*National Urban Recreation Study* United States. Heritage Conservation and Recreation Service,1978      National Urban Recreation Study: Technical report 13 ,1978      Leisure Education: A Cross-National View Atara Sivan,Robert A.

Stebbins,2016-04-08 Leisure education plays a central role in both the field of leisure studies and the pursuit of leisure itself Everywhere in the modern world the most effective use of free time for individuals comes with knowing about the many leisure activities available to them and the rewards and costs that accompany their interest in each It is through leisure education in one form or another that they gain such knowledge Yet as important as this educational process is its study is only beginning to take off in non Western societies where however it cannot be assumed to be the same as in the West This book contains several comparisons of Western and non Western practices in leisure education Knowing these practices contributes ultimately to a deep understanding of the nature of the huge variety of leisure activities enjoyed across the planet and of the reasons why people go in for the ones they do This book was based on a special issue published in the World Leisure Journal

**The Routledge Handbook of Events** Stephen J. Page,2014-10-14 It is the first major study to examine what events is as a discipline in the twenty first century its significance in contemporary society and growth as a mainstream subject area The book is divided in to five inter related sections Section one evaluates the evolution of events as a discipline and defines what Events Studies is Section two critically reviews the relationship between events and other disciplines such as tourism and sport Section three focuses on the management of events section four evaluates the impacts of events from varying political social and environmental perspectives and section five examines the future direction of growth in event related education and research

*Journal of Physical Education, Recreation & Dance* ,1986 **The Serious Leisure Perspective** Robert A. Stebbins,2020-07-25 The Serious Leisure Perspective SLP is a theoretic framework developed by Robert A Stebbins in 1973 that brings together three main forms of leisure known as serious leisure casual leisure and project based leisure The SLP has evolved considerably since 1973 and this textbook provides a synthesis of the many concepts and propositions as well as the data supporting them In this overview Stebbins organizes the entire framework along conceptual lines with careful attention to level of empirical support and validation of each concept presenting an up to date version of the SLP that allows interested students and researchers of social psychology sociology and leisure studies to pinpoint exact elements of the theory the empirical base and its application Towards a Theory of Planned Economy Branko Horvat,2018-09-28 This title was first published in 1964 The purpose of the present study is to examine the issues involved in designing an efficient economic system in given historical circumstances The author draws heavily on the experiences provided by the failures and successes of the postwar Yugoslav economy The book is one of the first major studies in English of the theory of an economy of the Yugoslav type Leisure, Toward a Theory and Policy Hillel Ruskin,1984 Participants at an international conference on leisure contribute to this multidisciplinary volume which seeks better public policy decision making on the problems generated by the abundance of leisure in advanced technological societies *A London Bibliography of the Social Sciences* ,1931 Vols 1 4 include material to June 1 1929 VET Boost: Towards a Theory of Professional Competencies ,2009-01-01 The themes of the different papers in this book are related to five major areas of research First the book presents the work on a large scale assessment in vocational and occupational education and training Reason was the work of Frank Achtenhagen and his colleagues on the preparation of a VET PISA which started in 2004 which has now become more and more a concrete program The contributions to this part of the book contain a project description and profound presentations and discussions of measurement and evaluation problems It reflects also the work of Achtenhagen with respect to item response theory measurement and testing The second part of this book presents a unique endeavour of promoting VET research The Swiss Federal Office for Professional Education and Technology OPET initiated a program of Leading Houses of VET which are dedicated to different important research topics This program might serve as example for comparable approaches in other countries The third part highlights central issues of research on learning processes curriculum theory

and the use of technology Here the work of Achtenhagen on competence profile modelling competence measurement and instructional and curriculum designing is touched The fourth part stresses social and emotional learning as important aspects of VET learning The fifth part considers the political and institutional dimensions of VET research which have to be taken into account when an international large scale assessment of VET shall be getting started Achtenhagen s work on learning at work leaning in economics and learning under the conditions of institutional modelling are discussed The whole book is a collection of central issues around a field that is not yet taken enough into consideration in educational research but pushed and supported by Frank Achtenhagen VET research He belongs to the founding fathers of it and this is why precisely the book reflects new trends and new concepts with respect to the question What can we educational psychologists and educational researchers learn from a rich and central research field **Leisure's Legacy** Robert A. Stebbins,2017-07-17

This book illustrates how leisure as with other complex ideas that hold currency in today s world suffers at the level of common sense due to a combination of oversimplification moral depreciation and even lack of recognition Leisure s modern legacy is both profound and immense as a product of approximately 45 years of steady research application and theory development The common sense view of free time activities therefore can and should be challenged Stebbins provides this confrontation by tackling four particular themes that gatekeepers within the institutions of higher education and funding agencies for research often fail to attach adequate resources to the idea of leisure that the general population are guided by certain common sense definitions and largely unaware of how an informed view of free time could be beneficial that practitioners within certain fields continue to refuse to engage with the idea of leisure despite its benefit for their clients and that the weak reception of the science of leisure within mainstream social sciences suggests a similarly warped understanding of how people use their free time Leisure s Legacy will be of interest to scholars of Leisure Studies and all those wishing to learn more about the vital importance of leisure in modern Western society The Palgrave Handbook of Dark Tourism Studies Philip R. Stone,Rudi Hartmann,Tony Seaton,Richard Sharpley,Leanne White,2018-02-20 This handbook is the definitive reference text for the study of dark tourism the contemporary commodification of death within international visitor economies Shining a light on dark tourism and visitor sites of death or disaster allows us to better understand issues of global tourism mobilities tourist experiences the co creation of touristic meaning and difficult heritage processes and practices Adopting multidisciplinary perspectives from authors representing every continent the book combines real world viewpoints from both industry and the media with conceptual underpinning and offers comprehensive and grounded perspectives of heritage that hurts The handbook adopts a progressive and thematic approach including critical accounts of dark tourism history dark tourism philosophy and theory dark tourism in society and culture dark tourism and heritage landscapes the dark tourist experience and the business of dark tourism The PalgraveHandbook of Dark Tourism Studies will appeal to students and scholars with an interest in aspects of memorialisation and morality in sociology death studies history

geography cultural studies philosophy psychology business management museology and heritage tourism studies politics religious studies and anthropology      **Strategic Event Leveraging** Vassilios Ziakas, 2021-10-25 This book comprehensively describes explains critiques and refines our current perspectives of event leveraging and in so doing provides an analytic account of the subject area as a whole as it concerns the strategic pursuit of attaining and magnifying benefits that derive from events Encompassing all events including sport cultural and business it also covers all kinds of benefits that can be leveraged and lead to sustainability through triple bottom line assessment The book takes an interdisciplinary approach to cross boundaries and creates linkages among the parent disciplines sport management events hospitality and tourism leisure studies parks and recreation and general disciplines management marketing sociology anthropology urban and regional planning Building a truly global and transdisciplinary framework the author provides direction and possibilities that can lead to new forms of leveraging making this an excellent resource for researchers practitioners and students interested in event management and policy sport management recreation and leisure and hospitality tourism and festival management
