**Politics Is for Power**

Eitan Hersh,2020-06-30 A groundbreaking analysis of political hobbyism treating politics like a spectator sport and an urgent and timely call to arms for the many well meaning well informed citizens who follow political news but do not take political action Do you consider yourself politically engaged Probably yes But are you really The uncomfortable truth is that most of us have good intentions We vote sometimes and occasionally sign a petition or attend a rally But we mainly engage by consuming politics as if it s entertainment or a hobby We obsessively follow the news and complain about the opposition to our friends or spouse We tweet and post and share The hours we spend on politics are used mainly as pastime Instead political scientist and data analyst Eitan Hersh offers convincing evidence that we should be spending the same number of hours building political organizations implementing a long term vision for our local communities and getting to know our neighbors whose votes will be needed for solving hard problems We could be accumulating power so that when there are opportunities to make a difference to lobby to advocate to mobilize we will be ready Aided by cutting edge social science as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously this book shows us how to channel our energy away from political hobbyism and toward empowering our values In an age of political turmoil and as the 2020 election looms *Politics Is for Power* is an inspiring vital read that will make you hopeful for America s democratic future
