Political Routes to Starvation Bas Dianda,2019-03-15 This book seeks to reclassify famine by offering an in depth look at the phenomenon that continues to affect millions of people across the world every year Defined as a widespread scarcity of food Dr Basilio Dianda argues that the causes of famine cannot be reduced exclusively to a shortfall in agricultural output or to economic dynamics Instead an analysis of famine must take into account political and economic factors as well as agricultural climatologic and demographic data Political Routes to Starvation is the result of an all encompassing analysis of eighty famines from across the globe This extensive piece of research demonstrates that there are not only multiple factors at play in the genesis of a food crisis but also in its evolution to starvation Dianda contends that in order to fully understand the causes of famine it is necessary to reinstate a hierarchy between foundation and concomitant causes especially when cross comparing cases Importantly Dianda maintains that only a comprehensive approach to famine can appropriately answer the questions What is famine How does famine occur Why does famine kill

The Roman Legions Henry Michael Denne Parker, 1928 The period selected for study starts with the Marian army reforms and ends with the accession of Septimius Severus My main purpose has been to examine the internal organization of the legions the areas from which they drew their recruits and the conditions under which their soldiers served and were discharged An attempt has also been made to trace the movements of the legions in the first two centuries of the Principate the circumstances in which new units were raised and the normal orders of battle and march while in the introduction the stages by which the army developed in the pre Marian Republic have been sketched in outline Pref

To The Death Peter R.

Hall,2014-06-30 Focusing on the emergence of Christianity and its suppression by the Romans in the first century To The Death provides a riveting fictional account of the historical beginnings of Christianity In the first century AD the Jews of Jerusalem rebelled against Roman occupation The result was one of the bloodiest wars in history A million Jews died and thousands starved to death In 1500 BC migrant Jews from Egypt invaded Canaan Palestine and murdered the entire population claiming they were acting on a direct order from their God At the end of the war the treasures of the Jewish Temple were displayed in Rome along with thousands of captive Jews who would be sold into slavery to celebrate the Roman victory

Hunger and the Sword Paul Erdkamp,2023-01-16 Roman wars like those of later times took place in a landscape a landscape not only consisting of mountains plains and rivers but also of men tilling the soil travelling across sea or land or employing other means in their struggle for survival and even happiness This book undertakes to examine Roman wars in this context of the natural and human environment Roman warfare is generally examined from the viewpoint of the ancient authors on whose narratives our understanding depends As a consequence however Roman wars seem to have become events that took place on the pages of a book rather than in the environment of the Mediterranean world The way Roman wars were fought was determined by the geography and climate of the Mediterranean peninsulas by the ecological restraints on agriculture and transport and by the economic and social structures of the society of which the armies were a significant part This book relates warfare to one of the main conditions of survival it examines on the one hand

the food supply of the many thousands that manned the Roman armies and on the other the impact of war on the food supply of those people not waging war **France in an Era of Global War, 1914-1945** A. Carrol, L. Broch, 2014-09-30 In France in an Era of Global War scholars re examine experiences of French politics occupation empire and entanglements with the Anglophone world between 1914 and 1945 In doing so they question the long standing myths and assumptions which continue to surround this period and offer new avenues of enquiry *In the Foreign Legion* Légionnaire 17889, 1915
