Lenin On The National Liberation Movemen:

Lenin on the National Liberation Movement, 1960 Lenin on the National Liberation Movement Vladimir Il'ich Lenin, 1975 **Lenin on the National Liberation Movement** Vladimir Il'ich Lenin, 1975 **The National Liberation Movement in the East** Vladimir Il'ich Lenin, 1969 *The Soviet Union and National Liberation Movements in the Third World* Galia Golan, 2022-12-28 The Soviet Union and National Liberation Movements in the Third World 1988 is a systematic comparison of Soviet theory about and actual behaviour toward movements for national liberation in the Third World In this definitive study Professor Golan demonstrates that Soviet behaviour toward such movements is consistent with Soviet theory as stated in the writings and speeches of high level influential within the Party military and academic communities In so doing she advances our understanding of the rules of thumb that Soviet leaders appeared to follow in deciding whether and how to assist the varied types of anti imperialist and separatist movements in the developing world The first part of the book provides a detailed analysis of the various schools of thought among Soviet writers concerning different aspects of national liberation movements and the second part analyses actual Soviet behaviour toward numerous movements around the world

Lenin and National Liberation in the East Bobodzhan Gafurovich Gafurov, Georgii Fedorovich Kim, 1978 **Lenin, Hegel, and Western Marxism** Kevin B. Anderson, 2021-12-20 Still the only full length study of the achievements and limitations of Lenin s extensive writings on Hegel Hegel Lenin and Western Marxism has become a minor classic In a full critical account Anderson s book connects Lenin s dialectics to his renowned writings on imperialism anti colonial movements and the state It takes up as well the debate over Lenin s writings on Hegel among Marxists such as Georg Luk cs Henri Lefebvre C L R James Raya Dunayevskaya Lucio Colletti and Louis Althusser With a comprehensive new introduction by the author This book is an updated and expanded edition with a new Introduction by the author originally published by The University of Illinois Press 1995 978 02 52 06503 3 *National Communism* Peter Zwick, 2019-03-04 According to the generally accepted view that nationalism is alien to communism and that internationalism disallows divisions based on nations the existence of national communism is often interpreted as a sign of the breakup of the world communist movement This book reexamines the evidence on the role of nations and national variations beginning with Marx and moving through Leninism and Stalinism to Titoism Maoism Castroism and current national liberation movements e g in Nicaragua Professor Zwick concludes that nationalism has always been an inherent element of communism He demonstrates with numerous concrete cases that rather than signaling the decline of communism national adaptation is the source of its strength The limits of national variation as defined by the Brezhnev Doctrine are precisely defined and examined in the cases of Hungary Czechoslovakia and Poland The book bridges the gap between Marxist theory and communist practice with respect to the central role that nationalism will continue to play in the contemporary world No other study presents this material in a cross national comparative perspective **The Bolsheviks and the Chinese Revolution, 1919-1927** Alexander

Pantsov, 2000-02-01 The opening of former secret Soviet archives has broadened the documentary base for a new study of Bolshevik policy in China on the eve of and during the revolution of 1925-1927. The aim of this work is to incorporate these new documents into a scholarly study and on that basis to explore the essence of the Russian Bolsheviks' main concepts concerning the Chinese revolution. The work was designed to determine the influence of these concepts exerted on the Chinese Communist Party (CCP) through an analysis of the way various adherents of the Chinese Communist movement perceived them. The primary sources used in this book include previously unpublished archival material on the Comintern, the All Union Communist Party (Bolshevik), and the CCP reflecting the theories and political practice of Leninism, Trotskyism, and Stalinism, and of the Russian and Chinese Left Oppositions, works by Lenin, Stalin, Trotsky, and other leaders of the Executive Committee of the Communist International, and the CCP published in East Asia, Europe, and the U.S. Comintern journals and bulletins, private interviews carried out by the author with participants and eyewitnesses of the events treated in the book, and memoirs of various Chinese revolutionaries. *Translations from Kommunist*, 1966. *Lenin Reloaded*. Sebastian Budgen, Stathis Kouvelakis, Slavoj Žižek, 2007-06-11 At a time when few people seriously consider alternatives to global capitalism, this work argues that Lenin demonstrates the inseparability of truth and partisanship: the taking of sides is an argument liberal leftists must hear now. **When the Soviet Union Entered World Politics**. Jon Jacobson, 2023-11-15 The dissolution of the Soviet Union has aroused much interest in the USSR's role in world politics during its 74-year history and in how the international relations of the twentieth century were shaped by the Soviet Union. Jon Jacobson examines Soviet foreign relations during the period from the end of the Civil War to the beginning of the first Five Year Plan, focusing on the problems confronting the Bolsheviks as they sought to promote national security and economic development. He demonstrates the central importance of foreign relations to the political imagination of Soviet leaders both in their plans for industrialization and in the struggle for supremacy among Lenin's successors. Jacobson adopts a post-Cold War interpretative stance incorporating glasnost and perestroika era revelations. He also considers Soviet relations with both Europe and Asia from a global perspective, integrating the two modes of early Soviet foreign relations: revolution and diplomacy into a coherent discussion. Most significantly, he synthesizes the wealth of information that became available to scholars since the 1960s. The result is a stimulating work of international history that interfaces with the sophisticated existing body of scholarship on early Soviet history. Neil Harding, 2009 Caricatured as a superhuman idol in the former Communist states, the Russian revolutionary socialist V. I. Lenin has long been reversely caricatured in the West as an authoritarian elitist. In this brilliant, carefully researched analysis, Neil Harding upends these traditional Cold War interpretations of Lenin's thought and activity. Harding shows how Lenin's flexible and continuously changing theoretical

strategic and tactical insights were firmly grounded in the emancipatory potential for working class revolution in Russia and around the world Neil Harding is an internationally renowned scholar of Soviet history **National Liberation, Socialism, and Imperialism** Vladimir Il'ich Lenin,1968 This book collects several of Lenin s basic theoretical essays on nationalism and the right of nations to self determination with historic analyses of Russia and other European countries Back cover Lenin and Ideological Problems of the National-Liberation Movement Alexey Litman,1970 Soviet, East German, and Cuban Involvement in Fomenting Terrorism in Southern Africa ,1982 **Translations on International Communist Developments** ,1963 *Marxism in India* Kiran Maitra,2012-11-08 Kiran Maitra retired as Director Special Projects Indian Council of Historical Research ICHR A well known historian he was closely involved in India s freedom movement in West Bengal His in depth knowledge of the communist movement in India stems from his personal involvement with the affairs of the Communist Party of India for nearly a decade from 1971-81 when he was an Accredited Member Comrade of the Communist Party of India **October Revolution and National Liberation Movement of a New Type** Narahari Kaviraj,1978 **The political ecology of colonial capitalism** Bikrum Gill,2024-11-05 This book situates the post financial crisis phenomenon of the global land grab within the longue duree of the capitalist world system It does so by advancing a theoretical and historical framework called the political ecology of colonial capitalism that clarifies the key role played by the co production of race and nature in provisioning the ecological surplus that has historically secured the emergence and reproduction of capitalist development The key premise of this book is that the global land grab constitutes another such attempted moment of re securing the cheap food premise through racialized frontier appropriation The argument advanced here is that within the neoliberal crisis conjuncture the hegemonic resolution of capital s escalating social ecological contradictions necessitates through the practice of global primitive accumulation the racialized construction of frontiers of unused nature in emergent zones of appropriation
