The Report: Cote d'Ivoire 2020 Oliver Cornock, C te d Ivoire is an economic powerhouse in West Africa posting average growth of 8% between 2011 and 2018 However the rate of GDP growth in real terms fell to 6 7% in 2019 and is expected to contract to 2 7% in 2020 due to the Covid 19 pandemic and subsequent widespread shutdowns Looking to the future the IMF expects growth to rebound to 8 7% in 2021 highlighting the country s economic resilience

The Report: Tunisia 2017 Oxford Business Group, Tunisia s GDP totalled TD84 3bn 36 2bn in 2015 expanding at a rate of 0 8% down from growth of 2 3% the year before The fall was due to a variety of external factors including two terrorist incidents that negatively affected the tourism sector in particular and shook business confidence more generally However growth picked up somewhat in 2016 standing at 1% 1 4% and 1 3% in the first second and third quarters of the year respectively and is expected to maintain this upward trend in 2017 supported by greater export competitiveness Moves to bolster the economy through reforms such as the new investment law and plans to tackle wider structural issues

are likely to help to raise growth to higher levels than those witnessed in recent years as should the improvement in security since the 2015 attacks though the extent of this will depend in part on whether or not the economy of the country's main export destination and tourism source market the eurozone can emerge from its own recent slowdown *The Report: Morocco 2013* , The Report: Indonesia 2018 Oliver Cornock,2018 In 2018 the Indonesian economy recorded a growth rate of 5.2% the highest in five years This was in spite of a slump in the rupiah and a trade imbalance and took place against a backdrop of rising US interest rates and deteriorating trade relations between the world's two biggest economies The country's emphasis on industrialisation and infrastructure development is laying the foundations for continued economic growth Moreover the archipelago's growing middle class population geographical position and human capital development agenda alongside progress in free trade agreements make it a strong contender on the global economic stage The country holds considerable potential for developing entrepreneurial and creative prowess already being home to four unicorn startups Investors have continued to look beyond traditional destinations with emerging cities like Surabaya and Palembang showing strong possibilities for economic growth Although the outcome of the April 2019 national election will determine the course of further infrastructure development and tax reforms the future looks promising with predictions of continued growth accompanied by stable inflation The Report: Indonesia 2015 Oxford Business Group,2015-05-21 With the application of the right policies Indonesia could return to growth above 6% and perhaps eventually reach the 7% target set by the new president The government intends to double expenditure in the key areas of public works transport and agriculture and new plans include the construction of 2600 km of roads 15 airports 24 ports 3258 km of railway and the addition of around 35 000 MW to the state electricity company's current capacity The investments to be made in infrastructure have the potential to boost the economy in both the short and long term A shift to more investment and less consumption would help lead to more sustainable growth and insulate the country from external shocks Already the numbers are starting to head in the right direction The Report: The Philippines 2012 ,2012 **The Report: Indonesia 2008** ,2008 The Report: Papua New Guinea 2015 Oxford Business Group,2016-09-17 In Papua New Guinea hopes are high that real change is on its way the country's political administrative financial and technical leaders now have to find a way to ensure the most productive distribution and use of financial resources Many international actors are watching closely to see how this young country negotiates its path Papua New Guinea became a major exporter of gas in 2014 when the 19bn PNG liquefied natural gas LNG project was completed ahead of schedule and within budget significantly increasing the size and strength of the economy The year ahead is likely to see PNG benefit from the further development of its hydrocarbons sector fuelling the growth of its economy as a whole The LNG influx also poses challenges however in terms of ensuring inclusive growth and productive use of the new revenues PNG takes pride in being a final frontier of natural and cultural development but the task ahead is to protect the country's heritage while becoming part of the global economy The Report: Bahrain

2011 , **The Report: Ghana 2011** , *The Report: Jordan 2013* ,2013 *The Report: Dubai 2007* ,2007 *The Report: Abu Dhabi 2015* Oxford Business Group,2016-05-09 Hydrocarbons revenues still form the bulk of Abu Dhabi s GDP and while falling prices are a concern the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030 The past 10 years has seen the non oil sector expand strongly on the back of business friendly government policies as a result of which non oil sector growth now outpaces that of the oil sector Outside of hydrocarbons construction and manufacturing represent the biggest GDP contributors in the emirate with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth leveraging the emirate s natural resources growing downstream capabilities and strategic location Elsewhere Abu Dhabi s financial sector continues to assert itself and the expected 2015 launch of Abu Dhabi Global Market the UAE s second financial free zone is expected to boost activity in the sector Meanwhile visitor numbers to Abu Dhabi continue to rise with around 3.5m arrivals in 2014 up 25% on the previous year This growth is expected to continue as major infrastructure upgrades continue apace These include the expansion of Abu Dhabi International Airport and the development of the 1200 km wide Etihad rail project

The Report: Ghana 2016 Oxford Business Group,2015-11-24 The country has played a leading role in African affairs for decades having been one of the first states to gain independence on the continent and serving as one of the key centres of pan Africanism in the post independence era That role has continued in recent years with Ghana playing a central part in regional organisations like ECOWAS and the African Union Reliance on raw material exports combined with an income sensitive population and stubborn poverty levels in the northern regions of the country have created complications but Ghana has made significant progress in recent years and has begun to build the necessary foundations for long term growth

The Report: Malaysia 2011 - Oxford Business Group ,2011 **The Report: Kuwait 2022** Oliver Cornock, The economy of Kuwait has long been underpinned by the production and export of crude oil Although the rise in energy prices in 2021-22 boosted government revenue and macroeconomic stability the Covid 19 pandemic which preceded the commodity price boom underscored the risk of over reliance on an industry subject to fluctuating global demand This has created fresh impetus for economic diversification with robust public finances providing a strong platform to implement infrastructure development programmes such as the Silk City mega development port expansion and new refineries which the government hopes will unlock further investment and private sector growth

The Report: Brunei Darussalam 2014 Oxford Business Group,2014-12-04 Following its successful chairmanship of ASEAN in 2013 Brunei Darussalam will look to continue its role as a regional leader in areas ranging from defence to commerce The increased focus on diversification and the growth of several industries bode well for the economy and the coming years are expected to see Brunei Darussalam further bolster its position within ASEAN and the international economy Commanding the second highest GDP per capita among all ASEAN member nations at 39 700 in 2013 Brunei Darussalam remains one of the most advanced economies in the

South east Asia region Historically the hydrocarbons industry has dominated the Bruneian economy and allowed the country to amass considerable wealth However the nation is making an earnest effort to diversify its economy to ensure future economic stability and sustainability Thanks in large part to the efforts of the Brunei Economic Development Board the nation has successfully brought in several major international investments in recent years including a multi purpose defence and aviation training centre The Sultanate is also targeting growth in bio industry through investments in research and development as well as expanding the global reach of its halal food industry

Land, Labour and Diet in Northern Rhodesia Audrey Isabel Richards, 1995 This reprint of a study by Dr Audrey Richards 1899 1984 describes the living conditions of the Bemba of North Eastern Rhodesia with special reference to the effects of migrant labour on the social and economic life of a mainly agricultural society Although primarily concerned with the production distribution and consumption of food and with conditions of labour and standards of living the book gives a vivid picture of the social structure of the Bemba their political organisation and the functions of the chief systems of land tenure kinship groupings and the whole complex of economic social and magico religious factors which arise in any community The book has been widely recognised as an authoritative study particularly among economists and anthropologists
