*Right, Power, and Faquanism* Zhiwei Tong, 2018-08-13 In *Right Power and Faquanism* Tong Zhiwei proposes that right and power are ultimately a unified entity which can be named faquan and that the purpose of law should

be to establish a balanced faquan structure and to promote its preservation and proliferation Faquan is thus a jurisprudential category reflecting the understanding of the unity of right and power It has interest protected by the law and property with defined ownership as its content and manifests itself as the external forms of jural right freedom liberty jural power public function authority competence privilege and immunity etc Faquanism relies mainly on six basic concepts faquan right power quan residual quan and duty to analyze the content of interests and property in all legal phenomena      **Reconceptualising Strict Liability for the Tort of Another** Christine Beuermann, 2019-11-28 This book adopts a novel approach to resolving the present difficulties experienced by the courts in imposing strict liability for the tort of another It looks beyond the traditional classifications of vicarious liability and liability for breach of a non delegable duty of care and for the first time seeks to explain all instances of strict liability for the tort of another in terms of the various relationships in which the courts impose such liability The book shows that despite appearances there is a unifying feature to the various relationships in which the courts currently impose strict liability for the tort of another That feature is authority Whenever the courts impose strict liability for the tort of another the defendant is either vested with authority over the person who committed a tort against the claimant or has vested or conferred a form of authority upon that person in respect of the claimant This book uses this feature of authority to construct a new expositive framework within which strict liability for the tort of another can be understood
