we can become more rooted to the land beneath our feet and our place in it *Before Canada* Allan Greer,2024-01-15 Long before Confederation created a nation state in northern North America Indigenous people were establishing vast networks and trade routes Volcanic eruptions pushed the ancestors of the Dene to undertake a trek from the present day Northwest Territories to Arizona Inuit migrated across the Arctic from Siberia reaching Southern Labrador where they met Basque fishers from northern Spain As early as the fifteenth century fishing ships from western Europe were coming to Newfoundland for cod creating the greatest transatlantic maritime link in the early modern world Later fur traders would take capitalism across the continent using cheap rum to lubricate their transactions The contributors to *Before Canada* reveal the latest findings of archaeological and historical research on this fascinating period Along the way they reframe the story of the Canadian past extending its limits across time and space and challenging us to reconsider our assumptions about this supposedly young country Innovative and multidisciplinary *Before Canada* inspires interest in the deep history of northern North America Archaeology of Bruce Trigger Ronald F. Williamson,Michael S. Bisson,2006-08-24 Bruce Trigger has merged the history of archaeology with new perspectives on how to understand the past He is a critical analyst and architect of social evolutionary theory an Egyptologist and an authority on aboriginal cultures in north eastern North America His contextualization of archaeology within broader society has encouraged appreciation of the power of archaeological knowledge and he has been an effective voice for non oppositional forms of argument in archaeological theory In *The Archaeology of Bruce Trigger* leading scholars discuss their own approaches to the interpretation of archaeological data in relation to Trigger s fundamental intellectual contributions Contributors include Michael Bisson McGill Stephen Chrisomalis Toronto Jerimy J Cunningham Calgary Brian Fagan Lindbrior Corporation Clare Fawcett St Francis Xavier Junko Habu California at Berkeley Ian Hodder Stanford Jane Kelley Calgary Martha Latta Toronto Robert MacDonald Archaeological Services Inc Randall McGuire Binghamton Lynn Meskell Columbia Toby Morantz McGill Robert Pearce London Museum of Archaeology David Smith Toronto Peter Timmins Timmins Martelle Heritage Consultants Silvia Tom skov North Carolina Bruce G Trigger McGill Alexander von Gernet Toronto Gary Warrick Wilfrid Laurier Ronald F Williamson Archaeological Services Inc Alison Wylie Washington and Eldon Yellowhorn Simon Frasier **Borderline Canadianness** Jane Helleiner,2016-08-04 Canada and the United States share the world s longest international border For those living in the immediate vicinity of the Canadian side of the border the events of 9 11 were a turning point in their relationship with their communities their American neighbours and government officials *Borderline Canadianness* offers a unique ethnographic approach to Canadian border life The accounts of local residents taken from interviews and press reports in Ontario s Niagara region demonstrate how borders and everyday nationalism are articulated in complex ways across region

class race and gender Jane Helleiner's examination begins with a focus on the de bordering initiated by NAFTA and concludes with the re bordering as a result of the 9 11 attacks Her accounts of border life reveals disconnects between elite border projects and the concerns of ordinary citizens as well as differing views on national belonging Helleiner has produced a work that illuminates the complexities and inequalities of borders and nationalism in a globalized world *Structure and Regional Diversity in the Meadowood Interaction Sphere* Karine Taché, 2011-01-01 This monograph offers the first major synthesis of the Meadowood phenomenon one of the earliest and largest interaction spheres in northeastern North America This volume breathes new life into our understanding of the Early Woodland phenomenon 3000 2400 BP **Before Ontario** Marit K. Munson, Susan M. Jamieson, 2013-10-01 Before Ontario there was ice As the last ice age came to an end land began to emerge from the melting glaciers With time plants and animals moved into the new landscape and people followed For almost 15 000 years the land that is now Ontario has provided a home for their descendants hundreds of generations of First Peoples With contributions from the province's leading archaeologists Before Ontario provides both an outline of Ontario's ancient past and an easy to understand explanation of how archaeology works The authors show how archaeologists are able to study items as diverse as fish bones flakes of stone and stains in the soil to reconstruct the events and places of a distant past fishing parties long distance trade and houses built to withstand frigid winters Presenting new insights into archaeology's purpose and practice Before Ontario bridges the gap between the modern world and a past that can seem distant and unfamiliar but is not beyond our reach Contributors include Christopher Ellis University of Western Ontario Neal Ferris University of Western Ontario Museum of Ontario Archaeology William Fox Canadian Museum of Civilization Royal Ontario Museum Scott Hamilton Lakehead University Susan Jamieson Trent University Archaeological Research Centre TUARC Mima Kapches Royal Ontario Museum Anne Keenleyside TUARC Stephen Monckton Bioarchaeological Research Marit Munson TUARC Kris Nahrgang Kawartha Nishnawbe First Nation Suzanne Needs Howarth Perca Zooarchaeological Research Cath Oberholtzer TUARC Michael Spence University of Western Ontario Andrew Stewart Strata Consulting Inc Gary Warrick Wilfrid Laurier University and Ron Williamson Archaeological Services Inc **Amulets, Effigies, Fetishes, and Charms** Edward J.
