**Flying Across America** Daniel L. Rust,2012-11-20 Americans who now endure the inconveniences of crowded airports packed airplanes and missed connections might not realize that flying was once an elegant exhilarating adventure In this

colorful history Daniel L Rust traces the evolution of commercial air travel from the first transcontinental expeditions of the 1920s through the luxurious airline environments of the 1960s to the more hectic fatiguing experiences of flying in the post 9 11 era In the beginning flying coast to coast was an exciting yet uncomfortable journey of nearly forty eight hours that required numerous stops and overnight travel by train With time and technical innovation passengers became increasingly removed both physically and psychologically from the raw experience of flying Faster planes pressurized cabins onboard amenities and stronger safety precautions made flying more convenient and predictable but also less evocative and sensational Prior to the 1980s Americans dressed for air travel in their formal best and enjoyed such luxurious onboard amenities as delicious meals and ample cabin space What made air travel glamorous however also made it more expensive With deregulation in 1978 cost reductions reduced flying to a more tedious and after 9 11 more regimented experience Rust s narrative brims with firsthand accounts from such celebrities as Will Rogers and from ordinary Americans Enlivened by more than 100 illustrations including vintage brochures posters and photographs Flying Across America reminds today s airline passengers of what they have gained and what they have lost in the transcontinental flying experience **Logan Airside Improvements Planning Project** ,2002 *The 20th Century Go-N* Frank N. the comfortable and fast F 27 turboprop then to the magical jet era and the state of the art F 28 Reg and his colleagues really were the trail blazers of post war flying up to the modern age But I Flew For MMA is more than just a terrific historical record of flying in W A and the N T It lays bare the highs and the lows of being an airline pilot The personalities the family aspects the industrial battles and the emotional trials and tribulations that go with being responsible for the lives of the passengers in sometimes trying and stressful conditions all the while being mindful of the desire to get the job done
