The Legend of Henry Ford Keith Sward,1989 **The legend of Henry Ford** Keith Sward,1968 **The Legend of Henry Ford** Keith Sward,1968 **Model T** David Weitzman,2002 Somehow Henry Ford knew what Americans were hankering for Everybody wants to be someplace he ain't As soon as he gets there he wants to go right back And so he pioneered the Model T the first affordable car for the masses David Weitzman has meticulously documented the development of the assembly line and the many innovations and adaptations Ford put to use in making his famous Tin Lizzy When the Ford plant first opened the crew could make 18 000 cars a year at a cost of 950 each In just ten years they had refined the process enough so that they could build one million cars in a year and the price had come down to about 350 Filled with detailed black and white drawings helpful text and captions and fascinating quotes from Ford employees this elegant book gives young readers a look at a mechanical genius in action **Henry Ford for Kids** Ronald A. Reis,2016-01-01 Henry Ford for Kids provides an in depth portrait of the man who put America on wheels You'll learn about Ford's childhood on a Michigan farm where the budding engineer loved to take apart and reassemble everything from toys to watches to machinery about his revolutionary labor ideas including paying higher wages and hiring women and the disabled at a time when many companies would not about his fervent opposition to war and the lasting impact of his widespread philanthropy But you'll also learn that this automotive giant was a flawed individual whose controversial views and heavy handed management style alienated many yet whose engineering genius and impact on the world are undeniable Packed with historic photos and illuminating sidebars the book brings the turn of the 20th century to life Twenty one hands on activities encourage young innovators to apply engineering and production ideas and learn more about the era Kids will build a lemon powered battery form an assembly line learn to read simple industrial drawings design an automobile dashboard learn to dance the waltz and much more

American Legends Charles River Editors,2014-03 Includes pictures Includes Ford's quotes about his own life and career Discusses the controversies surrounding Ford and Nazi Germany Includes a bibliography for further reading A business that makes nothing but money is a poor business Henry Ford I don't know much about history and I wouldn't give a nickel for all the history in the world It means nothing to me History is more or less bunk It's tradition We don't want tradition We want to live in the present and the only history that is worth a tinker's damn is the history we make today Henry Ford in a 1916 newspaper interview A lot of ink has been spilled covering the lives of history's most influential figures but how much of the forest is lost for the trees In Charles River Editors American Legends series readers can get caught up to speed on the lives of America's most important men and women in the time it takes to finish a commute while learning interesting facts long forgotten or never known Few Americans have a reputation and legacy anything like Henry Ford's the man whose name is still associated with one of the world's most famous car companies Ford is unquestionably one of his country's most famous industrialists and his use of an assembly line to mass produce automobiles was not only innovative but also made it possible

for Americans to own cars en masse To this day Ford Motor Company's Model T is a household name more than a century after they were manufactured not only because they were famous cars but because they represented affordable purchases that revolutionized the way people traveled across the country Cars would never be a luxury item only for the wealthy again Although Ford's use of an assembly line meant human labor was not as necessary as it would otherwise be he became known for advocating on behalf of labor rights including offering an unprecedented 5 work day the equivalent of 120 today which doubled how much his workers were previously making and helped ensure his company would be both popular and a destination for workers Ford helped Detroit become the Motor Capital and he was progressive when it came to hiring minorities and women In the process Ford who was born into a farming family of modest means also enriched himself beyond his wildest imaginations with Forbes magazine recently estimating that his net worth in today's dollars was nearly 190 billion However while Ford may arguably be America's most famous businessman part of that is due to his virulent anti-Semitism and his association with Nazi Germany in the 1930s and the lead up to World War II He invested in a weekly publication that became notorious for its screeds and Ford was the only American praised in Hitler's Mein Kampf because of his antagonism towards Jews Hitler went so far as to call Ford an inspiration On his 75th birthday Ford was awarded the Grand Cross of the German Eagle which was the highest honor a non-German could receive from Nazi Germany but one acquaintance later claimed that Ford was disgusted when he saw footage of Nazi concentration camps and what had happened to Jews across Europe
